365 Sports Cars You Must Drive John Lamm, Steve Sutcliffe, Larry Edsall, James Mann, Kris Palmer, 2020-10-27 *365 Sports Cars You Must Drive* puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase getting there is half the fun must have owned a sports car. And the wag who suggested that it's the journey not the destination? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?

The All-American Muscle Car Jim Wangers, Colin Comer, Randy Leffingwell, Joe Oldham, David Newhardt, Darwin Holmstrom, 2013-05-26 The birth of the muscle car, mid-sized cars with big engines making big horsepower, marked not only a revolution in performance—but also a revolution in marketing. For the first time ever, car manufacturers tailored their product to a youth audience. The genre thrived in the 60s and early 70s and was reborn in the 21st century. The All-American Muscle Car celebrates the fifty-year history of the breed through stunning modern and archival photography, and brilliant essays from today's top muscle-car writers. Organized by themes, its chapters cover the introduction and early years of muscle; the cultural trends that made muscle cars so wildly

popular; the pop culture that surrounded the cars in music, film, and television; and racing, both legal and illegal. Great rivalries are detailed—Camaro versus Mustang versus Firebird versus Challenger versus —Cuda, GTO versus Road Runner versus Super Bee versus Chevelle SS versus Buick Gran Sport versus Oldsmobile 4-4-2, and the like. The book also explores the illogical extremes at the end of the classic era, the Plymouth Superbirds, GTO Judges, LS6 Chevelles, Hemi —Cudas, W-30 Oldsmobiles, Ram Air IV Pontiacs, Stage I GSX Buicks, and 440/6 Road Runners; the dark years and the death of performance; the rebirth of the muscle car; and the modern interpretations of the breed including the new Camaro, Mustang, and Challenger.

The American Custom Car Pat Ganahl, 2001 Among the hardest core of American automotive enthusiasts there always exists a desire to press styling and performance a step beyond the showroom floor -- to truly craft an automobile of one's own. This photographic and cultural history examines the evolution of American custom cars from the 1930s to present, covering touchstone trends, influential builders (Barris, Roth, Coddington et al), custom shows, enthusiast magazines and regional styles. An expensive collection of rare period photography and exclusive modern shots help illustrate how Detroit informed the styling of customs (and vice versa), the explosion of the custom car scene after World War II and the factors that led to the custom's near-death in the 1960s and its resurgence in the '80s. But most of all, this chronicle is a showcase of the great cars and people who influenced the movement through the years.
