Better Buses, Better Cities Steven Higashide,2019-10-10 Imagine a bus system that is fast, frequent, and reliable--what would that change about your city? Buses can and should be the cornerstone of urban transportation. They offer affordable mobility and can connect citizens with every aspect of their lives. But in the US, they have long been an afterthought in budgeting and planning. Transit expert Steven Higashide uses real-world stories of reform to show us what a successful bus system looks like. Higashide explains how to marshal the public in support of better buses and argues that better bus systems will create better cities for all citizens. With a compelling narrative and actionable steps, *Better Buses, Better Cities* describes how decision-makers, philanthropists, activists, and public agency leaders can work together to make the bus a win in any city.

Transit Talk Robert W. Snyder,1997 New York City may seem to be a place where everyone is a stranger, yet transit workers provide a human presence on a late-night bus or an empty subway platform. Few of us give any thought to these invisible workers-until something goes wrong. Transit Talk takes readers into the world of MTA New York City transit employees, as they describe their lives and work, from the most visible subway conductor to the seemingly invisible mechanic. There are nearly 44,000 transit workers like those you will meet in Transit Talk , and every day they help five million of us travel to work, to school, to weddings, to funerals, to hospitals, to vacations. These workers labor daily on subway tracks inches from high-voltage powerlines, risking their lives for passengers they'U never know. The city can feel large and fragmented, but the transportation system and its workers create common threads in the lives of all New Yorkers, threads we take for granted. Together, their stories create a human tableau of life and labor in the city within a city that is the MTA New York City Transit. Transit workers find satisfaction in fixing a damaged subway car, gain wisdom from mastering a dangerous workplace, nurse emotional wounds from tending to someone injured in an accident, battle frustration from difficulties with management, and express satisfaction when reflecting on a productive career. They tell of how years spent in the same shop create bonds between workers. They talk of the burden of laboring in a twenty-four-hour system with night shifts and weekend workdays that take them away from families. You'U hear painful tales of informing next-of-kin of a death on the tracks as well as joyous anecdotes of workers delivering a baby in a subway car.
