The Hundred-Year Marathon Michael Pillsbury,2015-02-03 One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise – and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an indispensable role helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the China Dream is to replace us, just as America replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, The Hundred-Year Marathon reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the hawks in China's military and intelligence agencies and translates their documents, speeches, and books to show how the teachings of traditional Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders – as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped – sometimes unwittingly and sometimes deliberately – to make this China Dream come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. The Hundred-Year Marathon is a wake-up call as we face the greatest national security challenge of the twenty-first century.

Authenticating Tibet Anne-Marie Blondeau,Katia Buffetrille,2008 Since 1959, Tibet has been at the centre of controversy, after China's 'peaceful liberation' of the Land of Snows led to the Lhasa uprising and the Dalai Lama's escape to India. This work brings together responses to a booklet published by the Chinese government in 1989, which sought to counter criticism of their occupation of Tibet.

Let 100 Voices Speak Liz Carter,2015-07-16 From the Occupy movement in the Western world to the Arab Spring and the role of Twitter in the Middle East, the internet and social media is changing the global landscape. China is next. Despite being a heavily-censored society, China has over 560 million active internet users, more than double that of the USA. In this book, social media expert and China-watcher Liz Carter tells the story of how the internet in China is leading to a coming together of activists, ordinary people and cultural trendsetters on a scale unknown in modern history. News about protests and natural disasters, or gossip and satirical jokes, are practically uncensorable and spread quickly through Weibo - the Chinese Twitter - and the Chinese internet underground. More than that, a grassroots, foundational shift of assumptions and expectations is taking place, as Chinese men and women cast off the communist-era 'stability at all costs' mantra and find new forms of self-expression, creativity and communication with the world.

Governance, Domestic Change, and Social Policy in China Jean-Marc Blanchard,Kun-Chin Lin,2016-10-29 This book constitutes the first comprehensive retrospective on one hundred years of post-dynastic China and compares enduring challenges of governance in the period around the collapse of the Qing dynasty in 1911 to those of contemporary China. The authors examine three key areas of domestic change and policy adaptation: social welfare provision, local political institutional reform, and social and environmental consequences of major infrastructure projects. Demonstrating remarkable parallels between the immediate post-Qing era and the recent phase of Chinese reform since the late-1990s, the book highlights common challenges to the political leadership by tracing dynamics of state activism in crafting new social space and terms of engagement for problem-solving and exploring social forces that continue to undermine the centralizing impetus of the state.

Reflections of Seattle's Chinese Americans Ron Chew,1994 Through 71 intimate stories and portraits, elders in Seattle's Chinese American community share, for the first time, their personal memories, both sweet and bitter. In their own voices, they describe their early life in Chinese villages, their passage to America and Seattle's Chinatown. They share their experiences working in laundries, restaurants and canneries. They tell of the climate of racial discrimination, the era of World War II and the community that emerged after the war. These stories are supplemented by an original historical essay on Seattle's Chinese American community by Doug Chin. The essay provides a window for understanding the struggles and achievements of Chinese Americans during the period from 1860 to the 1960s, the landmark first 100 years.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Complete Chinese Ornament Owen Jones,2012-08-02 This sumptuous edition offers all 100 full-color plates from Owen Jones's definitive presentation of Chinese ornamentation and design, one of the most beautiful books on the decorative arts ever published. Now, over a century after its first publication, this remarkable work continues to provide an excellent, copyright-free source of authentic Chinese design and motifs. During the vast political tumult in China in the 19th century, many of the most exquisite examples of native art from the Ming, Ch'ing and earlier dynasties were spirited out of the country and sold into Western collections. One of the most spectacular of these assemblages was housed at London's South Kensington Museum (today The Victoria and Albert Museum). In the 1860s, the noted English designer and architect Owen Jones studied this collection in depth, particularly the wealth of superb examples of porcelain and cloisonné. He then meticulously rendered many of the most intriguing and beautiful designs in full color. These were published in his celebrated book, *Examples of Chinese Ornament Selected from Objects in the South Kensington Museum and Other Collections* (1867). This volume offers painstaking reproductions of all one hundred original color plates from that work, which delighted the art world of the time and exerted a profound influence on the subsequent history of Western design. Now that visual inspiration is once again available to artists, illustrators, designers, and craftspeople in this inexpensive high-quality edition. Moreover, any lover of fine art can enjoy the book as a splendid tribute to the glories of Chinese design—at a price far less than those commanded by extremely rare surviving copies of Jones's original work.

China Modern Ching-He Huang,2006 Modern Chinese food has come a long way from the traditional favourites that we order by rote from our local takeaway. As China opens up to the West as well as the rest of the East, its culinary traditions have evolved to create a new and exciting cuisine that can best be described as fusion. In *China Modern*, Ching-He Huang explores these new influences and challenges conventional perceptions of Chinese food. She looks at how dishes have been reinvented, drawing on inspiration from Japan, Thailand and Vietnam as well as Europe. Ching's 'Peking Duck Sushi', for example, fuses a traditional Chinese dish with classic Japanese presentation, while her 'Steamed Seabass with Stir Fried Spring Onions and Chillies' demonstrates the breadth of cooking style in regional China. Healthy eating has also become more important and cooking techniques are moving away from deep-frying to steaming, pan frying, boiling, grilling and even baking! Ching also looks at home cooking from the less well-known provinces in China such as Hunan and Sichuan (most of the food we know as Chinese originated in Hong Kong) as well as how those takeaway favourites should really be cooked.*China Modern* will trace an exciting culinary journey, one that Ching will show you with warmth, humour and style. This is cutting-edge Chinese at its best.
