But seasoned competitors and beginners often have questions about how to look their best on show day. Written by expert bodybuilding coaches Peter Fitschen and Cliff Wilson, *Bodybuilding: The Complete Contest Preparation Handbook* will guide you through every step of the process to select a competition, prepare for the contest, and make the transition to the off-season. With no other book like it on the market, *Bodybuilding* offers you scientifically supported and experience-based guidelines to help you have your best show ever. *Bodybuilding* takes the guesswork out of preparing for a contest and answers common questions such as these: How do I choose the competition and division that are right for me? What mandatory poses do I need to learn for my competition? What is the best workout to do during contest prep? What should I do if I start to spill over during peak week? How long is too long to maintain stage-lean levels of body fat? The authors have created an easily accessible handbook that guides you step by step. The chapters begin with a background of the sport, followed by a discussion of the competitive division options for both men and women. The next chapters will help you through the process of obtaining a stage-ready physique with an evidence-based approach that combines scientific literature with practical experience. These chapters discuss important topics such as nutrition, training, and preparation timing. The next chapters address posing, peak week, tanning, and a number of other topics that will help you bring your most polished physique to the stage. More than 60 full-color photos show body types for each division and each mandatory pose, offering a visual guide to the proper positions for each pose. However, there is surprisingly little scholarship available on contemporary bodybuilding. Critical Readings in Bodybuilding is the first collection to address the contemporary practice of bodybuilding, especially the way in which the activity has become increasingly more extreme and to consider much neglected debates of gender, eroticism, and sexuality related to the activity. Featuring the leading scholars of bodybuilding and the body as well as emerging voices, this volume will be a key addition to the fields of Sociology, Sport Studies, and Cultural Studies.

Sandow the Magnificent David L. Chapman, 1994 Before Arnold Schwarzenegger, Steve Reeves, or Charles Atlas, there was Eugen Sandow, a muscular vaudeville strongman who used his good looks, intelligence, and business savvy to forge a fitness empire. The German-born Sandow (1867-1925) established a worldwide string of gyms, published a popular magazine, sold exercise equipment, and pioneered the use of food supplements. He even marketed a patented health corset for his female followers. Among the colorful figures who played a part in Sandow's life are Bernarr Macfadden, Florenz Ziegfeld, Lillian Russell, and others in sports and the theater. Sandow the Magnificent is the story of this first showman to emphasize physique display rather than lifting prowess. Sandow's is also the story of the earliest days of the fitness movement, and Chapman explains the popularity of physical culture in terms of its wider social implications. Sandow was a proponent of exercise to alleviate physical ailments, anticipating the field of physical therapy. By making exercise fashionable, he encouraged the fitness craze that still endures. As the first superstar in his field, Sandow also pried open some surprising cracks in the Victorian wall of prudery. His nude photographs, a kind of soft-core pornography, were anxiously sought by both male and female admirers, and after many of his major public events he gave private receptions wearing little more than a G-string.
