Killing for Land in Early California Frank H. Baumgardner, 2005 This is a history of the clash between the White settlers and the Native Americans in what is now an affluent county in California. The frontier wars gave land and gold to Whites and reservations to the Native Americans. Eyewitness accounts and extensive research show the conflicting roles played by the Army, State Legislature and the US Congress-- Provided by publisher.

California Finfish and Shellfish Identification Book , 2006

The Dream Endures: California Enters the 1940s Kevin Starr, 1997-03-19 The fifth volume in Starr's classic history of California, *The Dream Endures* shows how Californians rebounded from the Great Depression to emerge in the 1930s into what is now

known as the good life. Starr illustrates the ways the good life prospered in California--in film, fiction, leisure, and architecture. Starr looks at the newly important places where Californians lived out this sunny lifestyle: areas like Los Angeles (where Hollywood lived), Palm Springs (where Hollywood vacationed), San Diego (where the Navy went), the California Institute of Technology in Pasadena (where Einstein changed his view of the universe), and college towns like Berkeley. In this, more than any other of Starr's monumental California histories, we see the stirrings of uniqueness in the social and cultural evolution of California. Starr's theme is relevant to all of America and the national destiny.--Neil Morgan, San Diego Union-Tribune Enormously sensitive and moving. Social and cultural history doesn't get any better.--San Francisco Chronicle In his monumental continuing study of California, Kevin Starr belongs in the company of the best.--Herbert Gold, Los Angeles Times Book Review

Walkabout Northern California Tom

Courtney, 2019-02-19 Plan and Enjoy Self-Guided Inn-to-Inn Hikes Leave the car behind, and go on a multiday hiking adventure in Northern California. Cross the Sierra in the footsteps of pioneers, staying in cabins beside clear mountain lakes. Take a romantic stroll along the beautiful Mendocino Coast, and sample gourmet cuisine at inns overlooking the Pacific Ocean. Explore the hydrothermal landscapes in Lassen Volcanic National Park, where you can relax with a muscle-soothing soak in hot springs. Walkabout Northern California gives you the information you need to create a wilderness vacation that lets you end each day with a comfortable bed, a great meal, and perhaps even a hot tub. This fully updated, full-color edition describes 14 walks (or walkabouts) in the wilds of Northern California: along the Pacific Coast, through the Sierra Nevada

Mountains, in the Cascades, and around the parklands of the San Francisco Bay. Each entry includes all the necessary details to create a memorable and invigorating vacation—with a map, mile-by-mile details of the route, logistical tips on places to stay and eat, and inspirational ideas to simplify your travel and reconnect with nature's rhythm. Some hikes can take a week, but many can be enjoyed in a weekend. Some are challenging, but many are perfect for the casual hiker. With a light day pack and a few reservations, you can travel for days along California's breathtaking coastline or over its vast mountain ranges. Follow author Tom Courtney on a northern California walkabout, so you can create a human-powered vacation in wilderness and in comfort.

California Crackup Joe Mathews, Mark Paul, 2010
California Crackup is brilliant. It cuts through the familiar tangle of diagnoses and quick-fix solutions to provide a comprehensive and persuasive analysis of California's dysfunctional governmental system. Paul and Mathews have coolly laid out a complicated story, made it readable, sometimes even comedic. It is the best discussion of the issue I've seen in over three decades.--Peter Schrag, author of California: America's High-Stakes Experiment I know of no other work that combines so succinctly and enjoyably a historical summary of California's existing problems with such a sweeping and provocative program of reform.--Ethan Rarick, University of California, Berkeley Mark Paul and Joe Mathews have produced an indispensable guide to California's crisis of governance--and they have done so with humor, scholarship, fairness and storytelling verve. Every Californian should read this book.--Steve Coll, Pulitzer Prize-winning author of Ghost Wars Mark Paul... has a talent for presenting California Big Think stuff in an easily

accessible and always readable way...[offering] clear and creative insights on the subject of California's collapse.--CalBuzz Joe Mathews has done an artful, fascinating, and convincing job of connecting the California of today's Schwarzenegger era to the long history that made his rise possible.--James Fallows, The Atlantic Monthly on Mathews' book, The People's Machine

History of California Helen Elliott

Bandini, 2017-06-22 Chapter I. The Land and the Name Once upon a time, about four hundred years ago, there was published in old Spain a novel which soon became unusually popular. The successful story of those days was one which caught the fancy of the men, was read by them, discussed at their gatherings, and often carried with them when they went to the wars or in search of adventures. This particular story would not interest readers of to-day save for this passage: Know that on the right hand of the Indies there is an island called California, very near the Terrestrial Paradise, and it is peopled by black women who live after the fashion of Amazons. This island is the strongest in the world, with its steep rocks and great cliffs, and there is no metal in the island but gold. There is no doubt that some bold explorer, crossing over from Spain to Mexico and enlisting under the leadership of the gallant Cortez, sailed the unknown South Sea (the Pacific) and gave to the new land discovered by one of Cortez's pilots the name of the golden island in this favorite story. This land, thought to be an island, is now known to us as the peninsula of Lower California. The name first appeared in 1542 on the map of Domingo Castillo, and was soon applied to all the land claimed by Spain from Cape San Lucas up the coast as far north as 44¹/₄, which was probably a little higher than any Spanish explorer had ever sailed. Sir Francis Drake, says the old chronicle, was the

first Englishman to sail on the back side of America, and from that time until now California has been considered the back door of the country. This was natural because the first settlements in the United States were along the Atlantic seacoast. The people who came from England kept their faces turned eastward, looking to the Mother Country for help, and watching Europe, and later England herself, as a quarter from which danger might come, as indeed it did in the war of the Revolution and that of 1812. During the last few years, however, various events have happened to change this attitude. Through its success in the late Spanish war the United States gained confidence in its own powers, while the people of the old world began to realize that the young republic of the western hemisphere, since it did not hesitate to make war in the interests of humanity, would not be apt to allow its own rights to be imposed upon. The coming of the Philippine and Hawaiian Islands under the protection of the United States, the Russo-Japanese war, which opened the eyes of the world to the strength of Japan and the wisdom of securing its trade, and the action of the United States in undertaking the building of the Panama Canal, are indications that the Pacific will in the future support a commerce the greatness of which we of to-day cannot estimate. With danger from European interference no longer pressing closely upon the nation, President Roosevelt in 1907 took a decided step in recognizing the importance of the Pacific when he sent to that coast so large a number of the most modern vessels of the navy....

Americans and the California Dream, 1850-1915

Kevin Starr, 1973-05-10 Examining California's formative years, this innovative study seeks to discover the origins of the California dream and the social, psychological, and symbolic impact it has had not only on Californians but also on the

rest of the country.

California Vieja Phoebe S. Kropp, Phoebe Schroeder Kropp Young, 2008-08-19 This is a rich and learned volume that has a story to tell to those seeking to understand contemporary Southern California.—David Johnson, managing editor of the Pacific Historical Review Engagingly written and well researched, California Vieja is an intriguing, persuasive examination of the politics of memory and the built environment in southern California.—Vicki Ruiz, author of From Out of the Shadows: Mexican Women in Twentieth-Century America

The California Field Atlas Obi Kaufmann, 2017-09 [A] gorgeously illustrated compendium.--Sunset This lavishly illustrated atlas takes readers off the beaten path and outside normal conceptions of California, revealing its myriad ecologies, topographies, and histories in exquisite maps and trail paintings. Based on decades of exploring the backcountry of the Golden State, artist-adventurer Obi Kaufmann blends science and art to illuminate the multifaceted array of living, connected systems like no book has done before. Kaufmann depicts layer after layer of the natural world, delighting in the grand scale and details alike. The effect is staggeringly beautiful: presented alongside California divided into its fifty-eight counties, for example, we consider California made up of dancing tectonic plates, of watersheds, of wildflower gardens. Maps are enhanced by spirited illustrations of wildlife, keys that explain natural phenomena, and a clear-sighted but reverential text. Full of character and color, a bit larger than life, The California Field Atlas is the ultimate road trip companion and love letter to a place.

The California Surf Project Eric Soderquist, Chris Burkard, 2009-04-22 Quit your job, pack your boards, and surf your way down the

California coast.... Sound like a daydream? The California Surf Project is the fully illustrated travel diary of two surfers who took this trip of a lifetime. Chris Burkard, a talented photographer, and Eric Soderquist, a professional surfer, cajoled their Volkswagen bus along Highway 1 from the Oregon border to the Tijuana Sloughs and discovered everything the Golden State's legendary coastline has to offer. Relive their incredible adventure of surfing perfect waves, sharing campfires with total strangers, and keeping the bus running with duct tape and prayers in more than 200 gorgeous photographs, soulful text, and a professionally produced thirty-minute DVD.
