**Splash!** Howard Means, 2020-06-02 Choose a stroke and get paddling through the human history of swimming! From man's first recorded dip into what's now the driest spot on earth to the splashing, sparkling pool party in your backyard, humans have been getting wet for 10,000 years. And for most of modern history, swimming has caused a ripple that touches us all--the heroes and the ordinary folk; the real and the mythic. **Splash!** dives into Egypt, winds through ancient Greece and Rome, flows mostly underground through the Dark and Middle Ages (at least in Europe), and then reemerges in the wake of the Renaissance before taking its final lap at today's Olympic games. Along the way, it kicks away the idea that swimming is just about moving through water, about speed or great feats of aquatic endurance, and shows you how much more it can be. Its history offers a multi-tiered tour through religion, fashion, architecture, sanitation and public health, colonialism, segregation and integration, sexism, sexiness, guts, glory, and much, much more. Unique and compelling, **Splash!** sweeps across the whole of humankind's swimming history--and just like jumping into a pool on a hot summer's day, it has fun along the way.

**Splash!** Ann Jonas, 1997-04-24 **Splash** goes the cat! **Splash** goes the dog! Who's jumping in the pond? Falling in and crawling out, how many animals can you count?

**Splash** Charli Howard, 2018-07-05 A much-needed book that will strike a chord with so many girls - and help them dare to be different. - Jacqueline Wilson Molly is in her final year of primary school, with secret dreams of becoming an Olympic swimmer. Having always lived in the shadow of her manipulative friend, Chloe, Molly finally has the chance to compete in a regional swimming contest and define herself on her own terms. But with the pressure of fitting in, and the sudden arrival of her mysterious mum, will she give up on her dreams for a shot at popularity? A hugely exciting debut with a classic underdog story, a wonderfully relatable protagonist, and an important message of friendship, body positivity, and celebrating who you are. I loved the voice in this accomplished debut, which touches on important issues of bullying and body dysmorphia. - Fiona Noble, The Bookseller

**Splash** , 2019-04-02 **Splash** provides the inspiration for anyone designing, or dreaming about, their own pool. This celebration of the style, design, and joy that pools bring to us brims with over 200 glamorous photographs. It is organized by swimming pool design--from glimmering infinity pools with a view of the ocean to dramatic cascading waterfall pools and those in lush garden settings. Ranging from beautifully landscaped backyards to dramatic beaches and tropical paradise surroundings, the stunning pool locales show creative examples of pools as architecture and organic forms. In the mix are seductive pools owned by such celebrities as Cher and Dianne Keaton and leading designers Bunny Williams and Carolyn Roehm, as well as masterpieces by famed architects Frank Lloyd Wright, Richard Neutra, and Luis Barragán. **Splash** concludes with a section on poolside elements, from tiled steps, patterned surfaces, and Jacuzzis to pool houses with outdoor showers, landscaping, furnishings, and much more. Every example evokes the enduring and irresistible appeal of the swimming pool.

It's summer, and Sunny is BORED. Most of her friends are out of town. Her mom wants her to baby-sit way

more than Sunny wants to baby-sit. There's nothing good on TV. The only place that's cool (in a not-boring sense) and cool (in a not-hot sense) is the community pool. Sunny loves going there . . . and loves it even more when she's offered a job at the snack shack. Soon she's flinging fries and serving soft ice-cream like a pro . . . with the assistance of the very sweet boy who works with her. Sunny's mom isn't sure Sunny should be quite so independent. Her poems flow from Scripture, family, friends, and cancer in this open and beautiful collection of poems. -Robert W. Kimsey, Blue Ridge Poets and Writers; author of *Air Swimmer* Our family has had its own struggles with suffering, so I connect with Maggie's journey of faith. As she expresses my own thoughts and feelings in her poetry, she inspires me to articulate for myself new ways of thinking about my journey and that of my family. I especially loved '*Sand In My Shoes*.' -Karon Morton, VP InterVarsity Christian Fellowship/USA Capturing time through poetry, Maggie Bruehl invites you to come with her through reflections from the Bible and everyday life, where things as simple as cleaning silver or being stranded on the side of the road evoke poems. Life is reflected in relationships, and with distinct candor, Maggie exposes her own failures, inspiration, and joy. Life also contains suffering. An incurable form of cancer has forced Maggie to face fears of death and live each day fully. *Splash: Captured Moments in Time* invites you on a journey, reconnecting with your own most personal, inspiring and lasting moments.

**Splash 17** Rachel Rubin Wolf, 2016-08-03 A revealing gesture, a brilliant quality of light, a particularly perfect bloom... This volume of Splash is dedicated to those glorious sparks of inspiration, and the stories of how 129 artists fanned them into some of today's greatest watercolor paintings. The emotional connection between subject and artist resonates in these pages, delivering the caliber of art and insight that has made Splash a perennial favorite. • 135 paintings, reproduced in large, juicy color • A diverse range of styles and subjects, including still lifes, portraits, city scenes, animals and landscapes • Commentary reveals the artists' passion, approaches and techniques The artists spotlighted inside found inspiration in even unlikely places. They spotted it in peeling paint, the faces of strangers, and the view from the kitchen window. They found beauty in places as poetic as Paris, and as seemingly pedestrian as a dilapidated shed. From a hawk proudly posed against a cloudless, cerulean sky to an everyday table setting transformed by light into a kaleidoscope of color, these are the moments that stopped artists in their tracks, to create the kind of paintings that do the same. Whatever made you hold your breath or turn your head the first time you saw it, that is what you should paint! --Kathleen Lanzoni

This article will explore the advantages of Splash books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Splash books and

manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Splash books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Splash books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally,

many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Splash books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips.
