**Acrobatics for Children & Teenagers** Michael Blume,2013-09-25 Children and teenagers find acrobatics exciting. The challenge of risking their equilibrium together and building human formations is intriguing. Team spirit and the willingness to cooperate are required. Many of the spectacular human pyramids and partner balances are easy to learn and considerable progress can be made in a short period of time. This book provides a vivid and informative description of the principles of partner acrobatics with children and teenagers. It provides suggestions on how to begin and how to design meaningful training sessions, as well as different options for the structuring of performances. In addition to the many preparatory exercises, the practical portion of the book introduces simple acrobatic formations that have been tried and tested. The individual chapters include detailed written and visual descriptions of the many different techniques, from pyramid building to fantasy formations, from dynamic elements to elegant partner formations.

**Acrobatic Modernism from the Avant-Garde to Prehistory** Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity. As a conscientious engagement with modernity's restructuring of the lifeworld, the modernist avant-garde raised the stakes of this engagement to programmatic explicitness. But even beyond the vanguard, the global phenomenon of jazz combined somatic assault with sensory tutelage. Jazz, like the new technologies of modernity, re-calibrated sensory ratios. The criterion of the new as self-making also extended to names: pseudonyms and heteronyms. The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource, validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement. Expressivity trumped representation. The artwork was a diagram of perception, not a mimetic rendering. For artists, the historical pressures of altered perception provoked new models, and Ezra Pound's slogan 'Make It New' became the generic rallying cry of renovation. The paradigmatic stance of the avant-garde was established by Futurism, but the discovery of prehistoric art added another provocation to artists. Paleolithic caves validated the spirit of all-over composition, unframed and dynamic. Geometric abstraction, Constructivism and Purism, and Surrealism were all in quest of a new mythology. Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity. The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future. As such, the present was suffused with the pathos of being neither, but subject to both.

*Vyria and Her Acrobatic Skating Team* Stasia Xu, 2014-04-08 Marilyn Rose was a world champion figure skater. She was the best of the best, so when she had a daughter, much was expected of her. Vyria Rose was born to follow in her mother's footsteps—but she just can't seem to make the

grade. She loves figure skating, but she has yet to turn in a winning performance. In frustration, her mother decides to take on a new student named Alice. Vyria, feeling rejected and jealous of her mother's new pupil, turns her focus to school and her grades. She misses figure skating, though, and she still dreams of doing something magical on the ice. Adventurous and brave, Vyria suddenly has a wild idea. Why not mix acrobatics with figure skating? She gets a team together, and they plan to be showstoppers. They'll use a jump board and add gymnastics to their performances on the ice. Now only time will tell whether Vyria will grow into a future that will make her happy with herself and her own abilities.

It might be a relief to quit maintaining this rigid pose of normalcy and own up to the outlaws and monsters we are--
