RA-D8: The Halloween Hypothesis Stevie Alexander,2021-09-06 After waiting for what seemed like forever, Halloween was finally on a Friday! Sixth-grader Robby Swain declared that 1986 would be his biggest and last year to trick or treat before moving on to junior high. He and his younger sister Nicki were planning to take advantage of this rare and spectacular occurrence by inviting their closest friends to go with them and stay for a slumber party. Nothing could stop them from having the time of their lives, not overprotective mothers, or the looming threat of potentially hazardous candy. But, what started out as a final farewell to Halloween treats may have unexpectedly turned into a lifetime of mysterious tricks.

Geological Survey of Canada, Current Research (Online) no. 2000-D8 D. Calvin Campbell,2000 This paper examines a small area west of Verrill Canyon on the Scotian Slope to address whether sedimentological and geomechanical features of piston cores would explain the localized occurrence of sediment failures. The seabed in the area was divided into zones of disturbed, undisturbed, and erosional areas, and six continuous acoustic reflectors were traced throughout the area from high-resolution acoustic records. Nine sediment cores, providing a composite stratigraphy of the acoustic section, are described and the relationship of the failure horizons to core lithology and physical properties is discussed.

The Oxford Handbook of Modern Egyptian History Beth Baron,Jeffrey Culang,2024 The essays in this Oxford Handbook rethink the modern history of one of the most important and influential countries in the Middle East--Egypt. For a country and region so often understood in terms of religion and violence, this work explores environmental, medical, legal, cultural, and political histories. It gives readers an excellent view of the current debates in Egyptian history.

How Information Warfare Shaped the Arab Spring Nathaniel Greenberg,2019-06-03 On January 28 2011 WikiLeaks released documents from a cache of US State Department cables stolen the previous year. The Daily Telegraph in London published one of the memos with an article headlined 'Egypt protests: America's secret backing for rebel leaders behind uprising'. The effect of the revelation was immediate, helping set in motion an aggressive counter-narrative to the nascent story of the Arab Spring. The article featured a cluster of virulent commentators all pushing the same story: the CIA, George Soros and Hillary Clinton were attempting to take over Egypt. Many of these commentators were trolls, some of whom reappeared in 2016 to help elect Donald J. Trump as President of the United States. This book tells the story of how a proxy-communications war ignited and hijacked the Arab uprisings and how individuals on the ground, on air and online worked to shape history.

Rethinking Salafism Raihan Ismail,2021-10-01 Salafism has received scrutiny as the one of the main ideological sources for extremist violence perpetrated by jihadi groups. There is a significant corpus of literature discussing transnational jihadi networks, especially after the 9/11 attacks in the United States. These discussions include the radicalization of Salafi thought by jihadi theoreticians and 'ulama. However, Salafism is not monolithic. It contains numerous streams, and an examination of these streams is crucial to understanding its influence on Muslim societies. Besides Salafi jihadistthose who sanction violencethere are two other broad trends in Salafism: quietist and activist. Quietist Salafis endorse an apolitical tradition and find political activism in any form unacceptable. Activist Salafis advocate peaceful political change. Each stream is led by 'ulama, seen as the preservers of Salafi traditions. The quietist and activist 'ulama are active participants in their communities. Studies of such clerics have tended to be country-specific, focusing on the influence and nature of Salafism and its dynamics in those countries. In Rethinking Salafism Raihan Ismail assesses the origins, interactions, and dynamics of the transnational networks of Salafi 'ulama in the region comprising Saudi Arabia, Egypt, and Kuwait, showing how quietist and activist 'ulama work across borders to preserve and promote what they see as authentic Salafism while taking domestic circumstances of the 'ulama into consideration. The book offers a reassessment of the quietist/activist dichotomy, arguing that this dichotomy does not apply to such aspects of Salafi thought as attitudes towards the Shi'a and social matters in Muslim societies.

The Handbook is split into six sections: Gender, Identities and Sexualities; The Gender of Politics; Gender and Activism; Gender-Based Violence; Gender and Entrepreneurship; and Gender in Expressive Cultures.

Civil Disobedience in Islam Muhammad Haniff Hassan,2017-04-13 This book addresses contemporary debates on civil disobedience in Islam within the rich Sunni tradition, especially during the height of the non-violent people revolution in various Arab countries, popularly known as the Arab Spring. It illustrates the Islamic theological and jurisprudential arguments presented by those who either permit or prohibit acts of civil disobedience for the purpose of changing government, political systems or policy. The book analyses the nature of the debate and considers how a theological position on civil disobedience should be formulated in contemporary time, and makes the case for alternatives to violent political action such as jihadism, terrorism and armed rebellion.

Social Media in Iran David M. Faris,Babak Rahimi,2015-11-20 First comprehensive account of how the Internet has impacted life in Iran. Social Media in Iran is the first book to tell the complex story of how and why the Iranian people—including women, homosexuals, dissidents, artists, and even state actors—use social media technology, and in doing so create a contentious environment wherein new identities and realities are constructed. Drawing together emerging and established scholars in communication, culture, and media studies, this volume considers the role of social media in Iranian society, particularly the time during and after the controversial 2009 presidential election, a watershed moment in the postrevolutionary history of Iran. While regional specialists may find studies on specific themes useful, the aim of this volume is to provide broad narratives of actor-based conceptions of media technology, an approach that focuses on the experiential and social networking processes of digital practices in the information era extended beyond cultural specificities. Students and scholars of regional and media studies will find this volume rich with empirical and theoretical insights on the subject of how technologies shape political and everyday life. David M. Faris is Chair of the Department of Political Science and Public Administration at Roosevelt University and the author of Dissent and Revolution in a Digital Age: Social Media, Blogging and Activism in Egypt. Babak Rahimi is Associate Professor of Communication, Culture, and Religion at the University of California, San Diego. He is the author of Theater State and the Formation of Early Modern Public Sphere in Iran: Studies on Safavid Muharram Rituals, 1590-1641 CE.

The Iranian Green Movement of 2009 Maral Karimi,2018-08-31 This book studies the political communications of the Iranian Green Movement of 2009, linking the events both to the revolution of 1979 and the protests of 2017-2018 to develop an understanding of the conditions that contributed to the demise of the movement. The data are drawn from YouTube videos and analyzed through Critical Discourse Analysis.

Beyond Sunni and Shia Frederic Wehrey,2018-02-01 This collection seeks to advance our understanding of intra-Islamic identity conflict during a period of upheaval in the Middle East. Instead of treating distinctions between and within Sunni and Shia Islam as primordial and immutable, it examines how political economy, geopolitics, domestic governance, social media, non- and sub-state groups, and clerical elites have affected the transformation and diffusion of sectarian identities. Particular attention is paid to how conflicts over distribution of political and economic power have taken on a sectarian quality, and how a variety of actors have instrumentalized sectarianism. The volume, covering Syria, Iraq, Lebanon, Saudi Arabia and the Gulf, Iran, and Egypt, includes contributors from a broad array of disciplines including political science, history, sociology, and Islamic studies. Beyond Sunni and Shia draws on extensive fieldwork and primary sources to offer insights that are empirically rich and theoretically grounded, but also accessible for policy audiences and the informed public.

Encountering Palestine Mark Griffiths,Mikko Joronen,2023-12 Encountering Palestine: Un/making Spaces of Colonial Violence, edited by Mark Griffiths and Mikko Joronen, sits at the intersection of cultural and political geographies and offers innovative reflections on power, colonialism, and anti-colonialism in contemporary Palestine and Israel. Organized around the theme of encountering and focusing on the ways violence and struggle are un/made in the encounter between the colonizer and colonized, the essays focus on power relations as they manifest in cultural practices and everyday lives in anti/colonial Palestine. Covering numerous sites in Gaza, the West Bank, East Jerusalem, and Israel, Encountering Palestine addresses a range of empirical topics—from marriage and queer aesthetics to policing, demolition, armament failure, and violence. The contributors utilize diverse theoretical frameworks, such as hyperreality, settler capitalism, intimate biopolitics, and politics of vulnerability, to help us better understand the cultural making and unmaking of colonial and anti-colonial space in Palestine. Encountering Palestine asks us to rethink how colonialism and power operate in Palestine, the ways Palestinians struggle, and the lifeways that constantly encounter, un/make, and counter the spaces of colonial violence.

Saudi Clerics and Shi'a Islam Raihan Ismail,2016 This book examines the attitudes of the Saudi 'ulama' toward the Shi'a. It is an in-depth study of the theological convictions of the 'ulama' and their political motivation when examining Shi'a sects, communities, and political actors. The Saudi 'ulama' are known for their strong opposition to Shi'a theology, Shi'a communities in Saudi Arabia, and external Shi'a influences such as Iran and Hezbollah.

China, Russia, and the USA in the Middle East Benjamin Houghton,Kasia A. Houghton,2023-12-01 The shift in international relations towards multipolarity has had profound implications across the world, but particularly in highly penetrated regions, such as the Middle East. This book explores the rivalry between the United States, Russia, and China in the region, investigating its effects and assessing the influence of regional actors and issues. Each chapter offers a comprehensive analysis of three core questions: how does global power competition manifest itself?; how does it impact regional political, economic, and security dynamics?; and how do regional actors and issues influence the trajectory and dynamics of global power competition? Expert international contributors take a country case study approach to consider these questions and investigate the most pressing contemporary events, issues, and trends in Middle Eastern politics. Tackling transregional and global issues and themes they analyse the convergence, divergence, and competition between global powers in managing threats and interests such as terrorism, energy and cyber security, nuclear non-proliferation, conflict resolution, and warfare. This volume will appeal to scholars and students of international relations, great power competition, China, Russia, the USA, and the Middle East.
