

Affinities

Robert Charles Wilson

The Affinities Robert Charles Wilson, 2015-04-21 In our rapidly-changing world of social media, everyday people are more and more able to sort themselves into social groups based on finer and finer criteria. In the near future of Robert Charles Wilson's *The Affinities*, this process is supercharged by new analytic technologies--genetic, brain-mapping, behavioral. To join one of the twenty-two Affinities is to change one's life. It's like family, and more than family. Your fellow members aren't just like you, and they aren't just people who are likely to like you. They're also the people with whom you can best cooperate in all areas of life--creative, interpersonal, even financial. At loose ends both professional and personal, young Adam Fisk takes the suite of tests to see if he qualifies for any of the Affinities, and finds that he's a match for one of the largest, the one called Tau. It's utopian--at first. Problems in all areas of his life begin to simply sort themselves out, as he becomes part of a global network of people dedicated to helping one another--to helping him. But as the differing Affinities put their new powers to the test, they begin to rapidly chip away at the power of governments, of global corporations, of all the institutions of the old world. Then, with dreadful inevitability, the different Affinities begin to go to war--with one another. What happens next will change Adam, and his world, forever. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Affinities Jennifer Mason, 2018-01-16 How is it possible to feel an affinity with a place? What is happening when someone feels almost literally transported to another time by a smell or a texture or a song? Why do striking family resemblances sometimes feel uncanny? In each of these cases a potent connection is being made, involving forces, flows, energies and atmospherics that conventional sociological approaches can find hard to grasp, but that are important nonetheless. In this innovative book Jennifer Mason argues that these are affinities – potent charges and charismatically lively connections in personal life, that rise up and matter in some way and that enchant or toxify the everyday. She suggests that exploring affinities opens up new possibilities for conceptualizing the experience of living in the world through what she calls the 'socio-atmospherics of everyday life'. This book invites the reader to embrace possibilities and themes that may seem outside the usual range, and to engage in a more open, attentive, inventive and poetic sociological sensibility.

Affinities Adam Green, 2022-06-07 An exploration of echoes and resonances across two millennia of visual culture, this book brings together weird, wondrous, and unforgettable imagery in one stunning volume. A remarkable collection of over five hundred images, Affinities is a carefully curated visual journey illuminating connections across more than two thousand years of image-making. Drawing on a decade of archival immersion at The Public Domain Review, an online journal and not-for-profit project dedicated to

exploring curious and compelling works from the history of art, literature, and ideas, this volume has been assembled from a vast array of sources: from manuscripts to museum catalogs, and ship logs to primers on Victorian magic. The images are arranged in a single captivating sequence that unfurls according to a dreamlike logic, through a play of visual echoes and evolving thematic threads—hatching eggs paired with early Burmese world maps, marbled endpapers meet tattooed stowaways, and fireworks explode beside deep sea coral. At once an art book, a sourcebook, and a kaleidoscopic visual poem, *Affinities* is a unique and enthralling publication that will offer something different on each visit. A compelling art object and visual experience in its own right, this collection provides a launchpad for further exploration and inventive engagement across all forms of visual culture and expression.

Elective Affinities Johann Wolfgang von Goethe, 1809

The Elective Affinities Johann Wolfgang von Goethe, 2023-12-28 *Elective Affinities*, also translated under the title *Kindred by Choice*, is the third novel by Johann Wolfgang von Goethe, published in 1809. The title is taken from a scientific term once used to describe the tendency of chemical species to combine with certain substances or species in preference to others. The novel is based on the metaphor of human passions being governed or regulated by the laws of chemical affinity, and examines whether or not the science and laws of chemistry undermine or uphold the institution of marriage, as well as other human social relations. The story is situated around the city of

Weimar. Goethe's main characters are Eduard and Charlotte, an aristocratic couple both in their second marriage, enjoying an idyllic but semi-dull life on the grounds of their rural estate. They invite the Captain, Eduard's childhood friend, and Ottilie, the beautiful, orphaned, coming-of-age niece of Charlotte, to live with them...

AFFINITIES AND OTHER STORIES MARY ROBERTS RINEHART, 1920

Elective Affinities Johann Wolfgang von Goethe, 1994 *Elective Affinities* was written when Goethe was sixty and long established as Germany's literary giant. This is a new edition of his penetrating study of marriage and passion, bringing together four people in an inexorable manner. The novel asks whether we have free will or not and confronts its characters with the monstrous consequences of repressing what little real life they have in themselves, a life so far removed from their natural states that it appears to them as something terrible and destructive.

Affinities Rosa Caroline Praed, 1885

Affinities, and Other Stories Mary Roberts Rinehart, 2019-12-03 Step into the world of Mary Roberts Rinehart's short stories and experience the excitement, romance, and mystery of the era leading up to the 1920s. This collection of five stories takes you on a journey through different genres, from romance to mystery and beyond, providing an escape from reality for any reader. Lose yourself in the pages of 'Affinities', 'The Family Friend', 'Clara's Little Escapade', 'The Borrowed House', and 'Sauce for the Gander',

and discover the intrigue and suspense of Rinehart's storytelling.

Unsettled Affinities Reinhard Bendix, 1993-01-01 *Unsettled Affinities* was Bendix's final work. It has a unique place in his writing, as it continues the themes contained in the two volumes of *Embattled Reason* and extends them in his consideration of the idea of community. For Bendix, affinities are personally, socially, and politically unsettled and unsettling. The work is divided into three parts: an initial, personal reflection on the author's emigration from Hitler's Germany; an extended examination of the social definitions of community in Western civilization; and a consideration of politics, civil society, and the legitimization of power. In the social and political sections, special attention is given to Germany. Using notes, letters, and lecture, John Bendix, the author's son, has provided an epilogue that gives indications of the direction Reinhard Bendix's thought was heading.

The Elective Affinities Johann Wolfgang Von Goethe, James Anthony Froude, R Dillon Boylan, 2020-12-14 *Elective Affinities*, also translated under the title *Kindred by Choice*, is the third novel by Johann Wolfgang von Goethe, published in 1809. The title is taken from a scientific term once used to describe the tendency of chemical species to combine with certain substances or species in preference to others. The novel is based on the metaphor of human passions being governed or regulated by the laws of chemical affinity, and examines whether or not the science and laws of chemistry undermine or uphold the institution of marriage, as well as other human social relations.

The story is situated around the city of Weimar. Goethe's main characters are Eduard and Charlotte, an aristocratic couple both in their second marriage, enjoying an idyllic but semi-dull life on the grounds of their rural estate. They invite the Captain, Eduard's childhood friend, and Ottilie, the beautiful, orphaned, coming-of-age niece of Charlotte, to live with them...

Enjoy this classic work today. These selected paragraphs distill the contents and give you a quick look inside Affinities and Other Stories: Look inside the book: I leaned up against a fence, and I remembered the time Lily Slater asked Ollie Haynes to see her off to Chicago, her husband being out of town; and how Ollie was carried two hundred miles before the train would stop to let him off; and how Harry never believed the story and was off shooting big game at that very minute; and Lily getting gray over her ears as a result, and not

even going out to lunch with anybody for fear there were detectives watching her. ...Whenever I get cocky, as Day would say, and reflect on my own virtues, and how few things I do that any one could find fault with, not playing bridge for more than two and a half cents a point, and stopping a flirtation before it reaches any sort of gossipy stage, I think of Ferd and myself in that awful haymow, with a man below searching round that miserable machine for a pail, and Ferd oozing a slow drip-drip on the floor below that was enough to give us away—like the blood dropping from the ceiling in that play of David Belasco's.

Goethe's Elective Affinities and the Critics Astrida Orle Tantillo, 2001 The first book-length examination in English of the critical reception of Goethe's daring novel *The Elective Affinities*. From the time of its publication to today, Goethe's famous novel *The Elective Affinities* (*Die Wahlverwandtschaften*, 1809), has aroused a storm of critical confusion. Critics in every age have vehemently disagreed about its content (whether it defends the institution of marriage, radically supports its dissolution, or even whether it is about marriage at all), its style (whether it is romantic, realistic, modern, or postmodern) and its tone (whether it is tragic, anti-romantic, or ironic). The present study begins by focusing upon the reaction of Goethe's contemporaries, and then discusses Goethe's own efforts -- in light of the initial negative critical reaction -- to shape the novel's reception. It continues by viewing the novel through the lens of 19th-century

Hegelianism, positivism, and biographical studies, and by exploring the relationship between the novel's 19th-century reception and the growth of psychoanalytic theory and German nationalism. Moving on to the 20th century, the book considers the re-evaluation of Goethe's scientific works, the impact of World War II on the novel's interpreters, and the growing influence of literary theory. Here particular emphasis is placed upon Walter Benjamin's seminal essay on the novel and upon the criticism that the essay has inspired. Astrida Orle Tantillo is assistant professor of German at the University of Illinois at Chicago.

Affinities Brian Dillon, 2023-04-25 A meditation on the power and pleasures of the image, from paintings to photographs to migraine auras, by one of Britain's finest literary minds. In *Affinities*, Brian Dillon, who Joyce Carol Oates has said writes "fascinating prose . . . on virtually any subject," explores images and artists he is drawn to and analyzes the attraction. What does it mean to claim affinity with a picture? What do feelings of affinity imply about the experience of art and of the world? *Affinities* is a critical and personal study of a sensation that is not exactly taste, desire, or solidarity, but has aspects of all three. Approaching this subject via discrete examples, Dillon examines works by artists such as Dora Maar and Andy Warhol, Rinko Kawauchi and Susan Hiller, as well as scientific or vernacular images of sea creatures and migraine auras. Written as a series of linked essays, *Affinities* completes a trilogy, with *Essayism* and *Suppose a*

Sentence, about the intimate and abstract pleasures of reading and looking.

Elective Affinities Johann Wolfgang von Goethe, 1971 *Elective Affinities* was written when Goethe was sixty and long established as Germany's literary giant. This is a new edition of his penetrating study of marriage and passion, bringing together four people in an inexorable manner. The novel asks whether we have free will or not and confronts its characters with the monstrous consequences of repressing what little real life they have in themselves, a life so far removed from their natural states that it appears to them as something terrible and destructive.

Affinities Mrs. Campbell Praed, 1886

Elective Affinities Lydia Goehr, 2011 As illustrated in Goethe's famous novel of the same name, elective affinities are powerful relationships that crystallize under changing conditions. In this new book, Lydia Goehr focuses on the history of elective affinities between philosophy and music from German classicism, romanticism, and idealism to the modernist aesthetic theory of Theodor W. Adorno and Arthur C. Danto. Aesthetic theory, she argues, depends on a dynamic philosophy of history centered on tendencies, yearnings, needs, and potentialities. With this in mind, she recasts the theses of Adorno and Danto regarding the death or end of philosophy, art, music, and human experience as arguments for continuation and survival. *Elective Affinities* tracks the migration of aesthetic and critical theory from Germany to the United States following the catastrophic period of the

twentieth century marked by the Second World War.

Elective Affinities Catriona MacLeod, Véronique Plesch, Charlotte Schoell-Glass, 2009 This volume presents the impressive range of scholarly affinities, approaches, and subjects that characterize today's word and image studies. The essays were first presented in 2005 at an international conference.
