Crime Control As Industry Nils Christie, 2016-10-04 Crime Control As Industry, translated into many languages, is a modern classic of criminology and sociology. Nils Christie, one of the leading criminologists of his era, argues that crime control, rather than crime itself is the real danger for our future. Prison populations, especially in Russia and America, have grown at an increasingly rapid rate and show no signs of slowing. Christie argues that this vast and growing population is the equivalent of a modern gulag, run by a rapacious industry, both public and private, with vested interests in incarceration. Pain and confinement are products, like any other, with a potentially limitless supply of resources. Widely hailed as a classic account of crime and restorative justice Crime Control As Industry's prophetic insights and proposed solutions are essential reading for anyone interested in crime and the global penal system. This Routledge Classics edition includes a new foreword by David Garland.

Arresting Citizenship Amy E. Lerman, Vesla M. Weaver, 2014-06-06 The numbers are staggering: One-third of America's adult population has passed through the criminal justice system and now has a criminal record. Many more were never convicted, but are nonetheless subject to surveillance by the state. Never before has the American government maintained so vast a network of institutions dedicated solely to the control and confinement of its citizens. A provocative assessment of the contemporary carceral state for American democracy, *Arresting Citizenship* argues that the broad reach of the criminal justice system has fundamentally recast the relation between citizen and state, resulting in a sizable—and growing—group of second-class citizens. From police stops to court cases and incarceration, at each stage of the criminal justice system individuals belonging to this disempowered group come to experience a state-within-a-state that reflects few of the country's core democratic values. Through scores of interviews, along with analyses of survey data, Amy E. Lerman and Vesla M. Weaver show how this contact with police, courts, and prisons decreases faith in the capacity of American political institutions to respond to citizens' concerns and diminishes the sense of full and equal citizenship—even for those who have not been found guilty of any crime. The effects of this increasingly frequent contact with the criminal justice system are wide-ranging—and pernicious—and Lerman and Weaver go on to offer concrete proposals for reforms to reincorporate this large group of citizens as active participants in American civic and political life.

O, Louis Hugo Borst, 2014-11-20 'Am I so smart or are you so stupid?' – Louis van Gaal I started out wanting to write a book about Marco van Basten. I still do, but I dread the moment when I have to write something I know will make him unhappy. He's not a man you wage war on. With Louis van Gaal it's different: as a journalist he leaves you no choice. You're not worthy of the name if you aren't prepared to return fire when he starts yelling. Hugo Borst is an award-winning writer, journalist and TV pundit. He is also a close friend of Louis van Gaal. Well, he used to be. *O, Louis* is Hugo's attempt to get to grips with this larger-than-life character. Full of outrageous stories and unintentionally hilarious encounters, Borst details his quest to understand the man and the breakdown in their friendship. He interviews an array of experts who each interpret the great manager from the perspective of their own field – a cleric, a politician, a psychiatrist, an impersonator, a theatre director, writers, poets and a trio of keen comic minds. Through these meetings as well as through his own encounters with Van Gaal, Borst is finally able to unlock the personality of this exceptional, talented, infuriating and even, occasionally, loveable man. 'This book will sell well. Everything that has my face on it sells well' – Louis van Gaal

Locked Down, Locked Out Maya Schenwar, 2014-11-10 An analysis of the U.S. prison system through real-life stories, and a look at the complex work of community-based social justice projects. Through the stories of prisoners and their families, including her own family's experiences, Maya Schenwar shows how the institution that locks up 2.3 million Americans and decimates poor communities of color is shredding the ties that, if nurtured, could foster real collective safety. As she vividly depicts here, incarceration takes away the very things that might enable people to build better lives. But looking toward a future beyond imprisonment, Schenwar profiles community-based initiatives that successfully deal with problems—both individual

harm and larger social wrongs—through connection rather than isolation, moving toward a safer, freer future for all of us. “Maya Schenwar’s stories about prisoners, their families (including her own), and the thoroughly broken punishment system are rescued from any pessimism such narratives might inspire by the author’s brilliant juxtaposition of abolitionist imaginaries and radical political practices.” —Angela Y. Davis, author of *Are Prisons Obsolete?* “*Locked Down, Locked Out* paints a searing portrait of the real-life human toll of mass incarceration, both on prisoners and on their families, and—equally compellingly—provides hope that collectively we can create a more humane world freed of prisons. Read this deeply personal and political call to end the shameful inhumanity of our prison nation.” —Dorothy Roberts, author of *Shattered Bonds* and *Killing the Black Body* “This book has the power to transform hearts and minds, opening us to new ways of imagining what justice can mean for individuals, families, communities, and our nation as a whole. Maya Schenwar’s personal, openhearted sharing of her own family’s story, together with many other stories and real-world experiments with transformative justice, makes this book compelling, highly persuasive, and difficult to put down. I turned the last page feeling nothing less than inspired.” —Michelle Alexander, author of *The New Jim Crow*

Prison Town Kevin Pyle, Craig Gilmore, Real Cost of Prisons Project, 2005 A lucid, informative, and digestible comic (illustrated graphic guide is probably more accurate) on the real costs (social, economic, community and personal) of what it means when a prison is built in a (typically poor, rural) town. There are more prisons in America than Wal-Marts. And there are more prisoners in America today than farmers. Kevin Payle and Craig Gilmore lay it all out.

An Expensive Way to Make Bad People Worse Jens Soering, 2004 The author, himself a former inmate in the American Corrections System, writes about the state of the American prisons and the justice system and the American public's misconceptions about the system.

How Propaganda Works Jason Stanley, 2015-05-26 How propaganda undermines democracy and why we need to pay attention Our democracy today is fraught with political campaigns, lobbyists, liberal media, and Fox News commentators, all using language to influence the way we think and reason about public issues. Even so, many of us believe that propaganda and manipulation aren't problems for us—not in the way they were for the totalitarian societies of the mid-twentieth century. In *How Propaganda Works*, Jason Stanley demonstrates that more attention needs to be paid. He examines how propaganda operates subtly, how it undermines democracy—particularly the ideals of democratic deliberation and equality—and how it has damaged democracies of the past. Focusing on the shortcomings of liberal democratic states, Stanley provides a historically grounded introduction to democratic political theory as a window into the misuse of democratic vocabulary for propaganda's selfish purposes. He lays out historical examples, such as the restructuring of the US public school system at the turn of the twentieth century, to explore how the language of democracy is sometimes used to mask an undemocratic reality. Drawing from a range of sources, including feminist theory, critical race theory, epistemology, formal semantics, educational theory, and social and cognitive psychology, he explains how the manipulative and hypocritical declaration of flawed beliefs and ideologies

arises from and perpetuates inequalities in society, such as the racial injustices that commonly occur in the United States. *How Propaganda Works* shows that an understanding of propaganda and its mechanisms is essential for the preservation and protection of liberal democracies everywhere.

Stamped from the Beginning Ibram X. Kendi, 2016-04-12 The National Book Award winning history of how racist ideas were created, spread, and deeply rooted in American society. Some Americans insist that we're living in a post-racial society. But racist thought is not just alive and well in America -- it is more sophisticated and more insidious than ever. And as award-winning historian Ibram X. Kendi argues, racist ideas have a long and lingering history, one in which nearly every great American thinker is complicit. In this deeply researched and fast-moving narrative, Kendi chronicles the entire story of anti-black racist ideas and their staggering power over the course of American history. He uses the life stories of five major American intellectuals to drive this history: Puritan minister Cotton Mather, Thomas Jefferson, abolitionist William Lloyd Garrison, W.E.B. Du Bois, and legendary activist Angela Davis. As Kendi shows, racist ideas did not arise from ignorance or hatred. They were created to justify and rationalize deeply entrenched discriminatory policies and the nation's racial inequities. In shedding light on this history, *Stamped from the Beginning* offers us the tools we need to expose racist thinking. In the process, he gives us reason to hope.

Grammatical Relations T. Givón,1997-11-27 This volume presents a functional perspective on grammatical relations (GRs) without neglecting their structural correlates. Ever since the 1970s, the discussion of RGs by functionally-oriented linguists has focused primarily on their functional aspects, such as reference, cognitive accessibility and discourse topicality. With some exceptions, functionalists have thus ceded the discussion of the structural correlates of GRs to various formal schools. Ever since Edward Keenan's pioneering work on subject properties (1975, 1976), it has been apparent that subjecthood and objecthood can only be described properly by a basket of neither necessary nor sufficient properties — thus within a framework akin to Rosch's theory of Prototype. Some GR properties are functional (reference, topicality, accessibility); others involve overt coding (word-order, case marking, verb agreement). Others yet are more abstract, involving control of grammatical processes (rule-governed behavior). Building on Keenan's pioneering work, this volume concentrates on the structural aspects of GRs within a functionalist framework. Following a theoretical introduction, the papers in the volume deal primarily with recalcitrant typological issues: The dissociation between overt coding properties of GRs and their behavior-and-control properties; GRs in serial verb constructions; GRs in ergative languages; The impact of clause union and grammaticalization on GRs.

Decoding the Irrational Consumer Darren Bridger,2015-08-03 Decoding the Irrational Consumer is written to help marketing practitioners demystify neuromarketing, a relatively new field of marketing research used to understand consumer response to marketing stimuli. Decoding the Irrational Consumer presents in plain terms the key theoretical tools required to implement neuromarketing studies and achieve desired research outcomes. Marketers and researchers will learn how to effectively and confidently brief data processors, and confer with neuroscientists and technicians. They will gain keen understanding of recent developments in behavioural science and data-processing technology, as well as sophisticated neuromarketing tools used to understand subconscious responses including behavioural economics, eye-tracking, implicit response measures, and facial coding. The author discusses when to apply these techniques and others, how to combine them effectively and how to correctly interpret resulting data to generate valuable insights that aid in decision making. The book is also supported by an online guide for students and lecturers with helpful chapter summaries.

Introduction to Mediation, Moderation, and Conditional Process Analysis Andrew F. Hayes, 2013-04-22 Explaining the fundamentals of mediation and moderation analysis, this engaging book also shows how to integrate the two using an innovative strategy known as conditional process analysis. Procedures are described for testing hypotheses about the mechanisms by which causal effects operate, the conditions under which they occur, and the moderation of mechanisms. Relying on the principles of ordinary least squares regression, Andrew Hayes carefully explains the estimation and interpretation of direct and indirect effects, probing and visualization of interactions, and testing of questions about moderated mediation. Examples using data from published studies illustrate how to conduct and report the analyses described in the book. Of special value, the book introduces and documents PROCESS, a macro for SPSS and SAS that does all the computations described in the book. The companion website (www.afhayes.com) offers free downloads of PROCESS plus data files for the book's examples. Unique features include: *Compelling examples (presumed media influence, sex discrimination in the workplace, and more) with real data; boxes with SAS, SPSS, and PROCESS code; and loads of tips, including how to report mediation, moderation and conditional process analyses. *Appendix that presents documentation on use and features of PROCESS. *Online supplement providing data, code, and syntax for the book's examples.
