Ask More Frank Sesno, 2017-01-11 What hidden skill links successful people in all walks of life? The answer is surprisingly simple: they know how to ask the right questions at the right time. Questions help us break down barriers, discover secrets, solve puzzles, and imagine new ways of doing things. The right question can provide for us not only the answer we need right then but also the ones we'll need tomorrow. Emmy award-winning journalist and media expert Frank Sesno wants to teach you how to question others in a methodical, intentional way so that you can find the same success that others have found by mastering this simple skill. In *Ask More*, you will learn: How the Gates Foundation used strategic questions to plan its battle against malaria How turnaround expert Steve Miller uses diagnostic questions to get to the heart of a company's problems How creative questions animated a couple of techie dreamers to brainstorm Uber How journalist Anderson Cooper uses confrontational questions to hold people accountable Throughout *Ask More*, you'll explore all different types of inquiries--from questions that cement relationships, to those that will help you plan for the future. By the end, you'll know what to ask and when, what you should listen for, and what you can expect as the outcome.

Ask Bradley Charbonneau,2020-10-29 We're often searching for answers but what if the answers were in the questions we ask? What if the big answers were in the questions we don't dare ask? There are two people we need to ask. Ready? It's scary, I know. 1. Yourself 2. Others You might think asking others is hard but the true hard stuff, the real stuff, the oh-man-here-we-go level of awesome sauce begins with asking yourself. Here, let's do a quick survey and see if you're ready. ASK yourself these questions: 1. Are you ready for the next phase of your life to begin? 2. Have you been waiting for someone to reach out their hand and invite you to take things to the next level? 3. Do you know what you want? 4. Do you know when you want to get started with what you want? 5. Do you like sour cream on your burrito? 6. Are you too shy to ask for help? 7. Do you believe other people would like to help you if you ask them for help? 8. Did you know people like helping other people more than they like helping themselves? (PRO TIP: see questions #6 and #7) 9. Are you envisioning a burrito? What if your quick answer to the extremely important question #5 were as easy as the usually-more-difficult question #7? What if you could get more comfortable asking yourself the big questions? What if you could practice asking others for help and you got to the point where they starting asking you if they could help you? In best-selling author Bradley Charbonneau's latest book ASK, you'll uncover your answers to the questions you might want to maybe be asking yourself--and others. In this book, you'll discover: - How to ask for help without begging--and even turning around the tables so people get in line to help you - Why you first might just maybe want to ask yourself what your focus is at this point in your life - When to not ask anyone but yourself the question you most want the answer to - What to ask yourself each and every morning and evening - How to dig deep into your subconscious mind to get around that pesky conscious self Get ASK ;today to answer the question of, What do I do next? ASK is book 3 in the Repossible Series and a vital step before moving along the roadmap. 1. Repossible: An introductory guide to the question, "Who will you be next?" 2. Every Single Day: a clear roadmap towards lasting transformation in you 3. Ask: if life is a multiple choice quiz, this is the answer 4. Dare: challenge yourself to truly answer the questions and rocket forward 5. Create: you're ready to get real about achieving your dream, here's what to do 6. Decide: there's a fork in the road, you'll now know what do to 7. Meditate: this is the source of our creativity, power, and direction 8. Spark: there's only one thing better than creating: helping someone else create 9. Surrender: you've done your part, it's time to be invited to the big stage 10. Play: we're through the woods, it's time to exhale, smile, and play the game 11. Celebrate: compare your own today to your own yesterday and revel in the progress 12. Evaluate: measure how far you've come, forecast how far you'll go 13. Elevate: now that we're at the top of the mountain, it's time to scale up

Finding Your Power to Be Happy: Seven Practices to Bring Unconditional Happiness into Your Life D.E. Hardesty,2015-04-25 Learn to find the happiness that is natural to you, and enjoy better relationships, better health, more success and a longer life. The peculiar thing about us humans is, we spend a lot of time working to find people and things that will make us happy. In fact, we seem to spend the majority of our time doing this. However, there is

no guarantee that any of this effort will work. There are lots of people who have hordes of people around them, and who have lots of things, but have been unable to make themselves happy. The truth is, happiness can be had with little effort. Have you ever been happy for no reason at all? Of course you have. Without anything changing in life, happiness just appears. We see it in young children all the time. In fact, we expect to see it in children. If you happen to ask a smiling child why he or she is so happy, at best the answer may be, "Because." For an adult this may be an unsatisfying answer, but for the child it is the truth -- happiness exists "just because." As we age we seem to lose touch with happiness-for-no-reason-at-all. We see a world where everyone is striving for stuff, striving for popularity, striving, striving, striving. The natural fount of happiness we once enjoyed disappears as we join them. However, that happiness is not gone. All that happened is we lost our connection to it. This book is about recovering that connection. We all grow up believing that if we work hard, and if we are good people, we will enjoy good relationships with others, good health, success and a long life. Obviously this is not true. There are a lot of rich old people who are not happy. What we have, what we do, and the other circumstances of our lives do not provide authentic happiness. Instead, happiness comes from inside of us, and all by itself enables us to have secure relationships, good health, more success and longer lives. So, what is the secret of being happy? Being happy is a little like flipping a switch. When it's on you are happy and when it's off you are not. It's so easy. How else can you explain being happy for no reason. What you need to do is learn to turn it on, and keep it turned on. This book discusses seven practices that help you do that. There is a lot of wisdom available about how to be happy. Most of it is thousands of years old, but some is quite new. The seven practices we will look at incorporate this wisdom to help you learn how to turn on happiness in your life. This kind of happiness does not require changing anything in your life. All you have to do is learn to turn it on.
