How to Be Black Baratunde Thurston, 2012-01-31 New York Times Bestseller Baratunde Thurston's comedic memoir chronicles his coming-of-blackness and offers practical advice on everything from "How to Be the Black Friend" to "How to Be the (Next) Black President". Have you ever been called "too black" or "not black enough"? Have you ever befriended or worked with a black person? Have you ever heard of black people? If you answered yes to any of these questions, this book is for you. It is also for anyone who can read, possesses intelligence, loves to laugh, and has ever felt a distance between who they know themselves to be and what the world expects. Raised by a pro-black, Pan-African single mother during the crack years of 1980s Washington, DC, and educated at Sidwell Friends School and Harvard University, Baratunde Thurston has more than over thirty years' experience being black. Now, through stories of his politically inspired Nigerian name, the heroics of his hippie mother, the murder of his drug-abusing father, and other revelatory black details, he shares with readers of all colors his wisdom and expertise in how to be black. "As a black woman, this book helped me realize I'm actually a white man."—Patton Oswalt

*Reading Black Books* Claude Atcho, 2022-05-17 Learning from Black voices means listening to more than snippets. It means attending to Black stories. Reading Black Books helps Christians hear and learn from enduring Black voices and stories as captured in classic African American literature. Pastor and teacher Claude Atcho offers a theological approach to 10 seminal texts of 20th-century African American literature. Each chapter takes up a theological category for inquiry through a close literary reading and theological reflection on a primary literary text, from Ralph Ellison's *Invisible Man* and Richard Wright's *Native Son* to Zora Neale Hurston's *Moses, Man of the Mountain* and James Baldwin's *Go Tell It on the Mountain*. The book includes end-of-chapter discussion questions. Reading Black Books helps readers of all backgrounds learn from the contours of Christian faith formed and forged by Black stories, and it spurs continued conversations about racial justice in the church. It demonstrates that reading about Black experience as shown in the literature of great African American writers can guide us toward sharper theological thinking and more faithful living.

**Who's Black and Why?** Henry Louis Gates Jr., Andrew S. Curran, 2022-03-22 2023 PROSE Award in European History "An invaluable historical example of the creation of a scientific conception of race that is unlikely to disappear anytime soon." —Washington Post "Reveals how prestigious natural scientists once sought physical explanations, in vain, for a social identity that continues to carry enormous significance to this day." —Nell Irvin Painter, author of *The History of White People* "A fascinating, if disturbing, window onto the origins of racism." —Publishers Weekly "To read [these essays] is to witness European intellectuals, in the age of the Atlantic slave trade, struggling, one after another, to justify atrocity." —Jill Lepore, author of *These Truths: A History of the United States* In 1739 Bordeaux's Royal Academy of Sciences announced a contest for the best essay on the sources of "blackness." What is the physical cause of blackness and African hair, and what is the cause of Black degeneration, the contest announcement asked. Sixteen essays, written in French and Latin, were ultimately dispatched from all over Europe. Documented on each page are European ideas about who is Black and why. Looming behind these essays is the fact that some four million Africans had been kidnapped and shipped across the Atlantic by the time the contest was announced. The essays themselves represent a broad range of opinions, which nonetheless circulate around a common theme: the search for a scientific understanding of the new concept of race. More important, they provide an indispensable record of the Enlightenment-era thinking that normalized the sale and enslavement of Black human beings. These never previously published documents survived the centuries tucked away in Bordeaux's municipal library. Translated into English and accompanied by a detailed introduction and headnotes written by Henry Louis Gates, Jr., and Andrew Curran, each essay included in this volume lays bare the origins of anti-Black racism and colorism in the West.

The Black Books (Slipcased Edition) (Vol. Seven-Volume Set) C. G. Jung,2020-10-13 Until now, the single most important unpublished work by C.G. Jung—The Black Books. In 1913, C.G. Jung started a unique self- experiment that he called his “confrontation with the unconscious”: an engagement with his fantasies in a waking state, which he charted in a series of notebooks referred to as The Black Books. These intimate writings shed light on the further elaboration of Jung’s personal cosmology and his attempts to embody insights from his self- investigation into his life and personal relationships. The Red Book drew on material recorded from 1913 to 1916, but Jung actively kept the notebooks for many more decades. Presented in a magnificent, seven-volume boxed collection featuring a revelatory essay by noted Jung scholar Sonu Shamdasani—illuminated by a selection of Jung’s vibrant visual works—and both translated and facsimile versions of each notebook, The Black Books offer a unique portal into Jung’s mind and the origins of analytical psychology.
