The Tapping Solution Nick Ortner,2013-04-02 Nick Ortner, founder of the Tapping World Summit and best-selling filmmaker of *The Tapping Solution*, is at the forefront of a new healing movement. In his upcoming book, *The Tapping Solution*, he gives readers everything they need to successfully start using the powerful practice of tapping – or Emotional Freedom Techniques (EFT). Tapping is one of the fastest and easiest ways to address both the emotional and physical problems that tend to hamper our lives. Using the energy meridians of the body, practitioners tap on specific points while focusing on particular negative emotions or physical sensations. The tapping helps calm the nervous system to restore the balance of energy in the body, and in turn rewire the brain to respond in healthy ways. This kind of conditioning can help rid practitioners of everything from chronic pain to phobias to addictions. Because of tapping's proven success in healing such a variety of problems, Ortner recommends to try it on any challenging issue. In *The Tapping Solution*, Ortner describes not only the history and science of tapping but also the practical applications. In a friendly voice, he lays out easy-to-use practices, diagrams, and worksheets that will teach readers, step-by-step, how to tap on a variety of issues. With chapters covering everything from the alleviation of pain to the encouragement of weight loss to fostering better relationships, Ortner opens readers' eyes to just how powerful this practice can be. Throughout the book, readers will see real-life stories of healing ranging from easing the pain of fibromyalgia to overcoming a fear of flying. The simple strategies Ortner outlines will help readers release their fears and clear the limiting beliefs that hold them back from creating the life they want.

Tap, Click, Read Lisa Guernsey, Michael H. Levine, 2015-08-14 A guide to promoting literacy in the digital age With young children gaining access to a dizzying array of games, videos, and other digital media, will they ever learn to read? The answer is yes—if they are surrounded by adults who know how to help and if they are introduced to media designed to promote literacy, instead of undermining it. Tap, Click, Read gives educators and parents the tools and information they need to help children grow into strong, passionate readers who are skilled at using media and technology of all kinds—print, digital, and everything in between. In Tap, Click, Read authors Lisa Guernsey and Michael H. Levine envision a future that is human-centered first and tech-assisted second. They document how educators and parents can lead a new path to a place they call 'Readialand'—a literacy-rich world that marries reading and digital media to bring knowledge, skills, and critical thinking to all of our children. This approach is driven by the urgent need for low-income children and parents to have access to the same 21st-century literacy opportunities already at the fingertips of today's affluent families. With stories from homes, classrooms and cutting edge tech labs, plus accessible translation of new research and compelling videos, Guernsey and Levine help educators, parents, and America's leaders tackle the questions that arise as digital media plays a larger and larger role in children's lives, starting in their very first years of life. Tap, Click, Read includes an analysis of the exploding app marketplace and provides useful information on new review sites and valuable curation tools. It shows what to avoid and what to demand in today's apps and e-books—as well as what to seek in community preschools, elementary schools and libraries. Peppered with the latest research from fields as diverse as neuroscience and behavioral economics and richly documented examples of best practices from schools and early childhood programs around the country, Tap, Click, Read will show you how to: Promote the adult-child interactions that help kids grow into strong readers Learn how to use digital media to build a foundation for reading and success Discover new tools that open up avenues for creativity, critical thinking, and knowledge-building that today's children need The book's accompanying website keeps you updated on new research and provides vital resources to help parents, schools and community organizations.

Tap Tap Tapping Hearts 2015-2016 Chapeau Claudette, 2017-01-10 In March 2015 a new way of traveling appeared seemingly out of nowhere in the form of an app called Periscope. Even though it was not the first live streaming app, it developed organically and survived the competition. Bloggers, freelance journalist, grandmothers, healers, housewives, entrepreneurs, coaches, charity workers and travelers embraced the core ethos of the app, which was Immediate Teleportation. This book is a love letter from the Twitter handle LifeisaHATparty to the people who touched her days, and late nights as viewers and broadcasters. The book does not really tell Periscopers anything that they don't already know about the magic of Periscoping. It is hoped that the impressions shared in this book will perhaps help friends, family, and loved ones of Periscopers better understand their love of this app that changed the world.

Tap Anindya Ghose,2018-09-11 How the smartphone can become a personal concierge (not a stalker) in the mobile marketing revolution of smarter companies, value-seeking consumers, and curated offers. Consumers create a data trail by tapping their phones; businesses can tap into this trail to harness the power of the more than three trillion dollar mobile economy. According to Anindya Ghose, a global authority on the mobile economy, this two-way exchange can benefit both customers and businesses. In *Tap*, Ghose welcomes us to the mobile economy of smartphones, smarter companies, and value-seeking consumers. Drawing on his extensive research in the United States, Europe, and Asia, and on a variety of real-world examples from companies including Alibaba, China Mobile, Coke, Facebook, SK Telecom, Telefónica, and Travelocity, Ghose describes some intriguingly contradictory consumer behavior: people seek spontaneity, but they are predictable; they find advertising annoying, but they fear missing out; they value their privacy, but they increasingly use personal data as currency. When mobile advertising is done well, Ghose argues, the smartphone plays the role of a personal concierge—a butler, not a stalker. Ghose identifies nine forces that shape consumer behavior, including time, crowdedness, trajectory, and weather, and he examines these how these forces operate, separately and in combination. With *Tap*, he highlights the true influence mobile wields over shoppers, the behavioral and economic motivations behind that influence, and the lucrative opportunities it represents. In a world of artificial intelligence, augmented and virtual reality, wearable technologies, smart homes, and the Internet of Things, the future of the mobile economy seems limitless.
