

96 Miles J. L. Esplin, 2020-02-11 21 days without power. 2 brothers on a desperate trek. 72 hours before time runs out... The Lockwood brothers are supposed to be able to survive anything. Their dad, a hardcore believer in self-reliance, has stockpiled enough food and water at their isolated Nevada home to last for months. But when they are robbed of all their supplies during a massive blackout while their dad is out of town, John and Stew must walk 96 miles in the stark desert sun to get help. Along the way, they're forced to question their dad's insistence on self-reliance and ask just what it is that we owe to our neighbors, to our kin, and to ourselves. From talented newcomer J. L. Esplin comes this story of survival and determination as two young brothers confront the unpredictability of human nature in the face of desperate circumstances. "A suspense thriller, survival story, and a story of the love between brothers. You'll turn the pages and be surprised again and again."—Gary D. Schmidt, Newbery Honor Award-winning author of *The Wednesday Wars* "Fast-paced, believable, funny, and poignant. 96 Miles is a great read from the first sentence to the surprising and satisfying ending. I give Esplin's debut novel 100%. Don't miss it!"—Roland Smith, New York Times bestselling author of *Peak* "Readers who enjoy realistic survival stories will not be able to put down Esplin's debut.... Filled with survival techniques, danger, and overcoming realistic obstacles, this story will have readers turning pages. A great choice for lovers of Gary Paulsen's *Hatchet* or Roland Smith's *Peak*."—School Library Journal At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Biomag 96 Cheryl J. Aine, Yoshio Okada, Gerhard Stroink, Stephen J. Swithenby, Charles C. Wood, 2013-11-11 A modified Linear Estimation Approach was performed to reconstruct current sources within the heart. Based on MRI data sets the Boundary Element Method was used to create tailored multicompartment models of the human thorax which were used to solve the forward problem of magnetocardiography. The ability of the proposed method was demonstrated for the localization of a single current dipole as an example of a focal source. By means of introducing small shiftings to all reconstruction dipoles during linear estimation solution as well as performing a successive focussing strategy ignoring places without

significant electrical activity the method could easily be extended to the reconstruction of real 3D sources. Based on a special minimum-norm solution the source volume can be estimated applying a finite element approximation using cube elements. The size of an extended current source can be estimated by superimposing the reconstructed dipoles to an equivalent dipole and comparing the corresponding volume with the sphere which would be related to the equivalent dipole. The deviation of these volumes can be taken as a criterion for non-dipolarity of sources.

Organic Syntheses, Volume 96 John L Wood, 2020-04-14 The current volume continues the tradition of the Organic Syntheses series, providing carefully checked and edited experimental procedures that describe important synthetic methods, transformations, reagents, and synthetic building blocks or intermediates with demonstrated utility in organic synthesis. These significant and interesting procedures should prove worthwhile to many synthetic chemists working in increasingly diverse areas. A trusted guide for professionals in organic and medicinal chemistry in academia, government, and industries, including pharmaceuticals, fine chemicals, agrochemicals, and biotechnological products.

Advances in Cryptology – EUROCRYPT '96 Ueli Maurer, 2003-05-15 The EUROCRYPT '96 conference was sponsored by the International Association for Cryptologic Research (IACR), in cooperation with the University of Saragossa. It took place at the Palacio de Congresos in Saragossa, Spain, during May 12-16, 1996. This was the fifteenth annual EUROCRYPT conference (this name has been used since the third conference held in 1984), each of which has been held in a different city in Europe. For the second time, proceedings were available at the conference. José Pastor Franco, the General Chair, was responsible for local organization and registration. His contribution to the success of the conference is gratefully acknowledged. The Program Committee considered 126 submitted papers and selected 34 for presentation. Each paper was sent to all members of the Program Committee and was assigned to at least three of them for careful evaluation. There were also two invited talks. James L. Massey, this year's IACR Distinguished Lecturer, gave a lecture entitled "The difficulty with difficulty". Massey is the third to receive this honor, the first two being Gustavus Simmons and Adi Shamir. Shafi Goldwasser gave an invited talk entitled "Multi party secure protocols: past and present". These proceedings contain revised versions of the 34 contributed talks. While the papers were carefully selected, they have not been refereed like submissions to a refereed journal. The authors bear full responsibility for the contents of their papers. Some authors may write final versions of their papers for publication in a refereed journal.

Timothy Warren Anglin, 1822-96 William M. Baker,1977-12-15 Born in Ireland in 1822, Timothy Warren emigrated to New Brunswick in 1849 and quickly became involved in the life and politics of the city of Saint John and the colony. As founder and editor of the newspaper the Freeman, he came lay spokesman for the large, mainly lower-class Irish Catholic population in Saint John, supporting its attempts to alleviate the poverty and harshness of life in New Brunswick and voicing its desire to be accepted as a responsible part of the community. Although Anglin shared his countrymen's resentment of the British presence in Ireland, he saw Britain's role in North America as a positive one. Both as a newspaperman and later as a practicing politician he pressed for the constitutional and non-violent redress of grievances. His Irish background and sympathies coupled with his moderate political stance and strongly middle class outlook made him an effective mediator between the Irish Catholics in New Brunswick and the rest of the community. In the 1860s Anglin was an active participant in the complex political manoeuvrings in New Brunswick, the Freeman providing a platform for his strenuous opposition to Confederation. Although the anti-Confederates were unsuccessful, Anglin's career provides insight into both the muddy politics of Confederation and the process of adjustment to the new order. Ultimately the union that Anglin had opposed won his loyalty, a demonstration of the fact that, despite its problems, the strength of the new nation of Canada was considerable. He was a

member of the Canadian House of Commons from 1867 to 1882 and Speaker of the House from 1874 to 1878. This study of the public career of Timothy Warren Anglin—newspaperman, politician, Irish Catholic leader—sheds light on the political and social history of British North America in the second half of the nineteenth century and on the emergence and growth of the Canadian nation.

Confidential Source Ninety-Six C.S. 96, 2017-08-22 A HARROWING JOURNEY INSIDE THE HIDDEN WORLD OF DRUG CARTELS BY ONE OF THE TOP CRIMINAL INFORMANTS IN U.S. LAW ENFORCEMENT HISTORY. The men he put behind bars know him as Roman Caribe or one of the dozens of other aliases he has used undercover. His handlers in the DEA, ICE, and FBI know him as Confidential Source Ninety-Six, or C.S. 96, named for the year he confronted the sins of his life atop a massive drug distribution ring and flipped, becoming law enforcement's secret weapon. In Confidential Source Ninety-Six, Caribe tells the extraordinary story of his transformation into America's most successful informant in terms of total narcotics seized--from the years of trafficking cocaine and marijuana across the U.S. for a terrifying drug lord, eventually becoming that man's number two, to his decision to defect and trade sides. In his first mission, Caribe set his sights on his onetime boss's brutal operation. In his next, he broke all protocol and made a daring foray into the notorious Fuentes Cartel, where he took down a family that was smuggling tons of drugs across the U.S.-Mexico border. As Caribe launched his career as a confidential source, finding his faith and seeking to finally do right by his stoic wife, Inez, and his four children, his marriage became stressed in new ways, the risks to his family unimaginable if he made a single mistake on the job. He found himself looking over his shoulder every day, knowing that with each drug ring or kingpin he destroyed, he made another dangerous enemy. For as long as he continued the high stakes work, he would survive on the cunning of his tradecraft and his ability to improvise in the most terrifying circumstances. Unfolding in Southern California mansions, makeshift DEA trailers deep in the redwood forest, drug fronts in Spanish Harlem, fast-food parking lots where kilograms of cocaine and heroin change hands, and around the dinner table where Caribe began mentoring at-risk youth to help them avoid the mistakes he made, Confidential Source Ninety-Six is the epic saga of one man's quest to redeem himself and a thrilling look at the law enforcement battle that rages in the shadows of our nation.
