Mental Health Care for People of Diverse Backgrounds Julia D. Buckner, Yezzenya Castro, Norman Ellis, 2018-04-19 Mental health care needs vary in different groups of people, but many healthcare professionals have a poor understanding of exactly how. From ethnicity to sexuality, family to religion, *Mental Health Care for People of Diverse Backgrounds* is a unique examination of how cultures can, and should, influence psychological services. It presents both theoretical and practical information regarding assessment, diagnosis and treatment. Concentrating on empirically based treatments, the book fuses clinical experience and research to give a wide-ranging overview. It also features many illuminating case studies. It is an invaluable reference for all mental healthcare professionals including psychologists, psychiatrists, doctors, social workers, nurses and counsellors, as well as students and academics with an interest in mental healthcare. The information contained in these chapters is intended for individuals with many levels of clinical training and is therefore appropriate for trainees in psychology and psychiatry, as well as experienced mental health providers. The chapters in this book contain information relevant to assessment, diagnosis, and treatment of individuals from diverse populations. - Julia D Buckner, Yezzenya Castro, Jill M Holm-Denoma and Thomas E Joiner Jr.

Family Background and University Success Claire Crawford, Lorraine Dearden, John Micklewright, Anna Vignoles, 2016-11-03 Why do fewer teenagers in England from disadvantaged backgrounds go to university than young people from better-off families? Once at university, how well do poorer students fare compared with other students - who drops out from university and who gets the best degrees? After university - who secures better jobs and higher pay? What really has been the impact on university entry of the controversial increases in tuition fees in 2006 and 2012, especially for students from poorer families? Is there no alternative to charging for university places and what do other countries do? What should governments, universities, and schools do to reduce the gaps in university entry and success by family background? And what advice can be given to families and young people themselves deciding between the costs and benefits of university? This book answers these questions using the latest available evidence, drawing on a wealth of data from administrative records of the school and university system and sample surveys of young people and their families. The authors' analysis of the situation in England is set against a background of evidence for other countries. The book provides much needed dispassionate analysis of issues that are at the forefront of both public policy and popular debate on higher education around the world today.

Italian Backgrounds Edith Wharton, 1905 In *Italian Backgrounds*, Wharton hikes Volterra, sails to Isola Bella, Lago Maggiore to take in an incredible baroque water theatre and visits the convent of Saint Paul in

Parma to see Correggio's frescoes. Her descriptions are so detailed, informed and analytical that her appreciation of Italian culture, history and art are evident. Also evident is her desire to educate her readers as to the importance of such details to travelers. Wharton includes readers in her travel dilemmas: should she continue to travel in the Swiss Alps or to go to the cities where there is art and architecture? She describes the geography she sees in terms of painter's landscapes. She sees a meadow as a perfect place for one of Bonifazio's sumptuous picnics while one drive looks out on a pastoral of Giorgione's. She provides a historical, spiritual and artistic view of hermits and their hermitages. Some of the sights Wharton took in no longer exist, at least as they were when she visited. The Farnesse Theatre was bombed during WWII. Its present restoration does not do the original justice, even though it was in disrepair when Wharton saw it. Wharton's tours of Italy, taken almost yearly during the span of her marriage, probably contributed to her creation of *The Decoration of Houses* with architect Ogden Codman, as she dedicates a whole chapter to the pleasing qualities of the Baroque architectural style. Many traditional Baroque elements were a critical part of the curriculum of the École des Beaux-Arts. The Beaux-Arts style was the emphasis Codman was known to place on his interior designs and decors.
