Music in Cultures in Contact Margaret J. Kartomi, Stephen Blum, 2014-07-16 Contact between cultures may also lead to rejection as well as suppression of certain types of music. The roots of Bach's art Albert Schweitzer, 1923

Bach in Berlin Celia Applegate, 2014-10-03 Bach's St. Matthew Passion is universally acknowledged to be one of the world's supreme musical masterpieces, yet in the years after Bach's death it was forgotten by all but a small number of his pupils and admirers. The public rediscovered it in 1829, when Felix Mendelssohn conducted the work before a glittering audience of Berlin artists and intellectuals, Prussian royals, and civic notables. The concert soon became the stuff of legend, sparking a revival of interest in and performance of Bach that has continued to this day. Mendelssohn's performance gave rise to the notion that recovering and performing Bach's music was somehow national work. In 1865 Wagner would claim that Bach embodied the history of the German spirit's inmost life. That the man most responsible for the revival of a masterwork of German Protestant culture was himself a converted Jew struck contemporaries as less remarkable than it does us today—a statement that embraces both the great achievements and the disasters of 150 years of

German history. In this book, Celia Applegate asks why this particular performance crystallized the hitherto inchoate notion that music was central to Germans' collective identity. She begins with a wonderfully readable reconstruction of the performance itself and then moves back in time to pull apart the various cultural strands that would come together that afternoon in the Singakademie. The author investigates the role played by intellectuals, journalists, and amateur musicians (she is one herself) in developing the notion that Germans were the people of music. Applegate assesses the impact on music's cultural place of the renewal of German Protestantism, historicism, the mania for collecting and restoring, and romanticism. In her conclusion, she looks at the subsequent careers of her protagonists and the lasting reverberations of the 1829 performance itself.

Bach's Choral Music Gordon Jones, 2009 Johann Sebastian Bach produced a remarkable body of works for chorus. He wrote hundreds of cantatas and many other pieces for choir, including motets, oratorios, passions, and liturgical works in Latin. One of these, the celebrated Mass in B Minor, is considered by many to be the crowning glory not merely of Bach's career but of all music ever written.

Between War and the State Van Nguyen-Marshall,2023-07-15 In *Between War and the State*, Van Nguyen-Marshall examines an array of voluntary activities, including mutual-help, professional, charitable, community development, student, women's, and rights organizations active in South Vietnam from 1954 to 1975. By bringing focus to the public lives of South Vietnamese people, *Between War and the State* challenges persistent stereotypes of South Vietnam as a place without society or agency. Such robust associational life underscores how an active civil society survived despite difficulties imposed by the war, government restrictions, economic hardship, and external political forces. These competing political forces, which included the United States, Western aid agencies, and Vietnamese communist agents, created a highly competitive arena wherein the South Vietnamese state did not have a monopoly on persuasive or coercive power. To maintain its influence, the state sometimes needed to accommodate groups and limit its use of violence. Civil society

participants in South Vietnam leveraged their social connections, made alliances, appealed to the domestic and international public, and used street protests to voice their concerns, secure their interests, and carry out their activities.
