The Life of the Madman of Ü ,2016 The Life of the Madman of Ü tells the story of Künga Zangpo (1458-1532), a famous Tibetan Buddhist ascetic of the Kagyü sect. Having grown weary of the trials of human existence, Künga Zangpo renounced the world during his teenage years, committing himself to learning and practicing the holy Dharma as a monk. Some years later he would give up his monkhood to take on a unique tantric asceticism that entailed dressing in human remains, wandering from place to place, and provoking others to attack him physically, among other norm-overturning behaviors. It was because of this asceticism that Künga Zangpo came to be known as the Madman of Ü. David M. Divalerio translates this biography, originally written in two parts in 1494 and 1537, making accessible to a modern audience a rich depiction of religious life in fifteenth- and sixteenth-century Tibet. The book also details Künga Zangpo's many miracles, a testament to the spiritual perfection he attained. His final thirty years were spent at his monastery of Tsimar Pel, where he dispensed teachings to his numerous disciples and followers. The Life of this remarkable and controversial figure, now available in English for the first time, provides new means for understanding the tradition of the holy madman (smyon pa) in Tibetan Buddhism.

Environmental Impact of Agro-Food Industry and Food Consumption Charis M. Galanakis,2020-11-18 Environmental Impact of Agro-Food Industry and Food Consumption covers trends associated with the impact of food production on the environment using lifecycle analysis and the standard methods used to estimate the food industry's environmental impact. The book discusses city-scale actions to estimate the environmental impact of food systems, including the meat chain, feeding crops to farmed fish, the confectionary industry, agriculture, tea processing, cheese production, the dairy industry, cold chain, and ice cream production. Food waste and consumption in hospitality and global diets round out these interesting discussions. Written for food scientists, technologists, engineers, chemists, governmental regulatory bodies, environmentalists, environmental technologists, environmental engineers, researchers, academics and professionals working in the food industry, this book is an essential resource on sustainability in the food industry. Addresses all levels of the food chain Provides solutions for the food industry to estimate and reduce environmental impact Assists members of the food industry in optimizing their current performance and reducing their environmental footprint

Decision-Making for Biomass-Based Production Chains Sebnem Yilmaz Balaman,2018-10-02 Decision-Making for Biomass-Based Production Chains: The Basic Concepts and Methodologies presents a comprehensive study of key-issues surrounding the integration of strategic, tactical and operational decision levels for supply chains in the biomass, biofuels and biorefining sectors. Comprehensive sections cover biomass resources, harvesting, collection, storage and distribution systems, along with the necessary technical and technological background of production systems. In addition, the basics of decision-making, problems and decision levels encountered in design, management and operation phases are covered. Case studies are supplied in each chapter, along with a discussion and comparative analysis of topics. The book presents a clear vision of advances in the field. Graduate students

and those starting in this line of research will also find the necessary information on how to model this kind of complex system. Finally, this comprehensive resource can be used as a guide for non-expert industry decision-makers and government policymakers who need a thorough overview on the industry. Examines analytic methodologies for complex decision-making when designing, deploying and managing biomass and bio-based products supply chains Includes real-life examples of main sustainability indicators, standards and certification schemes from the European Union, United States and worldwide Explores the progress of decision-making procedures to provide a detailed perspective for effective selection of the most reliable solutions for each kind of problem Provides detailed, in-depth analyses of various models and frameworks for their implementation, challenges and solutions Presents multi-criteria and multi-objective decision-making and modeling approaches, including mathematical modeling, simulation-based modeling, and artificial intelligence-based modeling
