Antiques Leon Rosenstein, 2011-11-15 The notion of retrieving a bit of the past-by owning a material piece of it-has always appealed to humans. Often our most prized possessions are those that have had a long history before they came into our hands. Part of the pleasure we gain from the encounter with antiques stems from the palpable age and the assumed (sometimes imaginary) cultural resonances of the particular object. But precisely what is it about these objects that creates this attraction? What common characteristics do they share and why and how do these traits affect us as they do? In *Antiques: The History of an Idea*, Leon Rosenstein, a distinguished philosopher who has also been an antiques dealer for more than twenty years, offers a sweeping and lively account of the origin and development of the antique as both a cultural concept and an aesthetic category. He shows that the appeal of antiques is multifaceted: it concerns their value as commodities, their age and historical and cultural associations, their uniqueness, their sensuous and tactile values, their beauty. Exploring how the idea of antiques evolved over time, Rosenstein chronicles the history of antique collecting and connoisseurship. He describes changing conceptions of the past in different epochs as evidenced by preservations, restorations, and renaissances; examines shifting attitudes toward foreign cultures as revealed in stylistic borrowings and the importation of artifacts; and investigates varying understandings of and meanings assigned to their traits and functions as historical objects. While relying on the past for his evidence, Rosenstein approaches antiques from an entirely original perspective, setting history within a philosophical framework. He begins by providing a working definition of antiques that distinguishes them from other artifacts in general and, more distinctly, both from works of fine art and from the collectible detritus of popular culture. He then establishes a novel set of criteria for determining when an artifact is an antique: ten traits that an object must possess in order to elicit the aesthetic response that is unique to antiques. Concluding with a provocative discussion of the relation between antiques and civilization, this engaging and thought-provoking book helps explain the enduring appeal of owning a piece of the past.

The Emergence of the Antique and Curiosity Dealer in Britain 1815-1850 Mark Westgarth, 2020-04-07 Rather than the customary focus on the activities of individual collectors, *The Emergence of the Antique and Curiosity Dealer in Britain 1815-1850: The Commodification of Historical Objects* illuminates the less-studied roles played by dealers in the nineteenth-century antique and curiosity markets. Set against the recent 'art market turn' in scholarly literature, this volume examines the role, activities, agency and influence of antique and curiosity dealers as they emerged in the opening decades of the nineteenth century. This study begins at the end of the Napoleonic Wars, when dealers began their wholesale importations of historical objects; it closes during the 1850s, after which the trade became increasingly specialised, reflecting the rise of historical museums such as the South Kensington Museum (V&A). Focusing on the archive of the early nineteenth-century London dealer John Coleman Isaac (c.1803-1887), as well as drawing on a wide range of other archival and contextual material, Mark Westgarth considers the emergence of the dealer in relation to a broad historical and cultural landscape. The emergence of the antique and curiosity dealer was part of the rapid economic, social, political and cultural change of early nineteenth-century Britain, centred around ideas of antiquarianism, the commercialisation of culture and a distinctive and evolving interest in historical objects. This book will be of interest to scholars in art history, histories of collecting, museum and heritage studies and nineteenth-century culture.

Antique Jewellery and Trinkets (Classic Reprint) Fred; W. Burgess,2015-07-21 Excerpt from Antique Jewellery and Trinkets The favourable reception accorded to the two first volumes of the Home Connoisseur Series - Antique Furniture and Old Pottery and Porcelain - assures me that there are many who will welcome this volume, which treats upon a subject which is interesting to every home connoisseur. There is a peculiar charm about the jewellery of former generations, those things men and women have treasured and worn, or fondly handled as having had personal touch with those who died long ago. Many of the curios displayed in drawing-room and in cabinets are relics of the prehistoric dead; objects which although not jewels as we understand them, were the ornaments they wore and the things they revered. There is a touch of sadness about the thought of rifling the tombs of past ages, and of looted palaces and homes destroyed; yet all these factors have contributed to the supply of antique jewellery and trinkets now treasured in the modern home. It is in the old jewel-box, however, that there are found the relics of more recent times, and many of the pieces of gold and silver jewellery, and flashing stones in their quaint settings, can be worn to-day - for now is the day of replicas and the reproduction of the antiques of all ages. Happy indeed are those who possess genuine antiques: Careful examination of museum exhibits, the varied assortment of antique jewels in dealers stocks, and those that have fallen under the hammer from time to time, has enabled me to gather much useful information about these curios so varied, the work of man in past ages and of almost every civilised nation in more recent times.
