Sin is the New Love Abir Mukherjee,2018-08-10 Ahi is an aspiring publisher and wishes to make it big someday. When her favourite author's autobiography lands on her table – which has confessions of his heinous crimes, illegal businesses and few eminent others as his partners in crime – she doesn't know if it's real or someone's trap. It could get her a big breakthrough, but little does she know that it would turn her world upside down completely. Her morbid curiosity pulls her into the depth of a conspiracy. She finds herself in the centre of various mishaps and murders, as if someone wants to lead the way. Driven by her childhood friend Samim's encouragement, and watched over by the ever so charming ACP Rathore, she has to jeopardize her life to find the brutal truth of her past. Touching, thrilling and deeply mysterious, *Sin is the New Love* is the journey of a girl who stumbles upon the truth about her origin while chasing her dream.

Problems and dilemmas are reviewed, and a comparison is made of three archetypical diasporas: the Greek, the Jewish and the Armenian.

Waikiki Gaye Chan,Andrea Feeser,2006-09-30 Waikiki:A History of Forgetting and Remembering presents a compelling cultural and environmental history of the area, exploring its place not only in the popular imagination, but also through the experiences of those who lived there. Employing a wide range of primary and secondary sources—including historical texts and photographs, government documents, newspaper accounts, posters, advertisements, and personal interviews—an artist and a cultural historian join forces to reveal how rich agricultural sites and sacred places were transformed into one of the world's most famous vacation destinations. The story of Waikiki's conversion from a vital self-sufficient community to a tourist dystopia is one of colonial oppression and unchecked capitalist development, both of which have fundamentally transformed all of Hawai'i. Colonialism and capitalism have not only changed the look and function of the landscape, but also how Native Hawaiians, immigrants, settlers, and visitors interact with one another and with the islands' natural resources. The book's creators counter this narrative of displacement and destruction with stories—less known or forgotten—of resistance and protest.

Can We Unlearn Racism? Jacob R. Boersema,2021-08-17 In contemporary South Africa, power no longer maps neatly onto race. While white South Africans continue to enjoy considerable power at the top levels of industry, they have become a demographic minority, politically subordinate to the black South African population. To be white today means having to adjust to a new racial paradigm. In this book, Jacob Boersema argues that this adaptation requires nothing less than unlearning racism: confronting the shame of a racist past, acknowledging privilege, and, to varying degrees, rethinking notions of nationalism. Drawing on more than 150 interviews with a cross-section of white South Africans—representationally diverse in age, class, and gender—Boersema details how they understand their whiteness and depicts the limits and possibilities of individual, and collective, transformation. He reveals that the process of unlearning racism entails dismantling psychological and institutional structures alike, all of which are inflected by emotion and shaped by ideas of culture and power. *Can We Unlearn Racism?* pursues a question that should be at the forefront of every society's collective consciousness. Theoretically rich and ethnographically empathetic, this book offers valuable insights into the broader sociological process of unlearning, relevant today to communities all around the world.

The Burning City Alaya Johnson,2010-06-15 In *The Burning City*, Alaya Dawn Johnson continues the trilogy begun with her debut, *Racing the Dark*, delving deeper into the world of magic wielded by women who understand the dark trade-offs of power and sacrifice. Lana, the heroine, has become the black ange l—a harbinger of destruction unheard of in the islands for 500 years. Nui'ahi, the sleeping volcano of the great city Essel, has erupted. In the chaos, the city is reshaping itself and violence threatens from all corners. A rebel movement has formed in the destroyed heart of the city, determined to oust Kohaku, the mad Mo'i of Essel. Lana wants no part of the rebels' cause — the death spirit still chases her, and the great witch Akua has kidnapped Lana's mother. But the more Lana looks for her mother, the more she is drawn into the city's political conflicts. As Kohaku descends deeper into madness, determined to subdue the city by any means necessary, his wife has run away to the fire temple, where she too is slowly converted to the rebel's cause. When long-running tensions spill over into civil war, Lana must make her hardest decision yet: her mother's life, or a city's freedom?

An Iridescent Device: Premodern Ottoman Poetry Christiane Czygan,Stephan Conermann,2018-12-03 Ten experts in premodern literature and history examine the style, genre, and

performance of sixteenth century Ottoman poetry. A large number of poems, including a newly discovered imperial poem collection and the work of a poet fallen into oblivion, are discussed with regard to their multifarious functions and their contemporary lyrical appeal. Though most of these poets worked in conventional settings many of the articles in this volume point out how they broke taboos, glossed over violence, and promoted or questioned political rule, even as they appealed to their listeners on an emotional level. The authors provide ample evidence for the importance attributed to certain cities and places, as well as local affiliations and networks. These analyses show how premodern poetry operated as a tool of communication and formed an integral part of premodern social and political life.

The Healers Kimo Armitage,2016-03-31 With roots firmly in the oral storytelling tradition, Kimo Armitage's *The Healers* weaves multiple narrators and time periods into a novel of remarkable breadth, giving insight into Hawaiian culture where nature, man, and the spirit world coexist seamlessly. Echoing the voices of long ago, the book celebrates the connection to stories of Hawaii as once told by grandparents and great-grandparents. In the world of *The Healers*, family and place are revered and aloha is heartfelt. Cousins Keola and Pua, chosen as the next generation of healers by their family, initially have an idyllic life as respected apprentice healers. Their days are spent training with their grandmother, investigating the healing properties of plants, and treating ailments of community and family members. Troubling dreams, however, foreshadow a sea change to come. One day, Pua meets and is immediately attracted to Tiki, a descendant of a powerful healing family from Tahiti, who has been mysteriously abandoned by his parents. Months later, Keola is sent across the island to train with Laka, the family's most knowledgeable healer, who was born with no arms or legs. A life-threatening challenge awaits this close-knit unit, and they must call upon generations of ancestral knowledge and skill to save those that stand at the precipice of death. This compelling novel fills a gap in the Hawaiian literary canon of works for young adult readers.

Debunking Howard Zinn Mary Grabar,2019-08-20 Howard Zinn’s *A People’s History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn’s history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn’s Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you’ll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty, not white males’ ill-gotten wealth Why Americans of the “Greatest Generation” were not the equivalent of Nazi war criminals How the Viet Cong were not well-meaning community leaders advocating for local self-rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn’s bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America’s past—and our future—you need this book.
