Acclaimed illustrator, graphic designer and print-maker, Paul Farrell takes us on a journey through Great Britain that will change the way we think about it forever. Encompassing its countryside, landmarks, and architecture, from the Highlands of Scotland, to the White Cliffs of Dover, the beautiful and bold images in *Great Britain in Colour* are vibrant, playful and iconic. Britain Before Brexit Bernard Porter,2021-04-22 “Why do the Brexiteers want to leave?” “Why do the Remainers want to stay?” “What exactly would a post-Brexit Europe look like?” These questions have dominated the post- Brexit socio-political landscape. In this timely and engaging book Bernard Porter responds to these questions. Each chapter presents different historical episodes contributing to an overall understanding of what Porter calls Britain's “most important move in her national life since she risked her whole being to go to war with Germany in 1939.” The book comprises a collection of well-researched and considered chapters ranging from Britain's 'asylum' policy for European refugees in the nineteenth and early twentieth centuries, to 'terrorism' in mainland Britain, and governments responses to it. Porter draws from a range of sources and personal experiences to investigate the cultural and social history that led us (or which specifically didn't lead us) to the decision to leave the European Union. The result is an engaging and personal analysis of Britain's distinctive 'identity', and on its former relations with Europe

**The Absent-Minded Imperialists** Bernard Porter,2004-11-25 The British empire was a huge enterprise. To foreigners it more or less defined Britain in the nineteenth and early twentieth centuries. Its repercussions in the wider world are still with us today. It also had a great impact on Britain herself: for example, on her economy, security, population, and eating habits. One might expect this to have been reflected in her society and culture. Indeed, this has now become the conventional wisdom: that Britain was steeped in imperialism domestically, which affected (or infected) almost everything Britons thought, felt, and did. This is the first book to examine this assumption critically against the broader background of contemporary British society. Bernard Porter, a leading imperial historian, argues that the empire had a far lower profile in Britain than it did abroad. Many Britons could hardly have been aware of it for most of the nineteenth century and only a small number was in any way committed to it. Between these extremes opinions differed widely over what was even meant by the empire. This depended largely on class, and even when people were aware of the empire, it had no appreciable impact on their thinking about anything else. Indeed, the influence far more often went the other way, with perceptions of the empire being affected (or distorted) by more powerful domestic discourses. Although Britain was an imperial nation in this period, she was never a genuine imperial society. As well as showing how this was possible, Porter also discusses the implications of this attitude for Britain and her empire, and for the relationship between culture and imperialism more generally, bringing his study up to date by including the case of the present-day USA.

**Where We Are** Roger Scruton,2017-11-16 WINNER OF THE CATHOLIC HERALD BOOK AWARD Addressing one of the most politically turbulent periods in modern British history, philosopher Roger Scruton asks how, in these circumstances, we can come to define our identity, and what in the coming years will hold us together. To what are our

duties owed and why? How do we respond to the pull of globalisation and mass migration, to the rise of Islam and to the decline of Christian belief? Do we accept these as inevitable or do we resist them? If we resist them on what basis do we build? This book sets out to answer these questions, and to understand the volatile moment in which we live. Roger Scruton slices characteristically through the fog of debate with this sensible and profound account of our collective identity; essential reading for anyone interested in what it means to be British, what that might come to mean in future, and who wonders how we can define our place in a rapidly changing world.

*Island Stories* David Reynolds, 2020-03-24 This history of Britain set in a global context for our times offers a new perspective on how the rise and fall of an empire shaped modern European politics. When the British voted to leave the European Union in 2016, the country's future was thrown into doubt. So, too, was its past. The story of British history is no longer a triumphalist narrative of expanding global empire, nor one of ever-closer integration with Europe. What is it now? In *Island Stories*, historian David Reynolds offers a multi-faceted new account of the last millennium to make sense of Britain's turbulent present. With sharp analysis and vivid human detail, he examines how fears of decline have shaped national identity, probes Britain's changing relations with Europe, considers the creation and erosion of the United Kingdom, and reassesses the rise and fall of the British Empire. *Island Stories* is essential reading for anyone interested in global history and politics in the era of Brexit.

What We Have Lost James Hamilton-Paterson, 2018-10-04 'Exquisitely written and ripe with detail' Sunday Times. 'An engaging book... He knows his British stuff' The Times. 'One of England's most skilled and alluring prose writers in or out of fiction, has done something even more original' London Review of Books. WHAT WE HAVE LOST IS A MISSILE AIMED AT THE BRITISH ESTABLISHMENT, A BLISTERING INDICTMENT OF POLITICIANS AND CIVIL SERVANTS, PLANNING AUTHORITIES AND FINANCIAL INSTITUTIONS, WHO HAVE PRESIDED, SINCE 1945, OVER THE DECLINE OF BRITAIN'S INDUSTRIES AND REPLACED THE 'GREAT' IN BRITAIN WITH A FOR SALE SIGN HUNG AROUND THE NECK OF THE NATION. Between 1939 and 1945, Britain produced around 125,000 aircraft, and enormous numbers of ships, motor vehicles, armaments and textiles. We developed radar, antibiotics, the jet engine and the computer. Less than seventy years later, the major industries that had made Britain a global industrial power, and employed millions of people, were dead. Had they really been doomed, and if so, by what? Can our politicians have been so inept? Was it down to the superior competition of wily foreigners? Or were our rulers culturally too hostile to science and industry? James Hamilton-Paterson, in this evocation of the industrial world we have lost, analyzes the factors that turned us so quickly from a nation of active producers to one of passive consumers and financial middlemen.

**A Rhyming History of Britain** James Muirden, 2012-03-01 The Rhyming History of Britain Has never - heretofore - been written 'I am not a historian. In fact, I wrote this poem in order to teach myself some history. I thought that sorting facts into verse form would concentrate my mind wonderfully. Which it did.' Brought up with the iambic pentameters of Hilaire Belloc's Cautionary Verses ringing in his ears, James Muirden's rhyming history is a long poem in an equally simple and jolly form. Charmingly irreverent, magically humorous, delightfully illustrated by David Eccles - recently acclaimed for his line drawings for Now We Are Sixty - this is the perfect gift for historians and non-historians alike. This cheerful poem has been written To tell the History of Britain; For People puzzled by the Past - If this means YOU, here's help at last! From Celts to Churchill, it relates (With all the most Important Dates) Our country's convoluted course... Why Richard hollered for a horse; Why Eleanor was such a catch; Why no one liked the Spanish Match; The pros and cons of Laissez Faire; Smart Georgian ladies' underwear; Why Charles the Second went to plays; Why Queen Jane reigned for just nine days; The causes of the Irish trouble; The bursting of the South Sea Bubble; That giant glasshouse in Hyde Park; The First World War's igniting spark...

It authoritatively illustrates several modes of Britain’s engagement with Europe, whether political, artistic, scientific, literary or cultural. Mori consults an impressively wide range of sources for this study including the private and official papers of 50 men and women in the British diplomatic service. Attention is given to topics rarely covered in diplomatic history such as the work and experiences of women and issues of national, regional and European identity This book will be essential reading for students and lecturers of the history of International Relations and will offer a fascinating insight in to the world of diplomatic relations to all those with an interest in British and European history.
