Alberta Book ,2018-11-06 George Webber's latest book of photography focuses on the vernacular architecture, abandoned townscapes and fading commercial signage from 1950s and 1960s rural Alberta. The prairies are Webber's physical and spiritual home. Born and raised in Drumheller and now living in Calgary Webber has a palpable connection to the places he photographs. His interpretations are direct, sincere and invested with a sense of history and intimacy that imbues his photographs with a heightened, surreal sense of colour and ambiguity that moves them from the ordinary into the realm of the extraordinary. Haunting, touching, evocative and enigmatic, these images occupy a place somewhere between everywhere and nowhere. --Tobi Bruce, Curator at the Art Gallery of Hamilton The 200 colour photographs assembled in Webber's latest portfolio, *Alberta Book*, have been selected from an archive of work spanning nearly 40 years. In this collection viewers will find deteriorating signage that remains almost garishly bright; chrome details from vintage automobiles that still sparkle in the sun; forgotten buildings that have fallen into gentle disrepair; hand-painted window lettering that goes unread; and abandoned landscapes that echo with the whispers of residents long gone. Set against the bright blue Alberta sky or rolling clouds bursting with prairie thunder, these images glow with warm affection for the humble and reticent structures of Alberta's past. With narrative appreciations from award-winning Alberta writer Fred Stenson and acclaimed Alberta poet Rosemary Griebel, *Alberta Book* captures and preserves an important part of the province's visual heritage.

Forging Alberta's Constitutional Framework Richard Connors,John M. Law,University of Alberta. Centre for Constitutional Studies,2005-11 Forging Alberta's Constitutional Framework analyzes the principal events and processes that precipitated the emergence and formation of the law and legal culture of Alberta from the foundation of the Hudson's Bay in 1670 until the eve of the centenary of the Province in 2005. The formation of Alberta's constitution and legal institutions was by no means a simple process by which English and Canadian law was imposed upon a receptive and passive population. Challenges to authority, latent lawlessness, interaction between indigenous and settler societies, periods (pre- and post-1905) of jurisdictional confusion, and demands for individual, group, and provincial rights and recognitions are as much part of Alberta's legal history as the heroic and mythic images of an emergent and orderly Canadian west patrolled from the outset by red coated mounted police and peopled by peaceful and law-abiding subjects of the Crown. Papers focus on the development of criminal law in the Canadian west in the nineteenth century; the Natural Resources Transfer Agreement of 1930; the National Energy Program of the 1980s; Federal-Provincial relations; and the role and responsibilities of the offices of Justices of the Peace and of the Lieutenant-Governor; and the legacies of the Lougheed and Klein governments.

**Alberta's Daycare Controversy** Tom Langford,2011 Since the late 1950s, disputes over day care programs, policies, and funding have been a recurring feature of political life in the province of Alberta.

**Alberta's Cornerstone** Shari Peyerl,2022-05-26 The fascinating exploration of a vanished settlement in Glenbow Ranch Provincial Park, told within the framework of an archaeologist's memoir. While excavating Alberta's most important historic sandstone quarry, archaeologist and oral historian Shari Peyerl uncovers fascinating clues about the province's past. From metal fragments and dusty artifacts, she pieces together a story about a settlement situated in today's picturesque Glenbow Provincial Park. Chronicling the development of ranching, village life, industry, and the Canadian Pacific Railway, *Alberta's Cornerstone* is an engaging and authoritative history that reads like an archaeological detective story. As Peyerl dispels archaeological myths, explains scientific techniques, and shares the excitement of unearthing lost histories, she introduces readers to a colourful array of characters who once lived at Glenbow, including a local embezzler, Alberta's first graduate nurse, a Canadian soccer champion, an acclaimed mathematician, and a member of an international spy agency. Written for the general public, the detective-like attention to detail of this carefully annotated book will also appeal to historical scholars. Beautifully illustrated with modern colour photographs and many historic photographs (including fifteen previously unpublished), *Alberta's Cornerstone* brings the ghosts of Glenbow to life.

**Alberta's Judicial Leadership** Austin Mardon,2011-07 Presented in this book are the biographies of Alberta's judiciaries. It serves as a reference for anyone wishing to find information on Alberta's judicial leadership over the past century. By having a compendium of biographies, interested researchers will be able to create interconnections and have accurate historical facts to base their research upon.

*Alberta's Local Governments: Politics and Democracy* Jack Masson,Edward C. LeSage,1994 During the last decade, Alberta municipalities have endured hardships they have not faced since the Great Depression. Changes in the province's political structures appear to have been made primarily to transfer a greater share of the costs of local government to the municipalities, yet surprisingly few municipal politicians have resisted the province's financial policies.

**Alberta's Lower Athabasca Basin** Brian M. Ronaghan,2017-05-24 Over the past two decades, the oil sands region of northeastern Alberta has been the site of unprecedented levels of development. *Alberta's Lower Athabasca Basin* tells a fascinating story of how a catastrophic ice age flood left behind a unique landscape in the Lower Athabasca Basin, one that made deposits of bitumen available for surface mining. Less well known is the discovery that this flood also produced an environment that supported perhaps the most intensive use of boreal forest resources by prehistoric Native people yet recognized in Canada. Studies undertaken to meet the conservation requirements of the Alberta Historical Resources Act have yielded a rich and varied record of prehistoric habitation and activity in the oil sands area. Evidence from between 9,500 and 5,000 years ago—the result of several major excavations—has confirmed extensive human use of the region's resources, while important contextual information provided by key geological and palaeoenvironmental studies has deepened our understanding of how the region's early inhabitants interacted with the landscape. Touching on various elements of this rich environmental and archaeological record, the contributors to this volume use the evidence gained through research and compliance studies to offer new insights into human and natural history. They also examine the challenges of managing this irreplaceable heritage resource in the face of ongoing development. Contributors: Alwynne Beaudoin, Angela Younie, Brian O.K. Reeves, Duane Froese, Elizabeth Roberston, Eugene Gryba, Gloria Fedirchuk, Grant Clarke, John W. Ives, Janet Blakey, Jennifer Tischer, Jim Burns, Laura Roskowski, Luc Bouchet, Murray Lobb, Nancy Saxberg, Raymond LeBlanc, Robert R. Young, Robin Woywitka, Thomas V. Lowell, and Timothy Fisher

**Alberta's Petroleum Industry and the Conservation Board** David Breen,1993 The Petroleum and Natural Gas Conservation Board, created by the Alberta government in 1938, ensured that the province's petroleum resources were utilized in a manner that protected the long-term public interest.

**Developing Alberta's Oil Sands** Paul Anthony Chastko,2004 Alberta's oil sands represent a vast and untapped oil reserve that could reasonably supply all of Canada's energy needs for the next 475 years. With an estimated 300 billion barrels of recoverable oil at stake, the quest to develop this natural resource has been undertaken by many powerful actors, both nationally and internationally. Using research that integrates the economic, political, scientific, and business factors that have been influential in discovering and developing the sands, this book provides a comprehensive history of the oil sands project and a window on the nature of the complex relationships between industry,

government, and transnational players. This book is the first comprehensive volume that examines the origins and development of the oil sands industry over the last century.

**Mapping Alberta's Political Leadership** Austin Mardon, 2011 This book presents information taken from a variety of sources, including newspapers, records, and interviews, to give an account of Alberta's political leadership. Although no attempt has been made here to analyze voting patterns and behaviours, or to provide a detailed narrative account of individual election campaigns, much of the political history of Alberta can be read in these biographical profiles.

**American Carnage** Tim Alberta, 2019-07-16 New York Times' Top Books of 2019 Politico Magazine's chief political correspondent provides a rollicking insider's look at the making of the modern Republican Party—how a decade of cultural upheaval, populist outrage, and ideological warfare made the GOP vulnerable to a hostile takeover from the unlikeliest of insurgents: Donald J. Trump. The 2016 election was a watershed for the United States. But, as Tim Alberta explains in *American Carnage*, to understand Trump's victory is to view him not as the creator of this era of polarization and bruising partisanship, but rather as its most manifest consequence. *American Carnage* is the story of a president's rise based on a country's evolution and a party's collapse. As George W. Bush left office with record-low approval ratings and Barack Obama led a Democratic takeover of Washington, Republicans faced a moment of reckoning: They had no vision, no generation of new leaders, and no energy in the party's base. Yet Obama's forceful pursuit of his progressive agenda, coupled with the nation's rapidly changing cultural and demographic landscape, lit a fire under the right, returning Republicans to power and inviting a bloody struggle for the party's identity in the post-Bush era. The factions that emerged—one led by absolutists like Jim Jordan and Ted Cruz, the other led by pragmatists like John Boehner and Mitch McConnell—engaged in a series of devastating internecine clashes and attempted coups for control. With the GOP's internal fissures rendering it legislatively impotent, and that impotence fueling a growing resentment toward the political class and its institutions, the stage was set for an outsider to crash the party. When Trump descended a gilded escalator to announce his run in the summer of 2015, the candidate had met the moment. Only by viewing Trump as the culmination of a decade-long civil war inside the Republican Party—and of the parallel sense of cultural, socioeconomic, and technological disruption during that period—can we appreciate how he won the White House and consider the fundamental questions at the center of America's current turmoil. How did a party obsessed with the national debt vote for trillion-dollar deficits and record-setting spending increases? How did the party of compassionate conservatism become the party of Muslim bans and walls? How did the party of family values elect a thrice-divorced philanderer? And, most important, how long can such a party survive? Loaded with exclusive reporting and based off hundreds of interviews—including with key players such as President Trump, Paul Ryan, Ted Cruz, John Boehner, Mitch McConnell, Jim DeMint, and Reince Priebus, and many others—*American Carnage* takes us behind the scenes of this tumultuous period as we've never seen it before and establishes Tim Alberta as the premier chronicler of this political era.

**Alberta Formed - Alberta Transformed** Alberta 2005 Centennial History Society, 2006-04-18 *Alberta Formed Alberta Transformed* is a two-volume set spanning a remarkable 12,000 years of history and showcasing the work of 34 of Alberta's most respected scholars. Volume 1 sets the stage from human beginnings in Alberta to the eve of Alberta's inauguration as a province in 1905, while Volume 2 takes readers through the twentieth century and up to the 2005 centennial.

**Tapping the West** Scott Messenger, 2020-05-05 Winner of a 2020 Gourmand World Cookbook Award The story behind Alberta's craft beer boom. An insider's look that brings together tasting notes, social history, politics, and science. When Alberta eliminated its laws around mandatory minimum brewing capacity in 2013, the industry suddenly opened to the possibility of small-batch craft breweries. From roughly a dozen in operation before deregulation, there are now more than a hundred today, with new ones bubbling up each month. It's an inspiring story, one that writer Scott Messenger tells in impressive scope. At a time when Alberta was still recovering from the plunge in oil prices in 2008, deregulation represented a path to economic diversification. Messenger takes readers on the road with him to investigate artifacts left behind by Alberta brewers dating to the late-1800s, to farms responsible for the province's unrivalled malt, and into the brewhouses and backstories of some of Canada's best new beer makers. It's an insider's look at history in the making. With humour, straight-talking tasting notes, and a willingness to challenge stereotypes, Messenger introduces us to key players in the industry. We meet Graham Sherman of Tool Shed Brewing, who helped spearhead the change in legislation; Greg Zeschuk, whose Belgian-inspired brewery is poised to put Alberta beer on the global map; the sisters behind Northern Girls Hopyard, Alberta's first hop farm; and many more. Messenger winds up his narrative with a good, old-fashioned pub crawl, a fitting finale for the story of an industry that is, at its heart, about having fun with friends. Bringing together social history, politics, and science, *Tapping the West* is engaging and balanced—not unlike the perfect you-know-what.

**Continuity and Change** Canadian Institute of Ukrainian Studies, 1988

**Alberta's North** Donald Grant Wetherell, Irene Kmet, Alberta. Alberta Community Development, Canadian Circumpolar Institute, 2000

**Christina Alberta's Father** Herbert George Wells, 1925 While Wells is primarily remembered for his science fiction, he also made excursions into history, social science, and commentary. This novel story tells how a retired laundry man suffered from delusions that he was the reincarnation of Sargon, King of Kings, returned to earth as Lord of the World.

**In the Promised Land of Alberta's North** Katherine Hughes, Alberta Records Publication Board, Merrily K. Aubrey, Ken Kaiser, Historical Society of Alberta, 2006

**Democracy in Alberta** Crawford Brough Macpherson, 2013-01-01 In addition to offering an original analysis of the party system and Alberta's political structures and institutions, *Democracy in Alberta* presents a fascinating micro-history of the social and economic characteristics of Alberta.

**Found in Alberta** Robert Boschman, Mario Trono, 2014-10-22 *Found in Alberta: Environmental Themes for the Anthropocene* is a collection of essays about the natural environment in a province rich in natural resources and aggressive in development goals. This is a casebook on Alberta from which emerges a far wider set of implications for North America and for the biosphere in general. The writers come from an array of disciplinary backgrounds within the environmental humanities. The essays examine the oil/tar sands, climate change, provincial government policy, food production, industry practices, legal frameworks, wilderness spaces, hunting, Indigenous perspectives, and nuclear power. Contributions from an ecocritical perspective provide insight into environmentally themed poetry, photography, and biography. Since the actions of Alberta's industries and government are currently at the heart of a global environmental debate, this collection is valuable to those wishing to understand the natural and commercial forces in play. The editors present an introductory argument that frames these interests inside a call for a rethinking of our assumptions about the natural world and our place within it.
