**Islam** Talal Itani, 2016-01-21 God is the creator of the heavens and earth. He is the merciful, the almighty, the eternal. He revealed books to humanity, for the benefit of the human being. The Quran is the last book from God; it contains healing, guidance, and mercy. **The Amazing Quran** , Many centuries before the onset of Muhammad's prophethood, there was a well-known theory of atomism advanced by the Greek philosopher, Democritus. He and the people who came after him assumed that matter consists of tiny, indestructible, indivisible particles called atoms. The Arabs too, used to deal in the same concept; in fact, the Arabic word dharrah commonly referred to the smallest particle known to man. Now, modern science has discovered that this smallest unit of matter (i.e., the atom, which has all of the same properties as its element) can be split into its component parts. This is a new idea, a development of the last century; yet, interestingly enough, this information had already been documented in the Quran (Surah Saba', 34:3) which states: "He [i.e., Allah] is aware of an atom's weight in the heavens and on the earth and even anything smaller than that..."

We have heard this many times and we continue to hear this statement often, but the question is that what is it in the Quran that really makes the Quran a miracle? Well to find out more, by mastering the miracles in this book you will master the miracles in the Quran that you may have never heard of. When I found these amazing miracles in the Quran after every miracle that I found I asked myself this question, ‘How come I was unaware of this miracle?’ ‘Why didn’t I know about this miracle?’ Some miracles amazed me where as some shocked me. I can assure you, once you start reading this book, it will not quench your thirst until you finish reading it and you would feel the same way as what I felt when I got to know about these miracles. Nothing is more satisfying than understanding the meaning of the Quran as you read it without going to its translation. For the first time and for those who can read Quran in Arabic at an introductory level, a successful method for learning the meaning of The Quran without a need to learn the complex Arabic language is presented in a series of books. The approach is based on the major words used in Quran. The students or self-learners, through exercises and easy-to-understand introductory grammars, learn the major words used in Quran. For instance, upon completion of Book 1, the students can understand 40% of the meaning of Quran by learning only 110 words which are used 30,000 times in Quran.
