**Sufi Teachings** Hidayat Khan,1994 Sufi Teachings delves deep into modern Western Sufi philosophy to chart a path for the seeker after Truth. Seldom has the seeker's path been so accessible or clearly defined as in this collection of lectures gleaned from inspiring moments at an annual Sufi retreat high in the Canadian Rockies.

**The Universal Islamic Education Methodology** Roohi A. Ahmad,2023-08-28 Have we ever wondered why Allah swt uses His name as Allah some places and Rabb in the others? Have we ever wondered what the difference between momin and muslim is? Can we make an argument to prove their meanings from within the Quran? Have we ever wondered why Allah swt uses the word zikar so extensively throughout the Quran; or what the meaning of the word zikar is; or how the meaning of zikar is different from talu, qara, and ratat; and even why there are talu, qara, and ratat, the three different words for reading the Quran? Or have we ever wondered why we are plagued by all kinds of catastrophes? Or why is there so much chaos and conflict in the world, and how can we solve these problems? If we have not wondered about such questions, the reason is that we have not read the Qur'an in its true sense. Today's Muslims have two main objectives for their children: success in this world and triumph in the life hereafter. Muslim children need natural and social knowledge, but to fully enrich their minds, they also need to learn about the Quran and Islamic traditions. Many Islamic schools in North America are pursuing both of these objectives, but educators often feel that merging these two goals is too difficult. Having spent years teaching in Islamic schools and conducting a wealth of research, Roohi A. Ahmad has observed firsthand how complex the enterprise of Islamic education is. She has also witnessed the void of learning outcomes, teaching goals, and, most importantly, a clear vision and methodology for Islamic education. She has sought to remedy that situation in this book. It provides a practical methodology designed to help Muslim educators create a state-of-the-art Islamic education system that will lead to fully formed students who can function well in this world and ensure a positive outcome in the world to come.

**The Ahmadis** Antonio R. Gualtieri,2004 Following on the work he began in Conscience and Coercion: Ahmadi Muslims and Orthodoxy in Pakistan, Antonio Gualtieri returned to Pakistan to continue his conversations with devotees of the Ahmadi community. He reveals how this traditional society deals with conflicts arising from contact with the non-Ahmadi and shows how the Ahmadi survive in a country that is generally hostile to them. Dedicated to supernatural revelation and the divine governance of society, Pakistan's Ahmadi community has endured mob violence and penal sanctions for refusing to embrace the beliefs of the Sunni majority. They disagree with fundamentalist ideas of exclusiveness and consider themselves a reformed version of Islam. Although they have adopted Enlightenment ideas about the pursuit of scientific knowledge and produced a notable number of technicians, doctors, and scientists, women continue to live under a strict definition of purdah and the community remains conservative. The Ahmadis reveals a society strictly grounded in divinely prescribed patterns - including parental authority, close family ties, a disposition towards gender-specific roles, and separation of the sexes - but at odds with fanatical Muslim fundamentalism, whose wrath has spread beyond the Ahmadi minority to include the West.

**Outright Assassination** Adel Beshara,2012 Since the trial and execution of Antun Sa'adeh was held, many complex issues have been raised: Why the secrecy and haste? Was it a fair trial? Was the offence political and, if so, why did the Lebanese State refuse to treat it as such? What did the Khoury regime hope to achieve from the trial? This book answers these and many more questions.

*Mutazilah* Dr. I. M. N. Al-Jubouri,2022-03-19 This book is among the contributions that I offer to the British reader in particular, and to the Western reader in general, on Arab-Islamic philosophy. However, this book is distinguished from what I presented in my previous writings, as it is limited to one school of thought, excluding all other schools of thought, which is the doctrine of the Mutazilites. The Mutazilism scholars played a dangerous and important role in the second Hijri century, by cleaning the Arab mind of distortions and nonsense stuck in it, and their principle was "reason before quotation." The intellect is the decisive factor towards the written texts and the spoken sayings, as they adhered to the verses of exaltation and gave the verses of analogy in accordance with the divine exaltation in the Qur'an. And so was their mental attitude towards the hadiths of the Prophet, so what the mind accepts they take, and what conflicts and contradicts it they reject and leave. Thus, the Mutazilites confronted some Islamic sects, led by the traditional conservatives of the Sunnites, who prioritize quotation over reason. Although the confrontation ended in favour of the traditional conservative approach, the Mutazilites were an infidel and fought against, their presence continued to be limited, scattered here and there. Also, their ideas, theories and some of their books continued to be preserved, whether in the libraries of the Islamic sects that adapted to them, such as the Zaydites in Yemen, or in the works written by their opponents and enemies, such as the Asharites, Hanbalites and others.
