Here We Are Oliver Jeffers, 2017-11-14 #1 New York Times bestseller A TIME Magazine Best Book of the Year A NPR Best Book of 2017 A Boston Globe Best Book of 2017 Moments of human intimacy jostle with scenes that inspire cosmic awe, and the broad diversity of Jeffers's candy-colored humans...underscores the twin messages that 'You're never alone on Earth' and that we're all in this together.--Publisher's Weekly (starred review) A true work of art.--BuzzFeed Oliver Jeffers, arguably the most influential creator of picture books today, offers a rare personal look inside his own hopes and wishes for his child--and in doing so gifts children and parents everywhere with a gently sweet and humorous missive about our world and those who call it home. Insightfully sweet, with a gentle humor and poignancy, here is Oliver Jeffers' user's guide to life on Earth. He created it specially for his son, yet with a universality that embraces all children and their parents. Be it a complex view of our planet's terrain (bumpy, sharp, wet), a deep look at our place in space (it's big), or a guide to all of humanity (don't be fooled, we are all people), Oliver's signature wit and humor combine with a value system of kindness and tolerance to create a must-have book for parents. Praise for Here We Are: -A sweet and tender distillation of what every Earthling needs to know and might well spend a lifetime striving to achieve. A must-purchase for new parent shelves--School Library Journal -From the skies to the animal kingdom to the people of the world and lots of other beautifully rendered examples of life on Earth, Here We Are carries a simple message: Be kind. --NPR -[An] enchanting gem of a children's book--NBC's Today Show -A must-have book for parents.--Gambit -A celebration of people all shapes and sizes, and of the beauty and mystery of our Earth.--Booklista beautifully illustrated guide to living on Earth and being a good person.--Brightly - [Here We Are] is a tour through the land, the sea, the sky, our bodies; dioramas of our wild diversity....[Jeffers] is the master of capturing the joy in our differences.--New York Times Book Review

Whoever You Are Mem Fox, 2007 Despite the differences between children around the world, there are similarities that join us together, such as pain, joy, and love. Inside they are the same.

Strange World: Why People Are Getting Weirder Mark Romel, This is a very strange world, and getting stranger all the time. Actually, it's not the world that's getting stranger, it's people. Their minds are full of the most bizarre ideas. People's beliefs are becoming weirder and weirder by the day. Everyone believes their own propaganda. No one accepts the Truth. Everyone makes up their own truth, based on their own opinions, beliefs, experiences and feelings. It's illiberal - politically incorrect - to tell people they are wrong. It flies in the face of multiculturalism. It seems authoritarian and fascist. It seems to contradict free speech since if you tell people they are wrong, you are implying you want them to stop speaking. And so you do. As Pythagoras said, Be silent, or say something better than silence. Don't expect any cure. All the indicators are pointing downwards. Things will get a hell of a lot worse. The strangeness has barely begun.

We are Everywhere Notes from Nowhere (Organization),2003 We Are Everywhere is a whirlwind collection of writings, images and ideas for direct action by people on the frontlines of the global anticapitalist movement. This is a movement of untold stories, because those from below are not those who get to write history, even though we are the ones making it. We Are Everywhere wrenches our history from the grasp of the powerful and returns it to the streets, fields and neighbourhoods where it was made.

You Are What You Say Matthew Budd, M.D., Larry Rothstein, Patch Adams, MD, 2001-08-14 Why are you sick? This question, posed in compassion by his grandmother Minnie after a childhood incident plunged him into illness, stayed with Dr. Matthew Budd throughout his lifetime in medicine. As a teacher and physician at Harvard for more than thirty years, he repeatedly asked his patients this question. He found, remarkably, that it often unlocked memories, secrets, anger, resentments, and fears that had played crucial roles in their illnesses. As he encouraged his patients to reflect on their lives and habitual behavior, they often shifted from being trapped in suffering to designing a life of wellness and profound personal change for themselves, no matter what their circumstances. Their experiences led Dr. Budd to develop the Ways to Wellness program, a nationally acclaimed workshop offered by numerous HMOs. In *You Are What You Say*, Dr. Budd presents the principles of this powerful, scientifically validated program that weaves ancient and modern insights into human behavior, neurophysiology, language, and spirituality. One of these fundamental principles is that you are what you say -- your words play a major role in determining, not just reflecting, your health and well-being. He explains how the body learns many of its reactions, consciously and unconsciously, through language. By following the principles in this book, you'll learn about the Ten Linguistic Viruses that damage health and how to combat the ravages of anger, perfectionism, depression, and anxiety by changing the script of what you say to yourself and to others.

On *The Biggest Loser*, Bob Harper gives contestants the practical tools and psychological insights they need to get into the best shape of their lives. The key to his success is the emotional connection he makes with each participant, and he brings that same spirit to *Are You Ready!* Harper starts with a four-step strategy for getting at the root of negative thought patterns and destructive behaviors, replacing both with a clear way to build self-worth and confidence. With these tools in place, people are empowered to

Redbuds Are Not Red Carol Ison, 2021-11-07 The redbud tree that is so prominent in the landscape of eastern Kentucky during the early spring when they are profusely blooming is something that "draws" people back to the mountains. "I want to come back when the redbuds are blooming" is a common refrain from many folks who want to come back home or a stranger who wants to just come and experience the beauty of the mountains. Yet the redbuds are not red; they are a deep pink, and neither are all of the natives of the Appalachian Mountains and the hills of eastern Kentucky lazy, illiterate, apathetic, drug addicts, and generally low-class citizens. But still this region is identified as being a society made up of these individuals. *Redbuds Are Not Red* is written to illustrate that just as the tree is known for its "red" name, there is a misconception about it. The same is true of the people who are perceived in a negative sense, and this story attempts to describe a region that has good people, respectable and honest people, who need to be seen through a different perspective. It is written to illustrate that despite the poverty, deprivation, and lack of many needed resources, there is a way of life here that is good, decent, and deserving of the same respect and acknowledgment as any other segment of this great nation. People can come out of these hardships and rise to positions of productivity, respectability, and prominence.
