The monotony of thick smog-shrouded London is broken by a sudden visit from Holmes' brother Mycroft. He has come about some missing, secret submarine plans. Seven of the ten pages - three are still missing - were found with Arthur Cadogan West's body. He was a young clerk in a government office at Royal Arsenal, Woolwich, whose body was found next to the Underground tracks near the Aldgate tube station, his head crushed. He had little money with him (although there appears to have been no robbery), theatre tickets, and curiously, no Underground ticket. The three missing pages by themselves could enable one of Britain's enemies to build a Bruce-Partington submarine.

lines with Aldgate at right and Kensington at lower left It seems clear that Cadogan West fell from a train and that he stole the plans, meaning to sell them, but the mystery is truly complex. Inspector Lestrade tells Holmes that a passenger has seen fit to report hearing a thud at about the location in question, as though a body had fallen on the track. He could not see anything, however, owing to the thick fog. After an examination of the track near Aldgate, Holmes reaches an astonishing and unusual conclusion: West had been killed elsewhere, was deposited on the roof of an Underground train, and fell off when the jarring action of going across a railway point at Aldgate shook the coach.

*The Adventure of the Bruce-Partington Plans (Annotated)* Sir Arthur Conan Doyle, 2021-04-20 In the third week of November, in the year 1895, a dense yellow fog settled down upon London. From the Monday to the Thursday I doubt whether it was ever possible from our windows in Baker Street to see the loom of the opposite houses. The first day Holmes had spent in cross-indexing his huge book of references. The second and third had been patiently occupied upon a subject which he had recently made his hobby--the music of the Middle Ages. But when, for the fourth time, after pushing back our chairs from breakfast we saw the greasy, heavy brown swirl still drifting past us and condensing in oily drops upon the window-panes, my comrade's impatient and active nature could endure this drab existence no longer. He paced restlessly about our sitting-room in a fever of suppressed energy, biting his nails, tapping the furniture, and chafing against inaction.

*The Adventure of the Bruce Partington Plans Sherlock Holmes* Arthur Conan Doyle, Sir, 2013-06-19 The London criminal is certainly a dull fellow, said he in the querulous voice of the sportsman whose game has failed him. Look out this window, Watson. See how the figures loom up, are dimly seen, and then blend once more into the cloud-bank. The thief or the murderer could roam London on such a day as the tiger does the jungle, unseen until he pounces, and then evident only to his victim. There have, said I, been numerous petty thefts. Holmes snorted his contempt. This great and sombre stage is set for something more worthy than that, said he. It is fortunate for this community that I am not a criminal. It is, indeed! said I heartily.

We will suppose that a minister needs information as to a point which involves the Navy, India, Canada and the bimetallic question; he could get his separate advices from various departments upon each, but only Mycroft can focus them all, and say offhand how each factor would affect the other. They began by using him as a short-cut, a convenience; now he has made himself an essential. In that great brain of his everything is pigeon-holed and can be handed out in an instant. Again and again his word has decided the national policy. He lives in it. He thinks of nothing else save when, as an intellectual exercise, he unbends if I call upon him and ask him to advise me on one of my little problems. But Jupiter is descending to-day. What on earth can it mean? Who is Cadogan West, and what is he to Mycroft? I have it, I cried, and plunged among the litter of papers upon the sofa. Yes, yes, here he is, sure enough! Cadogan West was the young man who was f...
