**Dan Abnett**

**Brink Book One** Dan Abnett, 2017-09-12 In the late 21st century the remains of the human race are crammed into the Habitats: vast artificial space stations; hotbeds for crime and madness policed by private security firms. When a routine drug bust goes wrong, no-nonsense Investigator Bridget Kurtis finds herself in a life or death struggle with a new sect of cultists. But evidence begins to point to something far more sinister going on behind the scenes... The first series of the new atmospheric, sci-fi thriller from Dan Abnett and I.N.J. Culbard.

*The Brink* Marc Ambinder, 2019-07-30 “An informative and often enthralling book...in the appealing style of Tom Clancy” (Kirkus Reviews) about the 1983 war game that triggered a tense, brittle period of nuclear brinkmanship between the United States and the former Soviet Union. What happened in 1983 to make the Soviet Union so afraid of a potential nuclear strike from the United States that they sent mobile ICBMs (intercontinental ballistic missiles) into the field, placing them on a three-minute alert Marc Ambinder explains the anxious period between the United States and the Soviet Union from 1982 to 1984, with the “Able Archer ’83” war game at the center of the tension. With astonishing and clarifying new details, he recounts the scary series of the close encounters that tested the limits of ordinary humans and powerful leaders alike. Ambinder provides a comprehensive and chilling account of the nuclear command and control process, from intelligence warnings to the composition of the nuclear codes themselves. And he affords glimpses into the secret world of a preemptive electronic attack that scared the Soviet Union into action. Ambinder’s account reads like a thriller, recounting the spy-versus-spy games that kept both countries—and the world—in check. From geopolitics in Moscow and Washington, to sweat-caked soldiers fighting in the trenches of the Cold War, to high-stakes war games across NATO and the Warsaw Pact, “Ambinder’s account of a serious threat of global annihilation...is

spellbinding...a masterpiece of recent history” (Publishers Weekly, starred review). The Brink serves as the definitive intelligence, nuclear, and national security history of one of the most precarious times in recent memory and “shows the consequences of nuclear buildups, sometimes-careless language, and nervous leaders. Now, more than ever, those consequences matter” (USA TODAY).

*Life on the Brink* Philip Cafaro, Eileen Crist, 2012-12-01 Life on the Brink aspires to reignite a robust discussion of population issues among environmentalists, environmental studies scholars, policymakers, and the general public. Some of the leading voices in the American environmental movement restate the case that population growth is a major force behind many of our most serious ecological problems, including global climate change, habitat loss and species extinctions, air and water pollution, and food and water scarcity. As we surpass seven billion world inhabitants, contributors argue that ending population growth worldwide and in the United States is a moral imperative that deserves renewed commitment. Hailing from a range of disciplines and offering varied perspectives, these essays hold in common a commitment to sharing resources with other species and a willingness to consider what will be necessary to do so. In defense of nature and of a vibrant human future, contributors confront hard issues regarding contraception, abortion, immigration, and limits to growth that many environmentalists have become too timid or politically correct to address in recent years. Ending population growth will not happen easily. Creating genuinely sustainable societies requires major change to economic systems and ethical values coupled with clear thinking and hard work. Life on the Brink is an invitation to join the discussion about the great work of building a better future. Contributors: Albert Bartlett, Joseph Bish, Lester Brown, Tom Butler, Philip Cafaro, Martha Campbell, William R. Catton Jr., Eileen Crist, Anne Ehrlich, Paul Ehrlich, Robert Engelman, Dave Foreman, Amy Gulick, Ronnie

Hawkins, Leon Kolankiewicz, Richard Lamm, Jeffrey McKee, Stephanie Mills, Roderick Nash, Tim Palmer, Charmayne Palomba, William Ryerson, Winthrop Staples III, Captain Paul Watson, Don Weeden, George Wuerthner.

*Justice on the Brink* Linda Greenhouse, 2021-11-09 The gripping story of the Supreme Court's transformation from a measured institution of law and justice into a highly politicized body dominated by a right-wing supermajority, told through the dramatic lens of its most transformative year, by the Pulitzer Prize-winning law columnist for The New York Times "A dazzling feat . . . meaty, often scintillating and sometimes scary . . . Greenhouse is a virtuoso of SCOTUS analysis."—The Washington Post In *Justice on the Brink*, legendary journalist Linda Greenhouse gives us unique insight into a court under stress, providing the context and brilliant analysis readers of her work in The New York Times have come to expect. In a page-turning narrative, she recounts the twelve months when the court turned its back on its legacy and traditions, abandoning any effort to stay above and separate from politics. With remarkable clarity and deep institutional knowledge, Greenhouse shows the seeds being planted for the court's eventual overturning of *Roe v. Wade*, expansion of access to guns, and unprecedented elevation of religious rights in American society. Both a chronicle and a requiem, *Justice on the Brink* depicts the struggle for the soul of the Supreme Court, and points to the future that awaits all of us.

**Back from the Brink** Peter Andrews, 2014-10-01 Featured on Australian Story, Peter Andrews is a racehorse breeder and farmer credited with remarkable success in converting degraded, salt-ravaged properties into fertile, drought-resistant pastures. His methods are so at odds with conventional scientific wisdom that for 30 years he has been dismissed and ridiculed as a madman. He has faced bankruptcy and family break-up. But now, on the brink of ecological disaster, leading politicians, international scientists and businessmen are beating a path to his door as they grapple

with how best to alleviate the affects of drought on the Australian landscape. Described as a man who reads and understands the Australian landscape better than most scientists, supporters of Peter Andrews claim he has done what no scientist ever thought to do - he has restored streams and wetlands to the way they were before European settlement interfered with them. the startling results of his natural sequence farming are said to have been achieved very cheaply, simply and quickly.

*A Brink Book* Laurel Shanafelt Powell,1996

**On the Brink** Andi Simon,2016-07-05 Corporate culture and culture change have become the pressing issues of our time. The fast pace of change is attacking companies of all sizes. Leaders are facing the challenges of adapting their organizations to generational changes, the uncertainties of new technologies, shifting client behaviors, and the realization that supply is often stronger than demand. And, people just hate to change. They are willfully blind to what is happening all around them. But, the future is, indeed, coming soon, if not today, and change they must. Andi Simon is a corporate anthropologist who has empowered thousands of business leaders to see their companies with fresh eyes, identify their next big ideas, and—most importantly—turn innovative solutions into executable change. In her groundbreaking book, *On the Brink: A Fresh Lens to Take Your Business to New Heights*, Andi presents her unique methods for harnessing innovation and revitalizing business growth. Taking readers on a journey through seven case studies, Andi shares how she helped these businesses discover new and profitable growth opportunities by exploring the untapped resources that were right in front of them. Businesses, not-for-profits, entrepreneurs are paying close attention. They frequently talk about the need to innovate and change is if these are the sweeping secret sauce to solve all their business problems; however, they often don't know where to start or how to expand beyond creative brainstorming to strategically identify and act upon new business opportunities. In

this book, Andi will take the reader through the theory, methods, and tools of corporate anthropology to see how this new perspective can help a stalled company see possibilities with fresh eyes to re-ignite their growth. From a medical center facing multiple years in the red to a rural university battling decreasing enrollment to an equipment manufacturer whose award-winning product just wasn't selling—the stories of these seven companies struggling to innovate and grow provide invigorating testimony to the power of corporate anthropology. Whether searching for a way to revitalize a business or to expand a successful company into new and profitable directions, the strategies outlined in *On the Brink* will give readers the fresh approach they need to achieve meaningful business breakthroughs.

**Season on the Brink** John Feinstein, 2012-12-11 *A Season on the Brink* chronicles the basketball season that John Feinstein spent following the Indiana Hoosiers and their fiery coach, Bob Knight. Knight granted Feinstein an unprecedented inside look at college basketball -- with complete access to every moment of the season. Feinstein saw and heard it all -- practices, team meetings, strategy sessions, and mid-game huddles -- during Knight's struggle to avoid a losing season. *A Season on the Brink* not only captures the drama and pressure of big-time college basketball but paints a vivid portrait of a complex, brilliant coach walking a fine line between genius and madness.

**The Brink** N. J. Crisp, 1982 Betrayed in West Berlin, British agent, Richard Conroy, is released by the KGB in exchange for a top-level traitor and searches to discover his traitor

*Back from the Brink* Alistair Darling, 2012-06-01 Alistair Darling's long-awaited book will be one of the most reviewed, widely discussed, and saleable political memoirs of recent years. In the late summer of 2007, shares of Northern Rock went into free-fall, causing a run on the bank - the first in over 150 years. Northern Rock proved to be only the first. Twelve months later, as the world was engulfed in the worst banking crisis for more than a

century, one of its largest banks, RBS, came within hours of collapse. Back from the Brink tells the gripping story of Alistair Darling's one thousand days in Number 11 Downing Street. As Chancellor, he had to avert the collapse of RBS hours before the cash machines would have ceased to function; at the eleventh hour, he stopped Barclays from acquiring Lehman Brothers in order to protect UK taxpayers; he used anti-terror legislation to stop Icelandic banks from withdrawing funds from Britain. From crisis talks in Washington, to dramatic meetings with the titans of international banking, to dealing with the massive political and economic fallout in the UK, Darling places the reader in the rooms where the destinies of millions weighed heavily on the shoulders of a few. His book is also a candid account of life in the Downing Street pressure cooker and his relationship with Gordon Brown during the last years of New Labor. Back from the Brink is a vivid and immediate depiction of the British government's handling of an unprecedented global financial catastrophe. Alistair Darling's knowledge and understanding provide a unique perspective on the events that rocked international capitalism. It is also a vital historical document.

Brink Chelsea Ramsey, 2013 Unnoticed by everyone, Luke had stayed frozen in his spot. He stared, unseeing, at the spot in space where Grant's head had been. His eyes were wide and unbelieving. What did I just do? Luke has to come to terms with a newfound power and responsibility that has unceremoniously been thrown on his lap. Seemingly alone, with nobody to share his frustrations, he has to make a decision that nobody else can. A decision that can either lead to the harnessing of power for a greater cause, or one that can lead to his ultimate destruction. What is happening to Luke? What is the presence that watches him from afar and seems to trigger the power that flows through his veins? In this story of self-discovery, reunification, and

mystery, journey with Luke, his friends, and his family as he strives to find out what is driving him to the brink of his own sanity. Step into a reality turned fantasy with him as he discovers more about his origins and the secrets that he never knew existed...until they unravelled before him.

On the Brink Henry M. Paulson, 2011-02-15 When Hank Paulson, the former CEO of Goldman Sachs, was appointed in 2006 to become the nation's next Secretary of the Treasury, he knew that his move from Wall Street to Washington would be daunting and challenging. But Paulson had no idea that a year later, he would find himself at the very epicenter of the world's most cataclysmic financial crisis since the Great Depression. Major institutions including Bear Stearns, Fannie Mae, Freddie Mac, Lehman Brothers, AIG, Merrill Lynch, and Citigroup, among others- all steeped in rich, longstanding tradition-literally teetered at the edge of collapse. Panic ensnared international markets. Worst of all, the credit crisis spread to all parts of the U.S. economy and grew more ominous with each passing day, destroying jobs across America and undermining the financial security millions of families had spent their lifetimes building. This was truly a once-in-a-lifetime economic nightmare. Events no one had thought possible were happening in quick succession, and people all over the globe were terrified that the continuing downward spiral would bring unprecedented chaos. All eyes turned to the United States Treasury Secretary to avert the disaster. This, then, is Hank Paulson's first-person account. From the man who was in the very middle of this perfect economic storm, ON THE BRINK is Paulson's fast-paced retelling of the key decisions that had to be made with lightning speed. Paulson puts the reader in the room for all the intense moments as he addressed urgent market conditions, weighed critical decisions, and debated policy and economic considerations with all the notable players-including the CEOs of top Wall Street firms as well as Ben Bernanke, Timothy Geithner, Sheila Bair, Nancy Pelosi, Barney Frank, presidential candidates

Barack Obama and John McCain, and then-President George W. Bush. More than an account about numbers and credit risks gone bad, ON THE BRINK is an extraordinary story about people and politics-all brought together during the world's impending financial Armageddon.

**Cuba on the Brink** James G. Blight, Bruce J. Allyn, David A. Welch, 2002 With the disintegration of the Soviet Union and international socialism, Cuba now finds itself isolated as the United States continues to press for its economic and political collapse. How Fidel Castro sees Cuba's plight and what he hopes to do about it emerge from this account of a unique conference held in Havana in 1992. The meeting brought together participants in the Cuban missile crisis from the former Soviet Union, Cuba, and the U.S. to discuss its causes and course. This account is now available for the first time in paperback, on the 40th anniversary of the Cuban Missile Crisis. This first meeting between Castro, his ex-Soviet allies, and his American foes produced startling revelations about his dealings with the Soviets, chilling details of the number and kind of Soviet nuclear arms that Cuba possessed in 1962, and an illuminating account of Castro's view of the American threat--then and now. The dramatic exchanges between Castro and such conference participants as Anatoly I. Gribkov, former head of the Warsaw Pact; former U.S. Secretary of Defense Robert McNamara; and Arthur Schlesinger, Jr., Special Assistant to John Kennedy, reveal misperceptions on all sides that led us to the brink of nuclear war. An extraordinary examination of an international crisis, *Cuba on the Brink* illustrates the ongoing Cuba problem, and will help guide our actions toward other countries deemed hostile to our national interest.

The Brink Mark Fadden, 2010-04-14 Charged with murder and hiding out in the Mexican wilderness, Texas Ranger Danny Cavanaugh contemplates eating a bullet in the exact spot his father did years ago. But when he sees something strange at the nearby converted monastery, the cop inside him takes over. As he

investigates, he meets a nearly naked woman running for her life. A judge in the International Court of Justice, Sydney Dumas thought she was there to discuss a secret lawsuit Japan is bringing against the United States. Meanwhile in Washington, D.C., a robbery attempt at the Library of Congress becomes an unimaginable test for newly elected President Jack Butcher. The nearly stolen document is a lost article of the U.S. Constitution, which contains evidence the Founding Fathers foresaw certain collapse for their new country. As Danny and Sydney race toward Washington, D.C. to reach President Butcher, they are hunted by a relentless killer dispatched by an organization known as The Group; they have infinite resources and will stop at nothing to reach their goal. Once Danny uncovers the link between the lawsuit, the lost Constitution article, and The Group, he discovers an unthinkable plot designed by a brilliant psychopath whose motive makes them question everything.

**Back from the Brink** Donald Roy Catherall, 1992 Post Traumatic Stress Disorder was originally diagnosed in Vietnam veterans, but today experts are considering the same symptoms and healing strategies in cases of death, rape, job loss, fatal accident, or childhood abuse. Dr. Catherall's years of work with trauma victims has revealed that the family is often the key to healing.

*Girls on the Brink* Donna Jackson Nakazawa, 2022-09-13 15 "simple but powerful" (The New York Times Book Review) strategies for raising emotionally healthy girls, based on cutting-edge science that explains the modern pressures that make it so difficult for adolescent girls to thrive "This is a brave and important book; the challenging stories—both personal and scientific—will make you think, and, hopefully, act."—Bruce D. Perry, MD, PhD, New York Times bestselling co-author of *What Happened to You?* ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, Mashable Anyone caring for girls today knows that our daughters, students, and girls next door are more anxious and more prone to

depression and self-harming than ever before. The question that no one has yet been able to credibly answer is Why? Now we have answers. As award-winning writer Donna Jackson Nakazawa deftly explains in *Girls on the Brink*, new findings reveal that the crisis facing today's girls is a biologically rooted phenomenon: the earlier onset of puberty mixes badly with the unchecked bloom of social media and cultural misogyny. When this toxic clash occurs during the critical neurodevelopmental window of adolescence, it can alter the female stress-immune response in ways that derail healthy emotional development. But our new understanding of the biology of modern girlhood yields good news, too. Though puberty is a particularly critical and vulnerable period, it is also a time during which the female adolescent brain is highly flexible and responsive to certain kinds of support and scaffolding. Indeed, we know now that a girl's innate sensitivity to her environment can, with the right conditions, become her superpower. Jackson Nakazawa details the common denominators of such support, shedding new light on the keys to preventing mental health concerns in girls as well as helping those who are already struggling. Drawing on insights from both the latest science and interviews with girls about their adolescent experiences, the author carefully guides adults through fifteen "antidote" strategies to help any teenage girl thrive in the face of stress, including how to nurture the parent-child connection through the rollercoaster of adolescence, core ingredients to building a sense of safety and security for your teenage girl at home, and how to foster the foundations of long-term resilience in our girls so they're ready to face the world. Neuroprotective and healing, the strategies in *Girls on the Brink* amount to a new playbook for how we—parents, families, and the human tribe—can secure a healthy emotional inner life for all of our girls.

The Brink David Detzer, 1979 An account of the 1962 confrontation between the United States and Russia caused by the installation of Russian missiles in Cuba.

Back from the Brink Graeme Cowan, 2007 This title discusses with well-known and everyday Australians about their personal journey of enduring and overcoming depression. Written in a question and answer format, the book offers a raw and immediate format that strikes straight to the heart. The stories show just how real and prevalent depression is!

**Back from the Brink** Nancy F. Castaldo, 2018-04-24 True stories of how scientists are saving endangered species, with photos included: "Readers will be moved by Castaldo's appreciation for these animals." —Booklist (starred review) In this book, the acclaimed author of *Sniffer Dogs* details the successful efforts of scientists to bring threatened animals back from the brink of extinction. How could capturing the last wild California condors help save them? Why are some states planning to cull populations of the gray wolf, despite this species only recently making it off the endangered list? How did a decision made during the Civil War to use alligator skin for cheap boots nearly drive the animal to extinction? *Back from the Brink* answers these questions and more as it delves into the threats to seven species, and the scientific and political efforts to coax them back from the brink. This rich, informational look at the problem of extinction offers a source of hope—all of these animals' numbers are now on the rise—and will inspire young wildlife lovers and aspiring scientists. Winner of the Crystal Kite Award and a Sigurd F. Olsen Best Nature book Honorable Mention
