Bruges-la-Morte Georges Rodenbach,2011-02-05 Dedalus should be treasured: a small independent publisher that regularly produces works of European genius at which the behemoths wouldn't sniff. If the corporations did care to look at this new work, they would find, on the surface, a precursor to W G Sebald, a Symbolist vision of the city that lays the way for Aragon and Joyce, and a macabre story of obsessive love and transfiguring horror that is midway between Robert Browning and Tod Browning. Bruges, an amalgam of greyish drowsiness, is the setting and spur; Hugues is a widower who finds a dancer nearly identical to his lost love. Nearly is here the operative word. This is a little masterpiece, from a brave publisher. If only Scotland could boast the same. S.B.Kelly in Scotland on Sunday

Civic Ceremony and Religion in Medieval Bruges c.1300–1520 Andrew Brown,2011-03-10 Public religious practice lay at the heart of civic society in late medieval Europe. In this illuminating study, Andrew Brown draws on the rich and previously little-researched archives of Bruges, one of medieval Europe's wealthiest and most important towns, to explore the role of religion and ceremony in urban society. The author situates the religious practices of citizens - their investment in the liturgy, commemorative services, guilds and charity - within the contexts of Bruges' highly diversified society and of the changes and crises the town experienced. Focusing on the religious processions and festivities sponsored by the municipal government, the author challenges much current thinking on, for example, the nature of 'civic religion'. Re-evaluating the ceremonial links between Bruges and its rulers, he questions whether rulers could dominate the urban landscape by religious or ceremonial means, and offers new insight into the interplay between ritual and power of relevance throughout medieval Europe.

Bruges, Cradle of Capitalism, 1280-1390 James M. Murray,2005-01-20 Teeming with merchants from all over Europe, medieval Bruges provides an early model of a great capitalist city. Bruges established a sophisticated money market and an elaborate network of agents and brokers. Moreover, it promoted co-operation between merchants of various nations. In this book James Murray explores how Bruges became the commercial capital of northern Europe in the late fourteenth century. He argues that a combination of fortuitous changes such as the shift to sea-borne commerce and the extraordinary efforts of the city's population served to shape a great commercial centre. Areas explored include the political history of Bruges, its position as a node and network, the wool, cloth and gold trade and the role of women in the market. This book serves not only as a case-study in medieval economic history, but also as a social and cultural history of medieval Bruges.

Medieval Bruges Andrew Brown,Jan Dumolyn,2018-05-03 Bruges was undoubtedly one of the most important cities in medieval Europe. Bringing together specialists from both archaeology and history, this 'total' history presents an integrated view of the city's history from its very beginnings, tracing its astonishing expansion through to its subsequent decline in the sixteenth century. The authors' analysis of its commercial growth, industrial production, socio-political changes, and cultural creativity is grounded in an understanding of the city's structure, its landscape and its built environment. More than just a biography of a city, this book places Bruges within a wider network of urban and rural development and its history in a comparative framework, thereby offering new insights into the nature of a metropolis.

Bruges and the Renaissance Paul Huvenne,Maryan W. Ainsworth,Memlingmuseum (Bruges, Belgium),1998 In the 16th century, the Belgian city of Bruges was invariably depicted in art and literature as a great artistic center and economic hub -- the vibrant and sophisticated Athens of the North in which humanist ideas took root and flourished. This fascinating and wide-ranging study opens in 1494, when artists Hans Memling and Gerard David settled in Bruges, and ends in 1584, when Pieter Pourbus arrived in the port city. Essays explore the artistic developments that occurred in the intervening nine decades, with a focus on the spread of ideas from the Italian Renaissance to northern Europe. Through trade, the migration of artists, and the circulation of artworks, new intellectual and aesthetic standards seeped into local artists' work, resulting in the glorious images reproduced in this volume.

The Story of Bruges (Classic Reprint) Ernest Gilliat-Smith,2015-07-01 Excerpt from The Story of Bruges few great mediaeval towns possess so

many memorials of the past, alike in masonry and on parchment, as does 'the ancient town of Bruges.' They have been indited by the patience of the scribe in breviary and in charter-roll; they have been perpetuated by the art of the painter, in gold and glowing tones, in portrait and in altar-piece; they have been graven with an iron pen in wood and metal and stone; they have been handed down by word of mouth through countless generations. The municipal rolls go back to the year 1280, and included amongst them are the annual accounts of the city from 1281 to 1789, almost complete; those of the Collegiate Church of Notre Dame to early in the eleven hundreds; and there are, too, the rolls of St. Sauveur, of the old Cathedral of St. Donatian, of the great Abbey of Dunes, and of many other time-honoured corporations; whilst the Municipal Library and the Library of the Diocesan Seminary contain together, no less than seven hundred and thirty-four manuscripts, not a few of which were written in the city itself or in its immediate neighbourhood.
