Historical Dictionary of Brussels Paul F. State, 2004-01-01

Historical Dictionary of Brussels covers the leading places, personalities, events, and institutions that have shaped civic life in the Belgian capital. The first comprehensive English-language history of Brussels in reference form, this book includes a narrative of the city's history, more than 600 dictionary entries, and an extensive bibliography. Students, academics, professionals in the public and private sectors, residents, and visitors will find this an essential reference.

Actes de la Conférence de Bruxelles, 1874. [On the Conduct of War.]. Conférence de Bruxelles, 1874 (BRUSSELS), 1874

Brussels, a Reflexive World City Camilla Elmhorn, 2001

Through Belgian Eyes Helen MacEwan, 2017-11-13 Charlotte Brontes years in Belgium (1842-43) had a huge influence both on her life and her work. It was in Brussels that she not only honed her writing skills but fell in love and lived through the experiences that inspired two of her four novels: her first, *The Professor*, and her last and in many ways most interesting, *Villette*. Her feelings about Belgium are known from her novels and letters her love for her tutor Heger, her uncomplimentary remarks about Belgians, the

powerful effect on her imagination of living abroad. But what about Belgian views of Charlotte Bronte? What has her legacy been in Brussels? How have Belgian commentators responded to her portrayal of their capital city and their society? Through *Belgian Eyes* explores a wide range of responses from across the Channel, from the hostile to the enthusiastic. In the process, it examines what *The Professor* and *Villette* tell Belgian readers about their capital in the 1840s and provides a wealth of detail on the Brussels background to the two novels. Unlike Paris and London, Brussels has inspired few outstanding works of literature. That makes *Villette*, considered by many to be Charlotte Brontes masterpiece, of particular interest as a portrait of the Belgian capital a decade after the country gained independence in 1830, and just before modernisation and expansion transformed the city out of all recognition from the villette (small town) that Charlotte knew. Her view of Brussels is contrasted with those of other foreign visitors and of the Belgians themselves. The story of Charlotte Brontes Brussels legacy provides a unique perspective on her personality and writing.

The Brussels Effect Anu Bradford, 2020-01-27 For many observers, the European Union is mired in a deep crisis. Between sluggish growth; political turmoil following a decade of austerity politics; Brexit; and the rise of Asian influence, the EU is seen as a declining power on the world stage. Columbia Law professor Anu Bradford argues the opposite in her important new book *The Brussels Effect*: the EU remains an influential superpower that shapes the world in its image. By promulgating regulations that shape the international business environment, elevating standards worldwide, and leading to a notable Europeanization of many important aspects of global commerce, the EU has managed to shape policy in areas such as data privacy, consumer health and safety, environmental protection, antitrust, and online hate speech. And in contrast to how superpowers wield their global influence, the Brussels Effect - a phrase first coined by Bradford in 2012 - absolves the EU from playing a direct role in imposing standards, as market forces alone are often sufficient as multinational companies voluntarily extend the EU rule to govern their global operations. *The Brussels Effect* shows how the EU has acquired such power, why multinational companies use EU standards as

global standards, and why the EU's role as the world's regulator is likely to outlive its gradual economic decline, extending the EU's influence long into the future.

Brussels Art Deco Cecile Dubois, Sophie Voituren, 2020-02-10 Art Deco, which essentially was an extension of the decorative Art Nouveau, developed in the Twenties, giving rise to the construction of a variety of buildings including the Centre for Fine Arts, private mansions, town houses and even the first apartment buildings. Drawing on multiple different sources of inspiration, the more geometric Art Deco became the epitome of luxury and refinement. This style conveyed the values of a middle class that celebrated its freedom after the unimaginable violence of the Great War. These were the Roaring Twenties, the jazz age, an era marked by a general loosening of morals and movement and speed, with the arrival of trans-Atlantic travel, cars and even the first airplanes.00At the same time, Modernists argued in favour of a more rational,

pared down architecture, which allowed for greater freedom of style and which was more likely also to meet the pressing demand for more housing after the war.⁰⁰This book discusses the personality of several key architects through a variety of architectural programmes, as well as giving an overview of an exciting era and offering readers some keys to identify the heritage that lines the streets of Brussels.⁰.

Exemplary Buildings Bernard Deprez, Jean Cech, 2012 In the face of all the uncertainty about the future, is it possible to imagine a city becoming more beautiful, more practical and more economical to live in, while at the same time becoming more sustainable? This was the challenge the Brussels-Capital Region set itself in 2007 - and its response was to launch the Batex call for projects targeting everyone wanting to build or refurbish a building in Brussels. The term Batex is the abbreviation for Batiments exemplaires or exemplary buildings, and the whole idea is to leverage each project, whether large or small, whether private or public, to spread the word about eco-construction, what it involves and how it can help transform the city, building by building. On the occasion of the fifth call for projects, the Brussels Environmental Agency is providing this review of the selected

projects, telling their success stories. AUTHOR: Bernard Deprez, is an architectural engineer and lecturer at the Universite Libre de Bruxelles Faculty of Architecture. Jean Cech is a journalist who has specialised for almost 30 years in topics associated with sustainable development. ILLUSTRATIONS: 200 colour
