How to be a Happier Parent KJ Dell'Antonia,2020-06-02 An encouraging guide to helping parents find more happiness in their day-to-day family life, from the former lead editor of the New York Times' Motherlode blog. In all the writing and reporting KJ Dell'Antonia has done on families over the years, one topic keeps coming up again and again: parents crave a greater sense of happiness in their daily lives. In this optimistic, solution-packed book, KJ asks: How can we change our family life so that it is full of the joy we'd always hoped for? Drawing from the latest research and interviews with families, KJ discovers that it's possible to do more by doing less, and make our family life a refuge and pleasure, rather than another stress point in a hectic day. She focuses on nine common problem spots that cause parents the most grief, explores why they are hard, and offers small, doable, sometimes surprising steps you can take to make them better. Whether it's getting everyone out the door on time in the morning or making sure chores and homework get done without another battle, *How to Be a Happier Parent* shows that having a family isn't just about raising great kids and churning them out at destination: success. It's about experiencing joy--real joy, the kind you look back on, look forward to, and live for--along the way.

The Song of the Lark Willa Cather,1916 A novelist and short-story writer, Willa Cather is today widely regarded as one of the foremost American authors of the twentieth century. Particularly renowned for the memorable women she created for such works as *My Antonia* and *O Pioneers!*, she pens the portrait of another formidable character in *The Song of the Lark*. This, her third novel, traces the struggle of the woman as artist in an era when a woman's role was far more rigidly defined than it is today. The prototype for the main character as a child and adolescent was Cather herself, while a leading Wagnerian soprano at the Metropolitan Opera (Olive Fremstad) became the model for Thea Kronborg, the singer who defies the limitations placed on women of her time and social station to become an international opera star. A coming-of-age-novel, important for the issues of gender and class that it explores, *The Song of the Lark* is one of Cather's most popular and lyrical works. Book jacket.

My Antonia Willa Cather,2018-04-15 After the death of his parents, Jim is sent to live with his grandparents on the Nebraska plains. By chance on that same train is a bright-eyed girl, Antonia, who will become his neighbor and lifelong friend. Her family has emigrated from Bohemia to start a new life farming but soon lose their money and must work hard just to survive. Through it all, Antonia retains her natural pride and free spirit. Jim's grandparents have a large and tidy farm. They are kind to him, but conventional. Later Jim becomes a scholar and Antonia becomes a 'hired girl' in town. She blossoms in the new freedom that town life offers. Jim can only taste this life vicariously through her recounting of town gossip and of the 'dance tent'. Antonia's strong will, spirit, and honesty allow her to thrive in the midst of hardship. Cather paints a rich picture of life on the prairie at the beginning of the twentieth century and depicts some of the many cultures that came to comprise the United States.

A Walking Life Antonia Malchik,2019-05-07 For readers of *On Trails*, this is an incisive, utterly engaging exploration of walking: how it is fundamental to our being human, how we've designed it out of our lives, and how it is essential that we reembrace it. I'm going for a walk. How often has this phrase been uttered by someone with a heart full of anger or sorrow? Or as an invitation, a precursor to a declaration of love? Our species and its predecessors have been bipedal walkers for at least six million years; by now, we take this seemingly arbitrary motion for granted. Yet how many of us still really walk in our everyday lives? Driven by a combination of a car-centric culture and an insatiable thirst for productivity and efficiency, we're spending more time sedentary and alone than we ever have before. If bipedal walking is truly what makes our species human, as paleoanthropologists claim, what does it mean that we are designing walking right out of our lives? Antonia Malchik asks essential questions at the center of humanity's evolution and social structures: Who gets to walk, and where? How did we lose the right to walk, and what implications does that have for the strength of our communities, the future of democracy, and the pervasive loneliness of individual lives? The loss of walking as an individual and a community act has the potential to destroy our deepest spiritual connections, our democratic society, our neighborhoods, and our freedom. But we can change the course of our mobility. And we need to. Delving into a wealth of science, history, and anecdote -- from our deepest origins as hominins to our first steps as babies, to universal design and social infrastructure, *A Walking Life* shows exactly how walking is essential, how deeply reliant our brains and bodies are on this simple pedestrian act -- and how we can reclaim it.

My Antonia Willa Cather, 2024-01-02 A haunting tribute to the heroic pioneers who shaped the American Midwest This powerful novel by Willa Cather is considered to be one of her finest works and placed Cather in the forefront of women novelists. It tells the stories of several immigrant families who start new lives in America in rural Nebraska. This powerful tribute to the quiet heroism of those whose struggles and triumphs shaped the American Midwest highlights the role of women pioneers, in particular. Written in the style of a memoir penned by Antonia's tutor and friend, the book depicts one of the most memorable heroines in American literature, the spirited eldest daughter of a Czech immigrant family, whose calm, quiet strength and robust spirit helped her survive the hardships and loneliness of life on the Nebraska prairie. The two form an enduring bond and through his chronicle, we watch Antonia shape the land while dealing with poverty, treachery, and tragedy. "No romantic novel ever written in America...is one half so beautiful as My Antonia." -H. L. Mencken Willa Cather (1873–1947) was an American writer best known for her novels of the Plains and for *One of Ours*, a novel set in World War I, for which she was awarded the Pulitzer Prize in 1923. She was elected a fellow of the American Academy of Arts and Sciences in 1943 and received the gold medal for fiction from the National Institute of Arts and Letters in 1944, an award given once a decade for an author's total accomplishments. By the time of her death she had written twelve novels, five books of short stories, and a collection of poetry.

Three Decades of Engendering History Antonia Castañeda, 2014 For over three decades the work of Antonia I. Castañeda has shaped the fields of Western History and Chicana Studies. From her early articles on Chicana representation and political economy, to her most recent work mapping gendered violence and gendered resistance in the history of the U.S. Southwest, her work is consistently taught in classrooms and cited extensively. Yet Castañeda's work has been scattered throughout journals and anthologies, a paper chase for historians to track down. *Three Decades of Engendering History* ends the chase. This volume, edited by Linda Heidenreich, collects ten of Castañeda's best articles, including the widely circulated article *Engendering the History of Alta California, 1769-1848*, in which she took a direct and honest look at sex and gender relations in colonial California. Demonstrating that there is no romantic past to which we can turn, she exposed stories of violence against women, as well as stories of survival and resistance. Other articles included are the prize-winning *Women of Color and the Rewriting of Western History*, and two recent articles, *Lullabies y Canciones de Cuna* and *La Despedida*. The latter two represent Castañeda's most recent work excavating, mapping, and bringing forth the long and strong post-WWII history of Tejanas. Finally, the volume includes three interviews with Antonia Castañeda, conducted by Luz María Gordillo, that contribute the important narrative of her lived experiences, political perspective, her commitment to initiate and develop scholarship that highlights gender and Chicanas as a legitimate line of inquiry, and her drive to center Chicanas as historical subjects.

Identity, Diaspora and Return in American Literature Maria Antònia Oliver-Rotger, 2014-09-19 This volume combines literary analysis and theoretical approaches to mobility, diasporic identities and the construction of space to explore the different ways in which the notion of return shapes contemporary ethnic writing such as fiction, ethnography, memoir, and film. Through a wide variety of ethnic experiences ranging from the Transatlantic, Asian American, Latino/a and Caribbean alongside their corresponding forms of displacement - political exile, war trauma, and economic migration - the essays in this collection connect the intimate experience of the returning subject to multiple locations, historical experiences, inter-subjective relations, and cultural interactions. They challenge the idea of the narrative of return as a journey back to the untouched roots and home that the ethnic subject left behind. Their diacritical approach combines, on the one hand, a sensitivity to the context and structural elements of modern diaspora; and on the other, an analysis of the individual psychological

processes inherent to the experience of displacement and return such as nostalgia, memory and belonging. In the narratives of return analyzed in this volume, space and identity are never static or easily definable; rather, they are in-process and subject to change as they are always entangled in the historical and inter-subjective relations ensuing from displacement and mobility. This book will interest students and scholars who wish to further explore the role of American literature within current debates on globalization, migration, and ethnicity.
