**Talmudic and Midrashic Fragments from the Italian Genizah** Mauro Perani, Enrica Sagradini, 2004

Victory Undone Carter Andress, Malcolm McConnell, 2014-10-20 Here is a dramatic, first-person account of how the United States won the war in Iraq, only to see the peace lost by an unengaged administration, with Iraqis terrorized and the new caliph of ISIS promising, "I'll see you in New York." Military contractor Carter Andress was the ultimate boots-on-the-ground civilian in Iraq. While reporters, aid workers, diplomats, and even U.S. soldiers were often cut off from the ground truth in Iraq by the blast walls protecting the Green Zone and our bases, Andress was in the thick of things: driving through insurgent-infested territory, negotiating with hostile tribes, and witnessing the transformation of Iraq from chaos and violence to a stable multi-ethnic, multi-sectarian democracy that needed only minimal American support to defend itself – support, however, that thanks to the Obama administration was not forthcoming. A page-turner of a story, but also an incredibly important account of what actually happened in the Iraq War and afterwards, *Victory Undone* is a book every American needs to read.

**Consolidated Statements** Robert G. Walker, 2006 During the 1960s and 1970s a remarkable series of books was produced by academic staff in the field of accounting at the University of Sydney. It was a period when academic research was largely analytical rather than empirically-based. For the most part, the interests of academics at Sydney were largely directed at questioning the status quo – either in the way accounting or auditing was practiced, or in the conventional wisdom expressed in textbooks of the time. The Sydney Accounting Classics series reflects the diversity of interests of the 'Sydney school' at that time. It also recognises the tremendous impact of the foundation professor of accounting, R.J. Chambers. This reprint series ensures that the ideas developed during this period remain available to new generations of scholars and researchers. The Sydney Accounting Classics series is an initiative of the Accounting Foundation, in association with Sydney University Press. Consolidated Statements: A History and Analysis: This book covers the history of the development of the use of consolidated statements in the UK, US and Australia. Consolidation refers to the use of the 3 basic statements in accounting, covering assets, liabilities and equity.

**International Accounting and Transnational Decisions** S. J. Gray, 2014-05-20 International Accounting and Transnational Decisions explores a wide range of significant international accounting issues with special reference to the comparative development of national systems of accounting, international accounting standards, transnational financial reporting issues and financial planning and control in the multinational corporation. The book is organized into five parts. Part I discusses the international dimensions of accounting including both the financial reporting and managerial decision-making perspectives. The second part is concerned with the comparative international aspects of accounting. The Part III presents developments and questions relating to international accounting standards. The fourth part considers a number of selected transnational financial reporting issues of concern both to managers and financial statement users. The last part takes a managerial perspective in its coverage of important problems of transnational financial decision making and control. Accountants and students of accounting will find the book useful.

China's Private Army Alessandro Arduino, 2017-12-15 This book illustrates the role that Private Security Companies (PSC) with 'Chinese characteristics' play in protecting people and property associated with the Belt and Road Initiative (BRI). The revival of the ancient Silk Road economic "belt," combined with the 21st Century sea lanes of communication known as the "road," is intended to enhance global connectivity and increase commercial activity. However, the socio-political risks associated with Chinese outbound direct investments are often overlooked. Terrorism, separatism, kidnapping and other risks are mostly new to Chinese companies, some of which are operating abroad for the first time. Economic globalization and the transnational exploitation of natural resources have increased the need for Chinese-owned PSCs in spite of the disdain for the profession of "a lance for hire." Due to peculiar geo-strategic and geo-economic features, the "belt" from Central Asia to Pakistan and the "road" from the Somali coast to the Strait of Malacca are characterized by a high level of insecurity. This book's focus on how the state's monopoly of force privatization can play a significant role in protecting the New Silk Road will be of interest to policymakers, journalists, and academics.

*5G Radio Access Network Architecture* Sasha Sirotkin, 2020-11-25 Discover how the NG-RAN architecture is, and isn't, ready for the challenges introduced by 5G 5G Radio Access Network Architecture: The Dark Side of 5G explores foundational and advanced topics in Radio Access Network (RAN) architecture and why a re-thinking of that architecture is necessary to support new 5G requirements. The distinguished engineer and editor Sasha Sirotkin has included numerous works written by industry insiders with state of the art research at their disposal. The book explains the relevant standards and technologies from an academic perspective, but also explains why particular standards decisions were made and how a variety of NG-RAN architecture options could be deployed in real-life networks. All major standards and technologies associated with the NG-RAN architecture are discussed in this book, including 3GPP, O-RAN, Small Cell Forum, IEEE, and IETF. Readers will learn about how a re-design of the RAN architecture would ensure that 5G networks can deliver their promised throughput and low latency KPIs consistently and sustainably. The book is structured as follows: An overview of the market drivers of the NG-RAN architecture, like spectrum models, 5G-relevant regulatory considerations, and 5G radio interface technical requirements An overview of the 5G System, from the core network, to the RAN, to the radio interface protocols and physical layer, with emphasis on how these are different compared to 4G Release-15 RAN architectures defined in 3GPP, O-RAN, and Small Cell Forum RAN architecture evolution in Release-16 and Release-17 Enabling technologies, like virtualization, open source technologies, multi-access edge (MEC) computing, and operations, administration, and management (OAM) NG-RAN deployment considerations, objectives, and challenges, like costs, spectrum and radio propagation considerations, and coverage Perfect for network designers and operators who require a solid understanding of the NG-RAN architecture, 5G Radio Access Network Architecture also belongs on the bookshelves of network engineers who aim to increase their understanding of the standards and technologies relevant to the NG-RAN architecture.

**Contractor Combatants** Carter Andress,2007-08-05 An insider account an entrepreneur hired to support American peacekeeping efforts in Iraq in the wake of the fall of Saddam Hussein’s regime. The enemy is everywhere in war-torn Iraq, and suppliers and construction workers run the same risks as uniformed combatants: guerrilla attacks, suicide bombings, rocket bombardments, and road mines. This is the compelling story of Carter Andress and the unique methods his multinational team used to deliver vital supplies to coalition forces and help rebuild the devastated country. Armed to the teeth with AK-47s, sidearms, and bags full of grenades, these “contractor combatants” engaged in deadly firefights with the enemy while attempting to fulfill their mission and defend their own lives. Some gunned down insurgents. Others were themselves killed. This riveting war story is the first to define the role of this new breed of private warrior and to do so in a gripping and highly graphic narrative.
