The Land of Laughs Jonathan Carroll, 2010-04-01 Have you ever loved a magical book above all others? Have you ever wished the magic were real? Welcome to The Land of Laughs. A novel about how terrifying that would be. Schoolteacher Thomas Abbey, unsure son of a film star, doesn't know who he is or what he wants--in life, in love, or in his relationship with the strange and intense Saxony Gardner. What he knows is that in his whole life nothing has touched him so deeply as the novels of Marshall France, a reclusive author of fabulous children's tales who died at forty-four. Now Thomas and Saxony have come to France's hometown, the dreamy Midwestern town of Galen, Missouri, to write France's biography. Warned in advance that France's family may oppose them, they're surprised to find France's daughter warmly welcoming instead. But slowly they begin to see that something fantastic and horrible is happening. The magic of Marshall France has extended far beyond the printed page...leaving them with a terrifying task to undertake. The Life and Times of John Carroll Peter Guilday, 1922

A Tangled Tale (1885). by Lewis Carroll, Arthur B. Frost, 2017-11-05 A Tangled Tale is a collection of 10 brief humorous stories by Lewis Carroll (Charles Lutwidge Dodgson), published serially between April 1880 and March 1885 in The Monthly Packet magazine. Arthur B. Frost added illustrations when the series was printed in book form. The stories, or Knots as Carroll calls them, present mathematical problems. In a later issue, Carroll gives the solution to a Knot and discusses readers' answers. The mathematical interpretations of the Knots are not always straightforward. The ribbing of readers answering wrongly - giving their names - was not always well received (see Knot VI below). In the December 1885 book preface Carroll writes: The writer's intention was to embody in each Knot (like medicine so dexterously, but ineffectually, concealed in the jam of our early childhood) one or more mathematical questions - in Arithmetic, Algebra, or Geometry, as the case might be - for the amusement, and possible edification, of the fair readers of that magazine. Describing why he was ending the series, Carroll writes to his readers that the Knots were but a lame attempt. Others were more receptive: In 1888 Stuart Dodgson Collingwood wrote, With some people, this is the most popular of all his books; it is certainly the most successful attempt he ever made to combine mathematics and humour. They have more recently been described as having all the charm and wit of his better-known works..... Arthur Burdett Frost (January 17, 1851 - June 22, 1928), usually cited as A. B. Frost, was an American illustrator, graphic artist and comics writer. He was also well known as a painter. Frost's work is well known for its dynamic representation of motion and sequence. Frost is considered one of the great illustrators in the Golden Age of American Illustration. Frost illustrated over 90 books and produced hundreds of paintings; in addition to his work in illustrations, he is renowned for realistic hunting and shooting prints..... Charles Lutwidge Dodgson (27 January 1832 - 14 January 1898), better known by

his pen name Lewis Carroll, was an English writer, mathematician, logician, Anglican deacon, and photographer. His most famous writings are Alice's Adventures in Wonderland, its sequel Through the Looking-Glass, which includes the poem Jabberwocky, and the poem The Hunting of the Snark - all examples of the genre of literary nonsense. He is noted for his facility at word play, logic and fantasy. There are societies in many parts of the world dedicated to the enjoyment and promotion of his works and the investigation of his life. From a young age, Dodgson wrote poetry and short stories, contributing heavily to the family magazine Mischmasch and later sending them to various magazines, enjoying moderate success. Between 1854 and 1856, his work appeared in the national publications The Comic Times and The Train, as well as smaller magazines such as the Whitby Gazette and the Oxford Critic. Most of this output was humorous, sometimes satirical, but his standards and ambitions were exacting. I do not think I have yet written anything worthy of real publication (in which I do not include the Whitby Gazette or the Oxonian Advertiser), but I do not despair of doing so some day, he wrote in July 1855. Sometime after 1850, he did write puppet plays for his siblings' entertainment, of which one has survived: La Guida di Bragia. In 1856, he published his first piece of work under the name that would make him famous. A romantic poem called Solitude appeared in The Train under the authorship of Lewis Carroll.

Biographical Sketch of the Most Rev. John Carroll: First Archbishop of Baltimore John Carroll Brent, Daniel Brent, 2024-03-07 Reprint of the original, first published in 1843.

American Cicero Bradley J. Birzer, 2014-04-22 Aristocrat. Catholic. Patriot. Founder. Before his death in 1832, Charles Carroll of Carrollton—the last living signer of the Declaration of Independence—was widely regarded as one of the most important Founders. Today, Carroll's signal contributions to the American Founding are overlooked, but the fascinating new biography American Cicero rescues Carroll from unjust neglect. Drawing on his considerable study of Carroll's published and unpublished writings, historian Bradley J. Birzer masterfully captures a man of supreme intellect, imagination, integrity, and accomplishment. Born a bastard, Carroll nonetheless became the best educated (and wealthiest) Founder. The Marylander's insight, Birzer shows, allowed him to recognize the necessity of independence from Great Britain well before most other Founders. Indeed, Carroll's analysis of the situation in the colonies in the run-up to the Revolution was original and brilliant—yet almost all historians have ignored it. Reflecting his classical and liberal education, the man who would be called “The Last of the Romans” advocated a proper understanding of the American Revolution as deeply rooted in the Western tradition. Carroll even left his mark on the U.S. Constitution despite not assuming his elected position to the Constitutional Convention: by inspiring the creation of the U.S. Senate. American Cicero ably demonstrates how Carroll's Catholicism was integral to his thought. Oppressed because of his faith—Maryland was the most anti-Catholic of the original thirteen colonies—Carroll became the only Roman Catholic to sign the Declaration of Independence and helped legitimize Catholicism in the young American republic. What's more, Birzer brilliantly reassesses the most controversial aspects of Charles Carroll: his aristocratic position and his critiques of democracy. As Birzer shows, Carroll's fears of extreme democracy had ancient and noble roots, and his arguments about the dangers of

democracy influenced Alexis de Tocqueville's magisterial work *Democracy in America*. American Cicero reveals why Founders such as John Adams assumed that Charles Carroll would one day be considered among the greats—and also why history has largely forgotten him.

Something Deeply Hidden Sean Carroll, 2020-09-01 INSTANT NEW YORK TIMES BESTSELLER As you read these words, copies of you are being created. Sean Carroll, theoretical physicist and one of this world's most celebrated writers on science, rewrites the history of twentieth-century physics. Already hailed as a masterpiece, *Something Deeply Hidden* shows for the first time that facing up to the essential puzzle of quantum mechanics utterly transforms how we think about space and time. His reconciling of quantum mechanics with Einstein's theory of relativity changes, well, everything. Most physicists haven't even recognized the uncomfortable truth: Physics has been in crisis since 1927. Quantum mechanics has always had obvious gaps—which have come to be simply ignored. Science popularizers keep telling us how weird it is, how impossible it is to understand. Academics discourage students from working on the dead end of quantum foundations. Putting his professional reputation on the line with this audacious yet entirely reasonable book, Carroll says that the crisis can now come to an end. We just have to accept that there is more than one of us in the universe. There are many, many Sean Carrolls. Many of every one of us. Copies of you are generated thousands of times per second. The Many-Worlds theory of quantum behavior says that every time there is a quantum event, a world splits off with everything in it the same, except in that other world the quantum event didn't happen. Step-by-step in Carroll's uniquely lucid way, he tackles the major objections to this otherworldly revelation until his case is inescapably established. Rarely does a book so fully reorganize how we think about our place in the universe. We are on the threshold of a new understanding—of where we are in the cosmos, and what we are made of.

Win Forever Pete Carroll, Yogi Roth, Kristoffer A. Garin, 2011-08-02 I know that I'll be evaluated in Seattle with wins and losses, as that is the nature of my profession for the last thirty-five years. But our record will not be what motivates me. Years ago I was asked, 'Pete, which is better: winning or competing?' My response was instantaneous: 'Competing. . . because it lasts longer.' Pete Carroll is one of the most successful coaches in football today. As the head coach at USC, he brought the Trojans back to national prominence, amassing a 97-19 record over nine seasons. Now he shares the championship-winning philosophy that led USC to seven straight Pac-10 titles. This same mind-set and culture will shape his program as he returns to the NFL to coach the Seattle Seahawks. Carroll developed his unique coaching style by trial and error over his career. He learned that you get better results by teaching instead of screaming, and by helping players grow as people, not just on the field. He learned that an upbeat, energetic atmosphere in the locker room can coexist with an unstoppable competitive drive. He learned why you should stop worrying about your opponents, why you should always act as if the whole world is watching, and many other contrarian insights. Carroll shows us how the Win Forever philosophy really works, both in NCAA Division I competition and in the NFL. He reveals how his recruiting strategies, training routines, and game-day rituals preserve a team's culture year after year, during championship seasons and disappointing seasons

alike. Win Forever is about more than winning football games; it's about maximizing your potential in every aspect of your life. Carroll has taught business leaders facing tough challenges. He has helped troubled kids on the streets of Los Angeles through his foundation A Better LA. His words are true in any situation: If you want to win forever, always compete.

Autobiography and Reminiscences of John W. Carroll John W. Carroll, 2017-11-04 LARGE PRINT EDITION: My only apology for writing whatever may appear on the following pages is that I may leave on record a brief synopsis of my very tame and uneventful life; that my four little grandsons of whom I am very proud, may have an opportunity in after life to take a slight glance at some of the events transpiring in the short life of their paternal grandfather, in the hope that they may improve on my successes (if it can be said that I have had such) and profit by my mistakes which have been many. To them - Raymond Trice Carroll, John Murchison Carroll, Thomas Burns Carroll, and Kirk McKenzie Carroll - the following lines are affectionately dedicated by their grandfather, My great grandfather Carroll immigrated to this country from Ireland many years before the Revolutionary War. Landing in Maryland, the family drifted into North and South Carolina and finally some of them to Tennessee. He and several brothers were in the American army during the entire war, as were also some of his oldest sons. Grandfather Joseph Carroll was about eighty years of age at the close of the Revolutionary War, as he has related to me many times by way of entertainment with many other stirring scenes calculated to live in the tablets of the mind of a small but intensely interested boy. He emigrated to Middle Tennessee in his young manhood, bringing with him five thousand dollars, quite a little fortune for that day and time, where he engaged in farming. Let me say in regard to his character that he was one of those big-hearted, open-handed Irishmen, who loved a dram and occasionally took too much, and when in those happy moods became endorser for other men, which finally nearly exhausted all his means, leaving himself and family in straitened circumstances. (Boys, become surety for no man.) He soon after emigrated to West Tennessee, settling in Henderson County, then sparsely settled. Here he recuperated somewhat, his lost fortune, but never fully. About this time war was declared by the United States against Great Britain. He immediately volunteered and took part in the battle of New Orleans, Jan. 8th, 1815. It was of great interest to me when a lad to have him relate to me some of the many incidents of camp life and of how he and some comrades on the evening before the battle walked down the line of battle and found one poor fellow down praying and crying, scared almost to death, before there had been a shot fired, and of how they upbraided him for his cowardice; about the death of Gen. Pakenham, the British general, etc. These recitals fired my youthful heart with a burning patriotism and how I wished to wear a uniform; to hear strains of martial music and the roar of cannon; and see glorious war. I thought such things would never come in my day, but alas! they did. Let the sequel tell. Of my mother's people I knew but little, save that they immigrated to this country shortly after the Revolutionary War from Scotland. My mother's maiden name was Susan Ann Burns, a Christian woman in deed and in truth, small in stature never weighing as much as one hundred pounds in her life; afflicted always after I knew her, but ever cheerful, always looking well to the wars of her household. She ate not the bread of idleness. My

mother's eldest brother, Samuel Burns, was elected Major of a volunteer battalion to go to New Orleans with Gen. Jackson, but, arriving at the place of rendezvous too late, he with his command, was among the number that were refused, owing to the great number of men offering their service. Many were turned away sadly disappointed.

What Do We Need Men For? E. Jean Carroll, 2019-07-02 As seen on the cover of New York Magazine, America's longest running advice columnist goes on the road to speak to women about hideous men and whether we need them. Carroll's lively prose careens in constant pursuit of pleasure...indefatigably funny and full of life. –Lindsay Zoladz, The Ringer “Darkly humorous and deadly serious.” –Sibbie O'Sullivan, Washington Post “A compulsively interesting feminist memoir.” –Virginia Heffernan, Slate Somehow hilarious, in the way that only E. Jean could have written it –Leigh Haber, Oprah Magazine “Roving, curious, compassionate, whimsical.” –Megan Garber, The Atlantic When E. Jean Carroll—possibly the liveliest woman in the world and author of the “Ask E. Jean” advice column in Elle Magazine, realized that her eight million readers and question-writers all seemed to have one thing in common—problems caused by men—she hit the road. Crisscrossing the country with her blue-haired poodle, Lewis Carroll, E. Jean stopped in every town named after a woman between Eden, Vermont and Tallulah, Louisiana to ask women the crucial question: What Do We Need Men For? E. Jean gave her rollicking road trip a sly, stylish turn when she deepened the story, creating a list called “The Most Hideous Men of My Life,” and began to reflect on her own sometimes very dark history with the opposite sex. What advice would she have given to her past selves—as Miss Cheerleader USA and Miss Indiana University? Or as the fearless journalist, television host, and eventual advice columnist she became? E. Jean intertwines the stories of the fascinating people she meets on her road trip with her “horrible history with the male sex” (including mafia bosses, media titans, boyfriends, husbands, a serial killer, and a president), creating a decidedly dark yet hopeful, hilarious, and thrilling narrative. Her answer to the question What Do We Need Men For? will shock men and delight women.
