Blend Mashonda Tifrere,2022-04-12 A wise and inspiring guide to creating a happy and healthy blended family by Mashonda Tifrere with contributions from her co-parents--Swizz Beatz and his wife, Grammy-Award winning singer and songwriter Alicia Keys. In January 2010, founder of ArtLeadHer Mashonda Tifrere and legendary record producer Swizz Beatz finalized their divorce. When Swizz married award-winning singer/songwriter Alicia Keys, a new dynamic was born--three adults who loved and were deeply committed to raising Mashonda and Swizz's four-year old son Kasseem. In *Blend*, Tifrere draws on the insights they gained from their journey as well as advice from family therapists, parenting experts, and other blending families, to provide an invaluable resource for blended families. Statistics show that one in three Americans is now a step-parent, stepchild, step-sibling or other member of a blended family. The number of first time marriages or romantic relationships that end in divorce or breakups and the high percentage of remarriages and new relationships that involve children demand a unique, life-affirming approach to processing the end of one relationship and the rebirth of a new familial dynamic with the well-being of children at its center. In this book, Tifrere shares intimate details on how she and her co-parents used communication, patience and love to create an environment where they were able to work as a team and all the children involved could thrive. *Blend* will inspire a generation of families.

Where the Colors Blend Stephen Copeland,2018-08-14 In *Where the Colors Blend*, Stephen Copeland's self-discovery and God-discovery is told over a period of six years in the context of an annual retreat to the Blue Ridge Mountains in Roanoke, Virginia, where an obscure, forty-year-old church softball tournament takes place each summer to raise funds for mission work in Paraguay. In stepping into these stories, and sharing them with the reader, Stephen simultaneously journeys deeper within himself, discovering the divine in the process and taking readers deep into the throes of doubt, deconstruction, and depression. But it's there, in the darkness, that an authentic hope finds him. Throughout the narrative, readers experience with Stephen a number of paradigm shifts in the areas of: Spirituality: from exhausting oneself trying to get close to God to simply abiding: awakening to who we already are at the core of our beings as children of God. Psychology: from suppressing emotions, pains, and insecurities to curiously and non-judgmentally exploring them. Relationships: from trying to change others or silently judging them to accepting others as they are and learning from those who are most different than ourselves: abandoning ignorance and arrogance. Art, writing, and work: from being taunted by internal demands and a relentless pursuit of perfection to simply enjoying the gift of the process. Stephen's present-tense narrative, mysteriously unfolding all the way, is free-thinking and free-flowing, swinging from humor to complex theology, from someone else's story to sudden introspectiveness and application, creating a unique experience for readers as it challenges them to adopt their own lifestyle of introspection and contemplation.

The Blending Book Ann Wigmore,1997-04-01 Pioneering nutritionist Ann Wigmore has developed a simple and effective program to extract the maximum nutrients from foods without creating stress on the digestive system. By properly blending unprocessed foods—that is, liquefying them—we can release much more of the vital enzymes, vitamins, and minerals contained in them. Ann Wigmore observed that our modern diet puts a tremendous burden on the digestive system. This burden, over the years, is responsible for creating numerous health disorders, from gastric-related problems to degenerative diseases. In addition—and just as important—the body's ability to assimilate the very nutrients we rely on to carry out daily-life sustaining functions is diminished. It looks at our diet, our eating habits, our internal structure, and our health problems. It then explains how blending can work to correct numerous types of ailments. By breaking down food outside the body, blending offers maximum nutrients with less internal effort. With digestive stress lessened, the body is then able to heal itself. And they're always in my business, given that I run the only coffee shop in town. I miss having someone to come home to, but focusing on my work gives me a purpose and won't end in heartache. I couldn't have made it this far without my friend Bricker from the online queer divorce support group. We tell each other everything. Well, everything except the personal details. When Mikey, my high school crush, visits Dahlia Springs to write a story about our Pride Festival, I share my apprehension and excitement about falling for someone again with Bricker. Funny, he's in the same situation himself. I'm worried I'll need Bricker's support more than ever, because I'm falling for Mikey fast, and if he gets the promotion he's expecting, he'll be halfway across the country by next month. But Mikey says he has feelings for me too, and he proves it by donning sequins and high heels to help me save our amateur drag night. I can't ask him to give up his dream job, and everything I have is tied to Dahlia Springs. I hope Bricker's ready for all the messages I'm about to send him. *Perfect Blend* is a low angst MM novella featuring friends to lovers, a secret online identity, and a swoon-worthy HEA. This is a standalone story set in Lee Blair's Dahlia Springs universe.

Conceptual Blending in Early Christian Discourse Aleksander Gomola,2018-03-19 Cognitive linguists and biblical and patristic scholars have recently given more attention to the presence of conceptual blends in early Christian texts, yet there has been so far no comprehensive study of the general role of conceptual blending as a generator of novel meanings in early Christianity as a religious system with its own identity. This monograph points in that direction and is a cognitive linguistic exploration of pastoral metaphors in a wide range of patristic texts, presenting them as variants of THE CHURCH IS A FLOCK network. Such metaphors or blends, rooted in the Bible, were used by Patristic writers to conceptualize a great number of particular notions that were constitutive for the early church, including the responsibilities of the clergy and the laity, morality and penance, church unity, baptism and soteriology. This study shows how these blends became indispensable building blocks of a new religious system and explains the role of conceptual blending in this process. The book is addressed to biblical and patristic scholars interested in a new, unifying perspective for various strands of early Christian thought and to cognitive linguists interested in the role of conceptual integration in religious language. Produced with the support of the Faculty of Philology, Jagiellonian University in Kraków, Poland.

Specific Interactions and the Miscibility of Polymer Blends Michael M. Coleman,Paul C. Painter,John F. Graf,2017-11-13 This book with software provides powerful tools for the analysis, prediction and creation of new polymer blends, an area of significant commercial potential. The R&D approaches and methods described in the book have attracted the interest of polymer R&D leaders in industry, and have been put into use in several major chemical companies. The companion set of computer programs speeds and facilitates work in this area. FROM THE AUTHORS' PREFACE: During the 1980's a steadily increasing number of compatible systems [polymer blends] have been reported. We believe that miscible mixtures will prove to be fairly common and the purpose of this book is to explore the circumstances in which single phase materials can be obtained. We will also describe a model for the phase behavior of these mixtures which we believe to have a predictive value, or be used as a practical guide to polymer miscibility. Our approach is based on the use of association models which have until recently been largely ignored in treating hydrogen bonding in polymer mixtures. They have most frequently been applied to mixtures of alcohols with simple hydrocarbons, where the equilibrium constants used to describe association have most frequently been determined by a fit to thermodynamic data (e.g., vapor pressures, heat of mixing). In our work we have sought to, first, adapt this approach to a description of the phase behavior of polymer mixtures; second, develop spectroscopic methods that provide an independent measurement of the equilibrium constants. Our purpose in this book is to explore and describe this approach and illustrate its broad utility. We address two overlapping yet different audiences. One would be primarily interested in the broad nature of this approach and the practical applications of a simple model. The second would be more interested in the derivations of the equations and some of the fundamental aspects of the spectroscopy of these systems. Accor
