A to Z of Arabic - English - Arabic Translation Ronak Husni, Daniel L. Newman, 2013-05-20 The A to Z highlights common pitfalls faced by translators working on both Arabic-English and English-Arabic texts. Each translation problem is carefully contextualized and illustrated with examples drawn from contemporary literature and the media. Using a comparative analysis approach, the authors discuss grammatical, lexical and semantic translation issues, and offer guidance regarding correct and idiomatic usage. A much-needed addition to the field for university-level students of translation and professional translators alike, the A to Z has been designed with a view to

- developing and honing skills in translating between Arabic and English
- enhancing idiomatic expression in both languages;
- raising awareness of problems specific to Arabic-English and English-Arabic translation;
- increasing competency by providing appropriate strategies for effective translation.

Alphabetic arrangement of the entries ensures ease of use as both a manual and a reference work. As such, the A to Z is eminently suited for both independent and classroom use..

Translating Tenses in Arabic-English and English-Arabic Contexts Hassan Abdel-Shafik Hassan Gadalla,2017-05-11 This volume is devoted to the translation of Arabic tenses into English, and English tenses into Arabic. Using a corpus of 1,605 examples, it is remarkably exhaustive in its treatment of the categories and forms of both Standard Arabic and English tenses. As such, it represents a useful reference for translators and linguistics researchers. With 260 example sentences and their translations, the book will be very beneficial to teachers and students of Arabic-English and English-Arabic translation. The book is divided into eight chapters. The first presents the variety of Arabic that will be studied and explains why translation should be a text-oriented process. Chapter Two deals with the differences between tense and aspect in Arabic and English, respectively. Chapter Three proposes a model for translating Standard Arabic perfect verbs into English based on their contextual references. The fourth chapter shows the contextual clues that can assist a translator in selecting the proper English equivalents of Arabic imperfect verbs. Chapter Five deals with the translation of Arabic active participles into English. Translating Arabic passive participles into English is handled in Chapter Six. The seventh chapter tackles the translation of English simple and progressive tenses into Arabic. Chapter Eight provides an approach to the translation of English perfect and perfect progressive tenses into Standard Arabic.

Lingualism Arabic Learner's Dictionary Matthew Aldrich,2013-12-20 Specifically designed for learners of Modern Standard Arabic, the Lingualism Arabic Learner's Dictionary presents the language as it is actually used by Arabs today. The dictionary includes recent additions to Modern Standard Arabic, as well as foreign borrowings. The vocabulary covered in the dictionary has been

taken from a variety of sources to include words and phrases likely to appear in learners' course books, as well as modern literature and the media, for a total of over 17,000 Arabic words and phrases. One of the significant advantages of this dictionary is its user-friendliness. Although entries are arranged according to their roots, which can prove challenging for learners, various aids and strategies are presented to assist in finding the sought entry efficiently, including an alphabetical index of hard-to-find roots and a table on the back cover to assist in pinpointing a root's page number quickly. A wealth of information related to the headword is included: plural and elative forms, conjugations, grammatical structures, compound nouns, common phrases, idioms, and proverbs, as well as example sentences when required to make the usage or meaning clear. Dozens of photos illustrate cultural and religious concepts. The dictionary also contains geographical information, including maps for each Arabic-speaking country, as well as entries for most countries, their capitals, and large cities throughout the world. Verb entries contain table references, which can be found in the dictionary's companion book *Modern Standard Arabic Verbs Conjugation Tables*.
