Enter the Aardvark Jessica Anthony,2020-03-24 A young congressman discovers a mysterious stuffed aardvark on his doorstep and sets out on a journey to find out what it means in this weird, wonderful novel about the secrets we keep from ourselves and their history-shaping consequences (Esquire). It's early one morning on a hot day in August, and millennial congressman Alexander Paine Wilson (R), planning his first reelection campaign and in deep denial about his sexuality, receives a mysterious, over-sized FedEx delivery on his front stoop. Inside is a gigantic taxidermied aardvark. This outrageous, edge-of-your-seat novel hurtles between contemporary Washington, D.C., where Wilson tries to get rid of the unsightly beast before it destroys his career, and Victorian England--where we meet Titus Downing, the taxidermist who stuffed the aardvark, and Richard Ostlet, the naturalist who hunted her. Our present world, we begin to see, has been shaped in profound and disturbing ways by the secret that binds these men. At once a ghost story, a love story, and a stunningly prescient political satire, Enter the Aardvark confronts the consequences of repressed male love meeting oppressive male power, and is a searing condemnation of our current American blindness. It is also that rarest of creatures: a work of art so utterly original and masterfully built that it seems to have spring fully formed from its visionary maker's head.

Awkward Aardvark Mwalimu,Adrienne Kennaway,2005 Aardvark's snoring keeps the other animals awake night after night. Something has got to be done! Mongoose calls on the others for help, but it is not until the termites get involved that the problem is solved. This is the story of how Awkward Aardvark came to sleep during the day and eat termites at night.

Aardvark, Aardvark, How Do You Do! Judy O'toole-freel,2008 Aardvark, Aardvark, How Do You Do! is a remarkable creation by the author and artist to teach a specific mode of art which uses the Elements of Design: color, line, shape, space, texture and value, Not realistically rendered this form of art is called nonrepresentational or nonobjective art. Poems and painting, thoughts from the author and aardvark and suggested exercises teach that the images stand on their own as Elements of Design. Although, you may see an aardvark as the author did. Judy O'Toole-Freel and Mirle Freel have been on a lifelong quest of creative expression. They have channeled this love through writing, the visual arts and equestrian riding and training. Although well acquainted with horses, the author has met only one aardvark and that was at a zoo. Recently she met her second aardvark through her playful imagination. While absorbed with one of the images you will find in the art book and pondering the Elements of Design that embody this mode of expression, she saw an aardvark and a redhead staring at each other. From this interpretation and use of her imagination evolved the art book, Aardvark, Aardvark, How Do You Do! The book encourages the use of the imagination and self-expression through twelve poems paired with twelve paintings in an adventure to become enlightened about nonrepresentational art. Aardvark, Aardvark, How Do You Do! is fun for all to cultivate visual literacy. It is a fundamental teaching tool to be used at home and at school in art classes and libraries. Also galleries, museums, gift shops and bookstores will want to put this superlative art book on their shelves for children and adults alike to enter the world of aesthetics through art and poetry. Plato put it well, Art education brings grace to the body and nobility to the mind.

The Aardvark who Wasn't Sure Jill Tomlinson,2004 Pim is a baby aardvark - or at least he thinks he is. But what does that mean? When he finds out that he cannot climb trees or dig deep burrows, he feels a little disappointed. But, as time goes by, he realises that being an aardvark isn't so bad after all.

Can an Aardvark Bark? Melissa Stewart,2017-06-13 From award-winning author Melissa Stewart and Caldecott honoree Steve Jenkins comes a noisy nonfiction exploration of the many sounds animals make. Can an aardvark bark? No, but it can grunt. Lots of other animals grunt too... Barks, grunts, squeals—animals make all kinds of sounds to communicate and express themselves. With a growling salamander and a whining porcupine, bellowing giraffes and laughing gorillas, this boisterous book is chock-full of fun and interesting facts and is sure to be a favorite of even the youngest animal enthusiasts.
