Slam Dunks and No-Brainers Leslie Savan,2006-10-10 In this marvelously original book, three-time Pulitzer Prize finalist Leslie Savan offers fascinating insights into why we're all talking the talk—Duh; Bring it on!; Bling; Whatever!—and what this reveals about America today. Savan traces the paths that phrases like these travel from obscure slang to pop stardom, selling everything from cars (ads for VWs, Mitsubishis, and Mercurys all pitch them as “no-brainer”s) to wars (finding WMD in Iraq was to be a “slam dunk”). Real people create these catchy phrases, but once media, politics, and businesses broadcast them, they burst out of our mouths as celebrity words, newly glamorous and powerful. Witty, fun, and full of thought-provoking stories about the origins of popular expressions, Slam Dunks and No-Brainers is for everyone who loves the mysteries of language.

Discourse and Language Education Evelyn Hatch,1992-01-31 Discourse and Language Education is part of the Cambridge Language Teaching Library series. Discourse analysis describes how such communication is structured, so that it is socially appropriate and linguistically accurate. This book gives practical experience in analyzing discourse and the study of written language. The analyses show the ways we use linguistic signals to carry out our discourse goals and the differences between written and spoken language as well as across languages. This text can be used as a manual in teacher education courses and linguistics and communications courses. It will be of great interest to second language teachers, foreign language teachers, and special education teachers (especially those involved with the hearing impaired).

Cosmic Beginnings Soyinka I. Ogunbusola,2010-12-23 This genre falls under the category of Sci-fi fantasy thriller a works that is just as exciting as the adventures of Lora Croft in “Tomb Raiders” I chose this genre to create characters that exist outside of the everyday urban-scape theme. One of the main characters is a black woman; a seasoned sea captain for example. I wanted to create another kind of hero, in another part of the world, on another kind of mission based on another mindset; more of a West African theme influenced by the folklore of the ancient Yoruba of Southwestern Nigeria which is deeply submerged in cosmological and celestial influences and is viewed as individual characteristic energies expressing themselves universally in allegorical narratives. These legends tend to be older than Western civilization. I wanted the story to be unique and the characters just as unique. This is a story told by the ancestors of the war in heaven before the creation of man...this a story of the battle of illumination and darkness the fight to maintain balance between good and evil.

Ridley Plays 1 Philip Ridley,2013-10-16 This volume contains Ridley's first three plays, which heralded the arrival of a unique and disturbing voice in the world of contemporary drama. They are seminal works in the development of the 'in yer face' theatre that emerged in Britain during the mid-1990s. The three plays here all manifest Ridley's vivid and visionary imagination and the dark beauty of his outlook. They resonate with his trademark themes: East London, storytelling, moments of shocking violence, memories of the past, fantastical monologues, and that strange mix of the barbaric and the beautiful he has made all his own. The Pitchfork Disney was Ridley's first play and is now seen as launching a new generation of playwrights who were unafraid to shock and court controversy. This unsettling, dreamlike piece has surreal undertones and thematically explores fear, dreams and story-telling. The Fastest Clock in the Universe is a multi-award-winning play which caused a sensation when it premiered at Hampstead Theatre in 1992. An edgy and provocative drama, it is now regarded as a contemporary classic. Ghost from a Perfect Place is a scorchingly nasty blend of comedy, spectacle and terror where a monster from the past meets the monsters of the present.

Speaking of the Spirit Jeanne-Marie Yess Tran,2018-10-09 This is the author's third book after two volumes of poetry, and she has enjoyed writing these spiritually connected short stories after her time as poet. She is changing hats now to work in fictional short stories. Speaking of the Spirit includes some deeply involved feelings for the faithful delivered in both drama and humor. It is less burdened with religion so that the readers can connect the dots for a fuller image of each story, giving it your personal interpretation to deliver its message. There is a short summary of each story in the book's foreword to give you an idea what each story is about. She hopes you enjoy reading these stories, which should give you your mind's worth of thought. For questions or comments, you can contact Ms. Yess Tran via jtran8424@aol.com. God Bless.

Discount Business Strategy Michael Moesgaard Andersen,Flemming Poulfelt,2006-10-27 What people are saying about Discount Business Strategy: Michael Andersen and Flemming Poulfelt provide a provocative discussion of the rapidly growing role of discounters across numerous industries: how they operate; how they create uniqueness; and how they can destroy value for incumbents. Understanding the specific moves and tools that the authors analyze will be valuable for attackers and incumbents alike. —Adrian J. Slywotzky, Director, Mercer Management Consulting USA This book is very timely, dealing with today's most critical strategic issue: how to provide more value to the consumer through aggressive discounting. Those players in manufacturing and

distribution who master this will be the winners; many established firms will fall by the wayside. A similar set of issues are facing many nations today - Europe vs. Asia! —Peter Lorange, President, IMD, Switzerland Andersen and Poufelt have researched one of the most important themes in today's business world - how fundamentally new business models have wiped out establishments not with new products or technologies, but by creating new rules for conventional industries. Read this book and learn how to recognize the disruption of your industry before it is too late! —Sigurd Liljenfeldt, Senior Partner, Monitor Group, France This book asks if a firm can have its cake and eat it too - that is, maintain high quality at low prices. My favourite example and shopping place is big box Costco. Ikea is another. A must read for a broad audience concerned about corporate survival! —Professor Larry E. Greiner, Marshall School of Business, University of Southern California, USA The aspiration to adopt the right strategy still prevails over the business world. But is there a single 'best' strategy for a company? Can an organization create sustainable competitive advantage from an 'off-the-peg' strategy? And are most companies likely to craft a strategy that genuinely creates uncontested market space and makes the competition irrelevant? The answer to all these questions is probably 'No'. And the rising tide of companies like Dell, CostCo, Skype and Linux means that asking them at all may soon be futile. While strategists have foundered in old paradigms, a new breed of competitors has emerged. Value destroyers. Old-style thinking understood value destruction when it was confined to an industry and driven by a new product or technology. But what are the implications when the destruction stems from a new way of thinking - from a strategy that simultaneously creates value? The implications are enormous. Every company in every industry is potentially at risk. This risk - or opportunity - is precisely the reason for this book and its focus on exploring why and how some companies have bridged the gap between differentiator and cost leader strategies to emerge as winners in hypercompetitive markets, and what this entails in terms of value destruction and creation. Discounting organizations are here to stay - are you?
