Alberta Book ,2018-11-06 George Webber's latest book of photography focuses on the vernacular architecture, abandoned townscapes and fading commercial signage from 1950s and 1960s rural Alberta. The prairies are Webber's physical and spiritual home. Born and raised in Drumheller and now living in Calgary Webber has a palpable connection to the places he photographs. His interpretations are direct, sincere and invested with a sense of history and intimacy that imbues his photographs with a heightened, surreal sense of colour and ambiguity that moves them from the ordinary into the realm of the extraordinary. Haunting, touching, evocative and enigmatic, these images occupy a place somewhere between everywhere and nowhere. --Tobi Bruce, Curator at the Art Gallery of Hamilton The 200 colour photographs assembled in Webber's latest portfolio, Alberta Book, have been selected from an archive of work spanning nearly 40 years. In this collection viewers will find deteriorating signage that remains almost garishly bright; chrome details from vintage automobiles that still sparkle in the sun; forgotten buildings that have fallen into gentle disrepair; hand-painted window lettering that goes unread; and abandoned landscapes that echo with the whispers of residents long gone. Set against the bright blue Alberta sky or rolling clouds bursting with prairie thunder, these images glow with warm affection for the humble and reticent structures of Alberta's past. With narrative appreciations from award-winning Alberta writer Fred Stenson and

acclaimed Alberta poet Rosemary Griebel, Alberta Book captures and preserves an important part of the province's visual heritage.

Abandoned Alberta ,2020 A love letter to the province offering a window into the past through stunning photography. The stunning images found in Abandoned Alberta offer a window into our past, showing life as it was then, and stirring in us the emotions of wonder and curiosity about those who have gone before us and the lives they lived. Joe Chowaniec started the Facebook page Abandoned Alberta in January 2017, which today has more than 26,000 members. Alberta is in Joe Chowaniec's blood, and you might say Abandoned Alberta is his love letter to the province. Where others may see only decay and rot in these long-forgotten locations, Chowaniec sees exquisite beauty.

American Carnage Tim Alberta,2019-07-16 New York Times' Top Books of 2019 Politico Magazine's chief political correspondent provides a rollicking insider's look at the making of the modern Republican Party—how a decade of cultural upheaval, populist outrage, and ideological warfare made the GOP vulnerable to a hostile takeover from the unlikeliest of insurgents: Donald J. Trump. The 2016 election was a watershed for the United States. But, as Tim Alberta explains in American Carnage, to understand Trump's victory is to view him not as the creator of this era of polarization and bruising partisanship, but rather as its most manifest consequence. American Carnage is the story of a president's rise based on a country's evolution and a party's collapse. As George W. Bush left office with record-low approval

ratings and Barack Obama led a Democratic takeover of Washington, Republicans faced a moment of reckoning: They had no vision, no generation of new leaders, and no energy in the party's base. Yet Obama's forceful pursuit of his progressive agenda, coupled with the nation's rapidly changing cultural and demographic landscape, lit a fire under the right, returning Republicans to power and inviting a bloody struggle for the party's identity in the post-Bush era. The factions that emerged—one led by absolutists like Jim Jordan and Ted Cruz, the other led by pragmatists like John Boehner and Mitch McConnell—engaged in a series of devastating internecine clashes and attempted coups for control. With the GOP's internal fissures rendering it legislatively impotent, and that impotence fueling a growing resentment toward the political class and its institutions, the stage was set for an outsider to crash the party. When Trump descended a gilded escalator to announce his run in the summer of 2015, the candidate had met the moment. Only by viewing Trump as the culmination of a decade-long civil war inside the Republican Party—and of the parallel sense of cultural, socioeconomic, and technological disruption during that period—can we appreciate how he won the White House and consider the fundamental questions at the center of America's current turmoil. How did a party obsessed with the national debt vote for trillion-dollar deficits and record-setting spending increases? How did the party of compassionate conservatism become the party of Muslim bans and walls? How did the party of family values elect a thrice-divorced

philanderer? And, most important, how long can such a party survive? Loaded with exclusive reporting and based off hundreds of interviews—including with key players such as President Trump, Paul Ryan, Ted Cruz, John Boehner, Mitch McConnell, Jim DeMint, and Reince Priebus, and many others—American Carnage takes us behind the scenes of this tumultuous period as we've never seen it before and establishes Tim Alberta as the premier chronicler of this political era.

Reading the Entrails Norman Charles Conrad, 1999 Before the Fall of Imperial Rome, priests cast the internal organs of sacrificial animals on temple floors, claiming to be able to divine the future from these entrails. By probing the remains of Alberta's past sacrifices -- reading her entrails -- Norman Conrad believes that we might dimly see at apparition of Alberta's future. This controversial book vividly portrays the history of land and life in Alberta, from the Ice Ages to the present. Making no apology for his criticism of government, regulators and large corporations, Norman Conrad makes a strident plea for Alberta's dangerously imperiled environment and presents a model that can be applied anywhere.

The Range Men Leroy Victor Kelly, 2009 Journalist Leroy Victor Kelly's *The Range Men* chronicles the early days of ranching in southwestern Alberta, from the arrival of the first large herds in 1876 through to 1913. Kelly gathered material from the records of the North-West Mounted Police, William Pearce's government reports, the Calgary Herald, the Macleod Gazette and other publications, and collected anecdotes from old-time stockmen such as George Lane and John Ware. A window into the period after the buffalo but before extensive settlement, *The Range Men* paints a vivid, engrossing and sometimes unflattering picture of colonial life and attitudes. Kelly's unvarnished account of the relentless march of 'progress,' as settlements were built and big ranches like the Cochrane, the Medicine Hat and the Bar U were born, notes the impact of farming on the wild prairie ecology and documents treaty betrayals and efforts to reduce and 'subdue' First Nations through smallpox and rum. More than a story of cattle trades and the hard beginnings of the Alberta cowboy, *The Range Men* is an authentic and important slice of history.

A Sales Tax for Alberta Robert L. Ascah, 2022-06-03 The days of buoyant capital investment, jobs, and wealth are passing Alberta by as the boom-and-bust cycle runs its course and the global climate crisis becomes more acute. As the province scrambles to boost the dying oil economy and curb spending, one solution is all but ignored—a sales tax. In this collection, Alberta scholars and policy experts map out why and how a provincial sales tax can and should be implemented. They examine energy revenues, household incomes, and political support as well as opportunities for improving democracy and reducing the volatility of government revenues. Finally, this volume offers recommendations on structuring a consultative review process to improve Alberta's long-term fiscal sustainability. Contributions by Ergete Ferede, Ian Glassford, Kenneth J. McKenzie, Melville McMillan, Elizabeth Smythe, and Graham Thomson.

Alberta's Local Governments: Politics and Democracy Jack Masson, Edward C. LeSage, 1994 During the last decade, Alberta municipalities have endured hardships they have not faced since the Great Depression. Changes in the

province's political structures appear to have been made primarily to transfer a greater share of the costs of local government to the municipalities, yet surprisingly few municipal politicians have resisted the province's financial policies.

Prairie Gothic ,2013-01-01 George Webber's poignant black-and-white photographs transport us into the forgotten, unknowable communities of the Canadian prairies. Throughout the journey, we're confronted by the mysterious particulars of life, death, landscape and faith. Intimate portraits and the hard facts of the place are woven together to create a body of work that is by turns inspiring, consoling and sometimes achingly sad. Individually, these works startle and challenge. As a collection, they represent a photographer's decades-long meditation on the ever-changing face of the Canadian West.

Alberta's Lower Athabasca Basin Brian M. Ronaghan, 2017-05-24 Over the past

two decades, the oil sands region of northeastern Alberta has been the site of unprecedented levels of development. Alberta's Lower Athabasca Basin tells a fascinating story of how a catastrophic ice age flood left behind a unique landscape in the Lower Athabasca Basin, one that made deposits of bitumen available for surface mining. Less well known is the discovery that this flood also produced an environment that supported perhaps the most intensive use of boreal forest resources by prehistoric Native people yet recognized in Canada. Studies undertaken to meet the conservation requirements of the Alberta Historical Resources Act have yielded a rich and varied record of prehistoric habitation and activity in the oil sands area. Evidence from between 9,500 and 5,000 years ago—the result of several major excavations—has confirmed extensive human use of the region's resources, while important contextual information provided by key geological and palaeoenvironmental studies has deepened our understanding of how the region's early inhabitants interacted with the landscape. Touching on various elements of this rich environmental and archaeological record, the contributors to this volume use the evidence gained through research and compliance studies to offer new insights into human and natural history. They also examine the challenges of managing this irreplaceable heritage resource in the face of ongoing development. Contributors: Alwynne Beaudoin, Angela Younie, Brian O.K.
