The Baby Book William Sears, Martha Sears, 1993-01 The baby bible of the post-Dr. Spock generation, already embraced by hundreds of thousands of American parents, has now been revised, expanded, and brought thoroughly up-to-date -- with the latest information on everything from diapering to day care, from midwifery to hospital birthing rooms, from postpartum nutrition to infant development. Dr. Bill and Martha Sears draw from their vast experience both as medical professionals and as the parents of eight children to provide comprehensive information on virtually every aspect of infant care. Working for the first time with their sons Dr. Bob and Dr. Jim, both pediatric specialists in their own right, the Seares have produced a completely updated guide that is unrivaled in its scope and authority. The Baby Book focuses on the essential needs of babies -- eating, sleeping, development, health, and comfort -- as it addresses the questions of greatest concern to today's parents. The Baby Book presents a practical, contemporary approach to parenting that reflects the way we live today. The Seares acknowledge that there is no one way to parent a baby, and they offer the basic guidance and inspiration you need to develop the parenting style that best suits you and your child. The Baby Book is a rich and invaluable resource that will help you get the most out of parenting -- for your child, for yourself, and for your entire family. Book jacket.

What Makes a Baby Cory Silverberg,2013-05-07 Geared to readers from preschool to age eight, What Makes a Baby is a book for every kind of family and every kind of kid. It is a twenty-first century children's picture book about conception, gestation, and birth, which reflects the reality of our modern time by being inclusive of all kinds of kids, adults, and families, regardless of how many people were involved, their orientation, gender and other identity, or family composition. Just as important, the story doesn't gender people or body parts, so most parents and families will find that it leaves room for them to educate their child without having to erase their own experience. Written by a certified sexuality educator, Cory Silverberg, and illustrated by award-winning Canadian artist Fiona Smyth, What Makes a Baby is as fun to look at as it is useful to read.

Firefly Books is proud to offer this sentimental favorite in a variety of editions and sizes: We offer a trade paper and laminated hardcover edition in a 8 x 8 size. In gift editions we carry: a slipcased edition (8 1/2 x 8 1/4), with a laminated box and a cloth binding on the book and a 10 x 10 laminated hardcover with jacket. Get Published Infinite Ideas, 2010-10-01 It has never been easy for new authors to find a publisher but in the last few years it has become significantly harder. In 2008, the average author earned less than £7000 per annum. According to The Times approximately 200,000 books were available for sale in the UK in 2007. Of that total, 190,000 titles sold fewer than 3,500 copies. The top 5% of titles by sales volume accounted for over 60% of total book sales. No wonder publishers are careful about signing new writers. But there is good news in amongst all the doom and gloom. Right now, it has never been easier to be published. Everyone who posts something on Facebook is in effect a published author. And some blogs are read by tens of thousands of people daily, many more than might pick up a physical book by the same author. Then there's self-publishing, vanity publishing, print on demand and so on. But how do you find your way round

this minefield? Get published has been written by publishing insiders to help new authors understand the way publishers think and set about publishing if they can't get a commercial publisher interested.

You and Your Baby Frances Thomson-Salo,2019-07-11 This volume is to help parents understand what their baby is likely to be feeling in the first year. It describes how the baby's sense of self develops, with intentionality, empathy and recognition of the self. It focuses on the baby's subjective experience of the world, viewing the baby as a subject in his or her own right, and in this way makes a unique contribution in the area of understanding the early non-verbal experiences of infants. Each of the authors featured has published papers and books for the academic and clinical communities; the present volumes, however, are specifically aimed at parents. The intent is not to convince but to inform the reader. Rather than offering solutions, we are describing, explaining and discussing the problems that parents meet while bringing up their children, from infancy through to adulthood.
