House of Night:Spin-offs P.C. Cast,Kristin Cast,2021-02-16 4 LIVROS EM 1! Esta edição especial reúne as 4 spin-offs da série House of Night: O juramento de Dragon, O voto de Lenobia, A maldição de Neferet e A queda de Kalona. O JURAMENTO DE DRAGON: No início do século XIX, Dragon Lankford é um adolescente humano problemático, embora talentoso. Ao ser Marcado a bordo de um navio rumo à América, ele é salvo da morte certa por um Filho de Erebus que enxerga nele grande potencial. Na Morada da Noite, Dragon dá início a sua própria jornada para se tornar um mestre espadachim – mas quando uma ameaça sorrateira emerge, a ajuda de Dragon é requisitada. Suas misteriosas habilidades de luta fazem dele um calouro poderoso, mas isso será suficiente para repelir a nova Escuridão que se aproxima? O VOTO DE LENOBIA: Evreux, França, 1788: Antes de se tornar a professora favorita de Zoey, Lenobia é apenas uma garota normal de dezesseis anos... mas com problemas suficientes para uma vida inteira. Filha ilegítima de um poderoso barão, ela tem de cuidar de sua mimada meia-irmã, Cecile. E, como se isso não bastasse, sua marcante beleza atrai indesejada atenção aonde quer que ela vá. Mas o destino intervém, e Lenobia de repente se encontra cercada por outras garotas em um navio rumo a Nova Orleans, onde deverão se casar com os rapazes mais ricos da cidade. E elas não estão sozinhas. Um maligno bispo, perito em magia negra, faz a mesma jornada. Durante a viagem, um generoso rapaz e seu belo cavalo logo capturam a atenção da jovem Lenobia, despertando em seu coração o desejo de um amor proibido. Descubra mais sobre uma de suas professoras favoritas nesta spin-off de House of Night. A MALDIÇÃO DE NEFERET: Neferet, a obscuramente sedutora Alta Sacerdotisa da Morada da Noite de Tulsa, nem sempre foi uma poderosa

vampira, mas sempre foi bela. Criada na Chicago da virada do século sem a presença da mãe, sua admirável beleza acaba por torná-la refém de atenção indesejada e de abusos, o que a deixa com feridas impossíveis de cicatrizar – e uma Escuridão que um dia precisaria ser libertada. Ao ser Marcada e adquirir seus poderes, Neferet converte sua raiva em poder, e busca uma maneira de consolidar sua vingança. A QUEDA DE KALONA: Do Sol e da Lua nascem dois irmãos alados: o dourado Erebus, companheiro e amigo, e o misterioso Kalona, guerreiro e amante, ambos destinados a satisfazer a Deusa Nyx, que os ama profundamente, mas de maneiras distintas. Para Kalona, no entanto, as noites de Nyx não são o bastante. Dominado pela raiva e pelo ciúme que sente de Erebus – e doente de amor por sua Deusa –, Kalona busca o poder de provar seu valor e reivindicar de uma vez por todas a exclusividade do amor de Nyx, enquanto a Escuridão se agita, apenas aguardando por uma chance.

Directions for Pedagogical Construction Grammar Hans C. Boas, 2022-02-21 How can insights from Construction Grammar (CxG) be applied to foreign language learning (FLL) and foreign language teaching (FLT)? This volume explores several aspects of Pedagogical Construction Grammar, with a specific look at issues relevant to second language acquisition, FLL, and FLT. The contributions in this volume discuss a wide range of constructions, as well as different resources, methodologies, and data used to learn constructions in the language classroom. More specifically, they seek to provide answers to the following questions: What do new constructional approaches to teaching and learning foreign language look like that take the insights of CxG seriously? What should electronic resources using constructions and semantic frames for foreign language instruction look like? How should constructions (pairings of form with

meaning/function) in the foreign language classroom be introduced? What role does frequency play in learning constructions in the language classroom? What types of strategies does CxG offer to facilitate the acquisition of a second language? This volume is relevant for anyone interested in second language acquisition, foreign language pedagogy, Construction Grammar, and Cognitive Linguistics. Endorsements: If first language learning flows forth from language use, teaching language should be based on relevant usage-patterns, modified in accordance with the advanced cognitive and linguistic knowledge of older learners. The current volume shows how insights from first and second language learning and usage-based Construction Grammar can be turned into evidence-based teaching strategies. Heike Behrens, University of Basel Usage-based Construction Grammar has changed our view of language learning, but it is only recently that researchers have begun to apply the insights of the constructionist approach to language pedagogy. This volume brings together a collection of articles in which experts of Construction Grammar and Usage-based Linguistics make concrete proposals for teaching constructions by using corpora and other resources. A must read for everybody interested in grammar teaching. Holger Diessel, University of Jena With Directions for Pedagogical Construction Grammar, Boas has produced an impressive and much-needed volume which excels at illustrating the immense potential of constructionist approaches to improve language pedagogy. The contributions to this volume, all authored by leading cognitive and corpus linguists, convincingly describe what a successful future of language teaching could look like—one that is founded in usage-based linguistics and takes language patterns seriously. I consider this volume essential reading for any applied linguist. Ute Römer, Georgia State University

The Fall of the House of Usher Edgar Allan Poe, 2020-10-05 Considered one of Poe's most famous and best constructed terror short stories, *The Fall of the House of Usher* is most likely to grab the reader in its clutches and never let them go. Running along the dull, dark, and soundless corridors of Usher's mansion or conversing with the terror-stricken and husky voice of its master, Poe's story reeks of morbidity and schizophrenia. Though relying on already established characters and themes from his previous tales, Poe describes the workings of the psyche, the realm of dreams, and even the lands of madness in great detail, securing the story its rightful place and acclaim. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include *The Raven* (1845), *The Black Cat* (1843), and *The Gold-Bug* (1843).

EngLits-the House of the Seven Gables (pdf) Publishing Interlingua Publishing, 2006-10 Detailed summaries of great literature.

The Fall of the House of Usher and Other Stories Edgar Allan Poe, 2010-09-30 Edgar Allan Poe was a writer of uncommon talent; in *The Murders in the Rue Morgue* he created the genre of detective fiction while his genius for finding the strangeness lurking within us all has been an influence on everyone from Freud to Hollywood. This complete collection of all his short stories and novellas contains well-known tales 'The Pit and the Pendulum' and 'The Tell-Tale Heart' alongside hidden gems that both unsettle and enthrall the reader.

A group that sits with its finger on the trigger of a torpedo so deadly it could level entire cities.
