**A Functional Grammar of Gooniyandi** William B. McGregor, 1990-01-01 This volume sets out to provide a comprehensive description of the grammar of Gooniyandi, a non-Pama-Nyungan language of the southern-central Kimberley region of Western Australia. It covers phonetics and phonology, word phrase and clause structure, and the semantics of closed-class grammatical items. The major focus

is, however, on meaning: how do Gooniyandi speakers mean with and in their language. To this end, the theoretical framework of systemic functional grammar, particularly as elaborated in Halliday's recent work, is adopted. Certain refinements to the theory are proposed in order to better account for the Gooniyandi evidence. Of obvious importance to those studying Australian aboriginal languages, this work has an importance to a wider audience for its effective presentation of theory justification.

**A Guide to the Study and Use of Military History**

John E. Jessup, Robert W. Coakley, 1979 This Guide to the Study and Use of Military History is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study. It is not a work to be read and lightly tossed aside, but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past.
