Dictionary of Arabic and allied loanwords Frederico Corriente,2008-10-31 A survey of Arabic and allied loanwords in Western languages is a first-rate tool to assess the impact of Islamic factors in the emergence and background of Western civilization. The Romance languages of the Iberian Peninsula are in an ideal position for this kind of research, considering the length and strength of Muslim states on its soil.

El Cor'an (Arabic and Spanish): Arabic and Spanish Julio Cortes, 1996-05 One of the great masterpieces of world thought, a work of immense religious and literary value, the Qur'an, or Cor'an in the present version, is read and studied by Muslims, spiritual seekers, and students of religion, history, and Middle Eastern culture. Considered a direct message from Allah to humanity, transmitted through the Prophet Muhammad, it extends beyond spiritual concerns to social codes of conduct, scientific knowledge, political and legal wisdom, and even prophecies of future events. Julio Cortes's Spanish translation uses a thoughtful, sensitive style to bring to life both the poetry and the wisdom of this seminal work that has been, and remains, a guiding work in the lives of millions of people in many cultures, past and present.

Manual of Catalan Linguistics Joan A. Argenter, Jens Lüdtke, 2020-04-06 This manual is intended to fill a gap in the area of Romance studies. There is no introduction available so far that broadly covers the field of Catalan linguistics, neither in Catalan nor in any other language. The work deals with the language spoken in Catalonia and Andorra, the Balearic Islands, the region of Valencia, Northern Catalonia and the town of l'Alguer in Sardinia. Besides introducing the ideologies of language and nation and the history of Catalan linguistics, the manual is divided into separate parts embracing the description – grammar, lexicon, variation and varieties – and the history of the language since the early medieval period to the present day. It also covers its current social and political situation in the new local and global contexts. The main emphasis is placed on modern Catalan. The manual is designed as a companion for students of Catalan, while also introducing specialists of other languages into this field, in particular scholars of Romance languages.

The Oxford Handbook of Arab Novelistic Traditions Wail S. Hassan, 2017-08-01 The Oxford Handbook of Arab Novelistic Traditions is the most comprehensive treatment of the subject to date. In scope, the book encompasses the genesis of the Arabic novel in the second half of the nineteenth century and its development to the present in every Arabic-speaking country and in Arab immigrant destinations on six continents. Editor Wail S. Hassan and his contributors describe a novelistic phenomenon which has pre-modern roots, stretching centuries back within the Arabic cultural tradition, and branching outward geographically and linguistically to every Arab country and to Arab writing in many languages around the world. The first of three innovative dimensions of this Handbook consists of examining the ways in which the Arabic novel emerged out of a syncretic merger between Arabic and European forms and techniques, rather than being a simple importation of the latter and rejection of the former, as early critics of the Arabic novel claimed. The second involves mapping the novel geographically as it took root in every Arab country, developing into often distinct though overlapping and interconnected local traditions. Finally, the Handbook concerns the multilingual character of the novel in the Arab world and by Arab immigrants and their descendants around the world, both in Arabic and in at least a dozen other languages. The Oxford Handbook of Arab Novelistic Traditions reflects the current status of research in the broad field of Arab novelistic traditions and signals toward new directions of inquiry.

Reviving Catalan at School Joaquim Arnau, 2013-09-05 This book presents a comprehensive picture of languages and schools in Catalan-speaking countries, making much of the information available in English for the first time. The chapters examine multiple aspects of the language situation in these countries, including: the recovery of Catalan in schools; the position and status of the majority languages (English and Spanish); language-in-education policies in a multilingual, multicultural context; the possibility of multilingual competence; and the successes and failures of instructional processes.

A History of the Spanish Lexicon Steven N. Dworkin, 2012-06-07 This history of the Spanish lexicon is written from the interacting perspectives of linguistic and cultural change and in the light of advances in the study of language contact and lexical change. The author describes the language inherited from spoken Latin in the Iberian Peninsula during six centuries of Roman occupation and examines the degree to which it imported words from the languages - of which only Basque survives - of pre-Roman Spain. He then shows how Germanic words were imported either indirectly through Latin or Old French or directly by contact with the Visigoths. He describes the importation of Arabisms following the eighth-century Arab conquest of Spain, distinguishing those documented in medieval sources from those adopted for everyday use, many of which survive in modern Spanish. He considers the influence of Old French and Old Provençal and identifies late direct and indirect borrowings from Latin, including the Italian elements taken up during the Renaissance. After outlining minor influences from languages such as Flemish, Portuguese, and Catalan, Professor Dworkin examines the effects on the lexicon of contact between Spanish and the indigenous languages of South and Central America, and the impact of contact with English. The book is aimed at advanced students and scholars of Spanish linguistics and will interest specialists in Hispanic literary and cultural studies.

Medieval Iberia E. Michael Gerli, Samuel G. Armistead, 2003 Also providing in-depth discussions of the rich contributions of Muslim and Jewish cultures, and offering useful insights into their interactions with Catholic Spain, this comprehensive work is an invaluable tool for students, scholars, and general readers alike.--B00K JACKET.

The different aspects of islamic culture Ahmad, Maqbul, Al-Hassan, Ahmad Youssef, Iskandar, Albert Z., UNESCO, 2002-12-31 Research into Islamic science and technology is still in its early stages, but there is now sufficient material available for a preliminary study. Volume IV is intended to fill a gap which deserves a major multi-volume work. Part I is a review of the history of science in Islam. It deals with the contribution of Islamic civilization to mathematics, astronomy, and physics, which have long been acknowledged, but also advances made by Muslim scientists in the fields of cosmology, geology and mineralogy, zoology, veterinary science and botany.

Negotiating Cultures Robert Ignatius Burns, Paul Edward Chevedden, 1999 Recently recovered Arabic-Latinate interlinear treaties, between James the Conqueror of Arago-

Catalonia and the Muslims of Mediterranean Spain, illumine that hard-fought crusade (1225-1276), its many Islamic and European contexts, and the radically opposed mentalities involved.
