Bleeding Out Thomas Abt, 2019-06-25 From a Harvard scholar and former Obama official, a powerful proposal for curtailing violent crime in America Urban violence is one of the most divisive and allegedly intractable issues of our time. But as Harvard scholar Thomas Abt shows in *Bleeding Out*, we actually possess all the tools necessary to stem violence in our cities. Coupling the latest social science with firsthand experience as a crime-fighter, Abt proposes a relentless focus on violence itself -- not drugs, gangs, or guns. Because violence is sticky, clustering among small groups of people and places, it can be predicted and prevented using a series of smart-on-crime strategies that do not require new laws or big budgets. Bringing these strategies together, Abt offers a concrete, cost-effective plan to reduce homicides by over 50 percent in eight years, saving more than 12,000 lives nationally. Violence acts as a linchpin for urban poverty, so curbing such crime can unlock the untapped potential of our cities' most disadvantaged communities and help us to bridge the nation's larger economic and social divides. Urgent yet hopeful, *Bleeding Out* offers practical solutions to the national emergency of urban violence -- and challenges readers to demand action.

Up the Road Samuel Abt,2005 Preeminent cycling journalist Samuel Abt's distinctive voice has told the stories of countless champions and decisive turning points in the most famous international races since the late 1970s. In this collection of articles originally published in The New York Times and the International Herald Tribune, Sam profiles three decades of cycling, culminating with the retirement of Lance Armstrong following the 2005 Tour de France. Featuring vivid color photos by Graham Watson, Up the Road immortalizes Lance Armstrong, Greg LeMond, Bobby Julich, Andy Hampsten, and a host of other luminaries.

Too Jewish or Not Jewish Enough Jeffrey Abt,2024-02-02 Displays of Jewish ritual objects in public, non-Jewish settings by Jews are a comparatively recent phenomenon. So too is the establishment of Jewish museums. This volume explores the origins of the Jewish Museum of New York and its evolution from collecting and displaying Jewish ritual objects, to Jewish art, to exhibiting avant-garde art devoid of Jewish content, created by non-Jews. Established within a rabbinic seminary, the museum's formation and development reflect changes in Jewish society over the twentieth century as it grappled with choices between religion and secularism, particularism and universalism, and ethnic pride and assimilation.

Lead Positive Kathryn D. Cramer,2014-02-10 How to implement effective, magnetic leadership by applying asset-based thinking and shifting your mindset from the negative to the positive Lead Positive takes the fundamentals of Asset-Based Thinking (ABT) and turns them into a playbook for successful leadership. ABT is a simple mindset management process that shows people how to make small shifts in perception and thinking to achieve great results. Cramer shows leaders how to apply

ABT to shift their attention away from what is negative and learn to intentionally shine the spotlight on the positive, beneficial facts of a situation. As they make this mental shift from negative to positive aspects, they improve their optimism, empathy, and confidence. When their mindset zooms in on what is strong, valuable, and possible, what they say and do is far more likely to inspire others to action. In short, ABT helps leaders shift internally so they can excel externally. Lead Positive weaves neuroscience and positive psychology to create effective leadership strategies.

American Egyptologist Jeffrey Abt,2012-05-01 James Henry Breasted (1865–1935) had a career that epitomizes our popular image of the archaeologist. Daring, handsome, and charismatic, he traveled on expeditions to remote and politically unstable corners of the Middle East, helped identify the tomb of King Tut, and was on the cover of Time magazine. But Breasted was more than an Indiana Jones—he was an accomplished scholar, academic entrepreneur, and talented author who brought ancient history to life not just for students but for such notables as Teddy Roosevelt and Sigmund Freud. In *American Egyptologist*, Jeffrey Abt weaves together the disparate strands of Breasted’s life, from his small-town origins following the Civil War to his evolution into the father of American Egyptology and the founder of the Oriental Institute in the early years of the University of Chicago. Abt explores the scholarly, philanthropic, diplomatic, and religious contexts of his ideas and projects, providing insight into the origins of America’s most prominent center for Near Eastern archaeology. An illuminating portrait of the nearly forgotten man who demystified ancient Egypt for the general public, *American Egyptologist* restores James Henry Breasted to the world and puts forward a brilliant case for his place as one of the most important scholars of modern times.
