are told incessantly that we should exercise, but not accurately
how we need to exercise to usefully improve our health. Many are
now wasting time doing far more incorrect exercise than is useful.
Author and scientific analyst Forrest Blanding first showed the

His new book is cited as excellent by top authority Dr. Kenneth Cooper, who is known as the Father of aerobic exercise. *Cardio Fitness Can Save Your Life* provides new insights on how we need to exercise to achieve better health. He shows us how to measure our cardio progress with a new, simple-to-use Cardiofitness Point method, and how a correct Cardio Fitness ratio can be more important to our health and future life than cholesterol, blood pressure, or even smoking! He shows how proper walking can be ten times more productive to health than ordinary walking. He also shows readers how to formulate new and more efficient moderate exercise programs for cardio and overall health, and how to make our future years significantly more healthy and enjoyable!

Cardio Sucks! Michael Matthews, 2012-11-01 If you're short on time and sick of the same old boring cardio routine and want to kick your fat loss into high gear by working out less and...heaven forbid...actually have some fun...then you want to read this new book. Here's the deal: The old school of cardio has you doing grinding, grueling long-distance runs or bike rides for hours and hours each week to burn a little bit of fat and, unfortunately, eat away muscle too (giving you that skinny and flabby look). Fortunately, the science of exercise has progressed and the new school of cardio has arrived, and it's a dream come true. If you follow the rules of the new school of cardio, you can have a lean, toned body by working out less than 20 minutes per day (you can even get in an intense, fat-burning workout in 5 minutes if you know what you're doing!). In this book, you're going to learn how

to spend less time exercising to burn more fat and build muscle, and you won't have to ever step foot in a gym if you don't want to. And it's a fast read--no fluff here. Here are some of the secrets you'll learn inside: The 4 biggest weight loss myths and mistakes that keep people fat and stuck in a rut. If you've fallen victim to any of these (and most people have), you NEED to have this information. The 3 simple laws of healthy fat loss. All workable weight-loss methods rely on the three simple rules to achieve results, and once you know them, you don't need to chase fads. Why long-distance jogging is an incredibly inefficient way to lose weight and what you should do instead to have a lean, sexy body that you're proud of. (The good news is it's easy and takes no more than 20 minutes per day!) A fat-incinerating method of cardio that you can literally do during the 2-3 minute commercial breaks of your favorite TV shows. 4 killer circuit training workouts that not only melt fat but give you hard, rippling muscles that will make people green with envy. And more... This book is for people that hate doing cardio and want to squeeze every ounce of fat loss possible out of their workouts. Forget pounding the pavement for hours and hours every week just to lose a little fat and muscle. Follow the methods taught in this book and you can torch fat in a fraction of the time and get tight, toned muscles (and you might actually have some fun too!). **SPECIAL BONUS FOR READERS!** With this book you'll also get a free 23-page bonus report from the author called 12 Health & Fitness Mistakes You Don't Know You're Making. Raise the Barre Richard Giorla, Laurel House, 2009-10-06 A comprehensive guide to the hottest new fitness program in the country—Cardio Barre—a dance-based workout that combines cardio, strength training and stretching, in one fast-paced, fat-burning, body-lengthening session. With a full nutrition program as well, you'll see life-changing results in only eight weeks. While yoga, pilates, aerobics and weightlifting are all successful, popular fitness routines, each one of them is missing something that the others offer. And with our hectic lives that leave little time for sleep, let alone hours of daily exercise, the Cardio Barre workout is the perfect combination of cardio, strength training and stretching—achieving multiple desired results from one fast-paced workout. Richard Giorla is a classically trained dancer who has learned from his decades of training that the key to strength and endurance is developing core muscle—the center of the body must be strong in order to support the other areas of the body. In Cardio Barre, you work from your core—maintaining your balance using a barre, a countertop, a chair, or even your own strength—then repeat low-resistance motions such as plies, arm extensions, and leg flexes. With no kicking, jumping, or punching, this effective and complete workout leaves participants with long, lean muscles, flexibility, and endurance. With the success of the Cardio Barre workout in LA, where it has gained celebrity adherents and a long waiting list of others, as well as the recent launch of Cardio Barre in New York, this is poised to become the new it workout. And unlike past fitness fads, Cardio Barre sets realistic goals, including following a healthy eating program, and offers the desired results of both cardio health and strength in only eight weeks.

The All-natural Cardio Cure Allan Magaziner, Batya Swift Yasgur, 2004 A proven program to prevent, treat, and reverse cardiovascular disease and risk factors naturally, using diet, exercise, nutritional supplementation, and relaxation techniques- and without the use of pharmaceutical drugs. Americans are obsessed with heart health, yet most of us don't do the most basic things to take care of ours. In *The All-Natural Cardio Cure*, Dr. Allan Magaziner outlines a program for heart health that works to prevent, treat, and reverse the causes of cardiovascular problems, rather than merely treating them once they arise. Developed in clinical practice, Magaziner's comprehensive approach can help to:

- * lower blood cholesterol and triglycerides;
- * inhibit the inflammatory processes that lead to hardening of the arteries;
- * reduce blood pressure;
- * decrease the risk of heart attack and stroke; and
- * improve overall health.

The All-Natural Cardio Cure has actually helped many people to eliminate or reduce their need for medication. The keys to this strategy are specific elements of diet, exercise, nutritional supplementation, and relaxation techniques, integrated in a clearly delineated way that is easy to follow and, most important, proven effective.
