Ad Astra Jack Campbell, 2013-02-12 From the author of the New York Times–bestselling *Lost Fleet* series comes 11 action-packed stories of space exploration. In Jack Campbell's *Lost Fleet* series, Campbell's hero Captain "Black Jack" Geary explores the furthest reaches of space. Here, Campbell explores what kinds of problems mankind might face as our horizons expand. The third in a series of collections of Campbell's short stories includes some of Campbell's favorite stories, and some of his earliest. A brand-new author's note accompanies each story. "Lady Be Good" is one of Campbell's most popular stories, winner of *Analog* magazine's "AnLab" reader poll for Best Short Story and cited in Gardner Dozois's Year's Best SF. The *Lady Be Good* is an old ship, running obscure routes (not all on the right side of the law), with her loyal first officer Kilcannon and reclusive captain. When Kilcannon decides to rescue the survivors of an attack on a Vestral Company ship, a mysterious new passenger thanks him by asking difficult questions about the *Lady*, with unexpected answers. In "Kyrie Eleison," the *Verio* shipwrecked centuries ago on an out-of-the-way planet, and the descendants of the ship's survivors have gotten along as well as they can by following the orders that were passed on to them. But those orders weren't intended to govern life on the planet's surface, and when the *Bellegrange* arrives on a rescue mission, her captain will have to reckon with the unexpected social order on the planet. In "Do No Harm", a ship is so technologically advanced that it can repair itself—but turning over the keys might not be the best idea. And in "Down the Rabbit Hole," a series of failed attempts at faster-than-light travel lead to a novel approach: sending an untested Naval captain out in a space ship to see if he can figure out what's gone wrong. With

eleven stories in all, *Ad Astra* is the most multi-faceted introduction to the short fiction of Jack Campbell, and an essential complement to his bestselling book-length work.

High Above Chris Forrester, 2011-08-28 Frequently it is suggested that the 'golden age' of television was during the period 1950-1960. It is true that television almost ruined Hollywood's fortunes during this period. But if this was the authentic golden age, then it was an age of black and white, somewhat limited creativity, poor reception, lack of competition (except in the United States) and – by and large – public service broadcasting. However, if we take 1950 as a generic 'starting point' for modern television broadcasting, then we talk about a kind of prehistoric stage of the medium – in which it remained for the best part of three decades. The younger days of broadcasting were the 1980s; the time when commercial television started on a large scale and, in this youth, was getting younger in terms of programming. Luxembourg-based SES Astra appeared on the scene at exactly this time. Astra was instrumental in the dramatic developments in television that we have witnessed since then. This is the story we want to tell in this book. Without satellite technology and the success of satellite reception, without the resulting mass-market penetration of television sets and general economic prosperity we would not have the necessary base ingredients to make the great leap forward into digital, into HDTV, 3D-television, and the prospects of Ultra High Definition now in sight.

Astra Cedar Bowers, 2023-07-04 What if you could see yourself as others see you? *Astra* is a beguiling debut novel that reveals the different faces of one woman, as seen through the eyes of ten people over a lifetime. Longlisted for the Scotiabank Giller Prize, shortlisted for the Ethel Wilson Fiction Prize, and named a Best Book of the

Year by the Globe and Mail, Winnipeg Free Press, and CBC Books. Born and raised on a remote British Columbia commune, Astra Brine has long struggled to find her way in the world, her life becoming a study of the thin line between dependence and love, need and desire. Over the years, as her path intersects with others—sometimes briefly, but always intensely—she will encounter people who, by turns, want to rescue, control, become, and escape her, revealing difficult yet shining truths about who they are and what they yearn for. There is the childhood playmate who comes to fear Astra's unpredictable ways. The stranger who rescues her from homelessness, and then has to wrestle with his own demons. The mother who hires Astra as a live-in nanny even as her own marriage goes off the rails. The man who takes a leap of faith and marries her. Even as Astra herself remains the elusive yet compelling axis around which these narratives turn, her story reminds us of the profound impact that a woman can have on those around her, and the power struggles at play in all our relationships, no matter how intimate. A beautifully constructed and revelatory novel, Astra explores what we're willing to give and receive from others, and how well we ever really know the people we love the most.

Astra Magazine, Filth Nadja Spiegelman, 2022-11-22 Astra Magazine is the new literary magazine of the moment, a must-read for anyone interested in the most vital contemporary literature from around the world. Astra Magazine connects readers and writers from New York to Mexico City, Lagos to Berlin, Copenhagen to Singapore and beyond. Each issue contains prose, poetry, art and comics, artfully produced on silky smooth paper with luxurious French flaps. It is both what we have been taught to hide, and the subversive pleasure in revealing it. Many of the writers in this issue are queer or trans or otherwise outsiders. When you are taught that an intrinsic part of you is shameful, you find power in that shame. All that filth, compressed by the pressure, sparkles like diamonds when it is let into the light. Have you ever felt the relief of telling your own secrets? There's a reason why people revel in their own filth. It's a place for reveling

Astra Naomi Foyle,2014-02-06 Is-land is a Gaian paradise in the middle of a blasted world - but its success comes at a dark price. Like every child in Is-Land, all Astra Ordott has ever wanted is to get her Security Shot, do her National Service and defend her Gaian homeland from Non-Lander 'infiltrators'. But when one of her Shelter mothers, the formidable Dr Hokma Blessner, tells her the shot will limit her chances of becoming a scientist and offers her an alternative, Astra agrees to her plan. Then the orphaned Lil arrives to share Astra's home and Astra is torn between jealousy and fascination. Lil's father taught her some alarming ideas about Is-Land and the world, but when she pushes Astra too far, the heartache that results goes far beyond the loss of a friend. If she is to survive, Astra must learn to deal with devastating truths about Is-Land, Non-Land and the secret web of adult relationships that surrounds her . . . or her actions could bring the whole community toppling down.

Astra Chris Platt,2014-08-19 Riding Astra makes Lily feel closer to her mom—even if Lily’s dad blames horses for her mother’s death At thirteen, Lily O’Neil dreams of riding Arabian endurance horses in

the Sierra Nevada foothills like her mom once did—before her fatal accident. Now, Lily’s father has forbidden her from going near horses ever again—he’s even sold her beloved pony, Domino. But Grams understands that horses are Lily’s life, just like they were for her mom. Astra Atomica is Lily’s favorite, a graceful gray Arabian mare with the potential to become a great champion. Lily’s mom saw it too—she rode the spirited animal to several victories—and Lily knows that the freak accident wasn’t Astra’s fault any more than it was her mother’s. Lily’s secret dream is to ride Astra all the way to the Tevin Cup, like her mother had planned to do. If only she can make her father see how much her bond with Astra means to her, and how much riding meant to her mother.

Ad Astra Kevin McLaughlin,2018-10-03 Dan Wynn wanted to explore space more than life itself, but a tragic accident left him too injured for NASA's space program. Second chances don't come along every day, so when an old friend offered him one, he grabbed on with both hands. The next thing Dan knew, he was on the moon, piloting humanity's first starship while fighting his way through one peril after another. Little did Dan know that simple offer was anything but, and would lead him to the stars far beyond our own. The risks are great. But if life knocked you down, what would you gamble to have one more shot at your dreams? Excerpt: Dan - ad astra! Dan heard the order. Ad astra. To the stars. It was a toast the two of them had shared back in college, when they first stepped onto the roads which would lead them into space. It had been John's idea to use

the toast as a code word now. Dan didn't even take a deep breath before executing the order. He'd practiced this with Majel enough times in the simulator - not the part about having a gunman in the bridge, but if that order was ever given, it would be a true crisis. He checked the screen again. Visual range in only fifteen seconds. No time for anything else. He rapidly initiated the program, said a quick prayer, and pressed the Enter button on his keyboard. Immediately, the ship began to shudder. This book is a heavily revised second edition of the original volume. The story length has been increased by about 60%, adding enormously more background to the characters and deepening of the personality of the world and crew. If you've already read the first edition, you won't need to read this version to catch up - but fans of the series are sure to enjoy this expanded and improved Author's Preferred Edition!

Star Darlings: Astra's Mixed-Up Mission Ahmet Zappa,Shana Muldoon Zappa,2016-04-05 Astra is the next Star Darling to go on a mission to Wishworld where she meets a young girl named Emma and figures out that Emma's wish is to make her father proud of her.

The problem is that Astra's plan to make Emma's wish come true is ill conceived. Emma's dad is the coach of the school gymnastics team and Astra mistakenly assumes that Emma wants to make him proud by helping the team win the meet. Astra is so focused on her goal that she doesn't see all the signs that she is on the wrong track. While Emma is certainly talented at gymnastics, she feels forced into competing and does not enjoy it. Instead she is a talented artist who wants her father to be proud of her artistic ability. With time running out, Astra's fellow Star Darlings must come down to help make Emma's wish come true.

AD ASTRA PER ASPERA HENRY WESTWOOD,2011-05-05

AD ASTRA PER ASPERA. The second book of the Hoille/Nuttall trilogy . Lord Pennywort was having to question his loyalties; to his alien friends whom he had served since his abduction in 1666, or to his new friends Vicky and Trevor who he greatly admired. Could he work with both to find a way forward and help the Earth find a new stability? The Earth was in turmoil following the ravages of plague; the population was decimated; utilities greatly diminished, and looting and riots were frequent. Vicky and Trevor were hoping that Lord Pennywort, with his powers, would work with the nations left to bring back some stability, but would this all be too much opening the way for the Sirusians to move to Earth? Would it end Trevor and Vicky's hopes of going, Ad Astra, to the stars. This book is not just science fiction, it has love and romance, wickedness and murder, warmth and laughter and a good sprinkling of suspense. It will make the reader sit up and take notice; it is close to the truth!

Takedown Farah Nayeri, 2022-01-25 Farah Nayeri addresses the difficult questions plaguing the art world, from the bad habits of Old Masters, to the current grappling with identity politics. For centuries, art censorship has been a top-down phenomenon--kings, popes, and one-party states decided what was considered obscene, blasphemous, or politically deviant in art. Today, censorship can also happen from the bottom-up, thanks to calls to action from organizers and social media campaigns. Artists and artworks are routinely taken to task for their insensitivity. In this new world order, artists, critics, philanthropists, galleries and museums alike are recalibrating their efforts to increase the visibility of marginalized voices and respond to the people's demands for better ethics in art. But what should we, the people, do with this newfound power? With exclusive interviews with Nan Goldin, Sam Durant, Faith Ringgold, and others, Nayeri tackles wide-ranging issues including sex, religion, gender, ethics, animal rights, and race. By asking and answering questions such as: Who gets to make art and who owns it? How do we correct the inequities of the past? What does authenticity, exploitation, and appropriation mean in art?, *Takedown* provides the necessary tools to navigate the art world.
