Reports of Decisions in Criminal Cases Made at Term, at Chambers, and in the Courts of Oyer and Terminer of the State of New York Amasa Junius Parker, 1860

Chambers's Journal of Popular Literature, Science and Arts , 1853

Perjury Allen Weinstein, 1997 On August 3, 1948, Time magazine editor Whittaker Chambers made a stunning allegation before the House Un-American Activities Committee: Alger Hiss, former high-ranking State Department official, had served with him in the Communist underground. Hiss's defense was the gripping story of its day, and the question of his guilt remains an enigma. This book provides fascinating insights into the case and into the American political life of the 1930s and 1940s. of photos.

Chambers's Miscellany of Useful and Entertaining

Tracts William Chambers, Robert Chambers, 1846

Closed Chambers Edward Lazarus, 2005-05-03 When *Closed Chambers* was first published, it was met with a firestorm of controversy—as well as a shower of praise—for being the first book to break the code of silence about the inner workings of this country's most powerful court. In this eloquent, trailblazing account, with a new chapter covering *Bush v. Gore*, Guantanamo, and other recent controversial court decisions, Edward Lazarus, who served as a clerk to Justice Harry Blackmun, presents a searing indictment of a court at war with itself and often in neglect of its constitutional duties. Combining memoir, history, and legal analysis, Lazarus reveals in astonishing detail the realities of what takes place behind the closed doors of the U.S. Supreme Court—an institution that through its rulings holds the power to affect the life of every American.

Whittaker Chambers Sam Tanenhaus, 2011-04-20 *Whittaker Chambers* is the first biography of this complex and enigmatic figure. Drawing on dozens of interviews and on materials from forty archives in the United States and abroad—including still-classified KGB dossiers--Tanenhaus traces the remarkable journey that led Chambers from a sleepy Long Island village to center stage in America's greatest political trial and then, in his last years, to a unique role as the godfather of post-war conservatism. This biography is rich in startling new information about Chambers's days as New York's hottest literary Bolshevik; his years as a Communist agent and then defector, hunted by the KGB; his conversion to Quakerism; his secret

sexual turmoil; his turbulent decade at Time magazine, where he rose from the obscurity of the book-review page to transform the magazine into an oracle of apocalyptic anti-Communism. But all this was a prelude to the memorable events that began in August 1948, when Chambers testified against Alger Hiss in the spy case that changed America. Whittaker Chambers goes far beyond all previous accounts of the Hiss case, re-creating its improbably twists and turns, and disentangling the motives that propelled a vivid cast of characters in unpredictable directions. A rare conjunction of exacting scholarship and narrative art, Whittaker Chambers is a vivid tapestry of 20th century history.

Hill Women Cassie Chambers, 2021-01-12 After rising from poverty to earn two Ivy League degrees, an Appalachian lawyer pays tribute to the strong "hill women" who raised and inspired her, and whose values have the potential to rejuvenate a struggling region. "Destined to be compared to Hillbilly Elegy and Educated."—BookPage (starred review) "Poverty is enmeshed with pride in these stories of survival."—Associated Press Nestled in the Appalachian mountains, Owsley County is one of the poorest counties in both Kentucky and the country. Buildings are crumbling and fields sit vacant, as tobacco farming and coal mining decline. But strong women are finding creative ways to subsist in their hollers in the hills. Cassie Chambers grew up in these hollers and, through the women who raised her, she traces her own path out of and back into the Kentucky mountains. Chambers's Granny was a child bride who

rose before dawn every morning to raise seven children. Despite her poverty, she wouldn't hesitate to give the last bite of pie or vegetables from her garden to a struggling neighbor. Her two daughters took very different paths: strong-willed Ruth—the hardest-working tobacco farmer in the county—stayed on the family farm, while spirited Wilma—the sixth child—became the first in the family to graduate from high school, then moved an hour away for college. Married at nineteen and pregnant with Cassie a few months later, Wilma beat the odds to finish school. She raised her daughter to think she could move mountains, like the ones that kept her safe but also isolated her from the larger world. Cassie would spend much of her childhood with Granny and Ruth in the hills of Owsley County, both while Wilma was in college and after. With her “hill women” values guiding her, Cassie went on to graduate from Harvard Law. But while the Ivy League gave her knowledge and opportunities, its privileged world felt far from her reality, and she moved back home to help her fellow rural Kentucky women by providing free legal services. Appalachian women face issues that are all too common: domestic violence, the opioid crisis, a world that seems more divided by the day. But they are also community leaders, keeping their towns together in the face of a system that continually fails them. With nuance and heart, Chambers uses these women's stories paired with her own journey to break down the myth of the hillbilly and illuminate a region whose poor communities, especially women, can lead it into the future.

Julius Chambers Richard A. Rosen, Joseph Mosnier, 2016-10-18 Born in the hamlet of Mount Gilead, North Carolina, Julius Chambers (1936–2013) escaped the fetters of the Jim Crow South to emerge in the 1960s and 1970s as the nation's leading African American civil rights attorney. Following passage of the Civil Rights Act of 1964, Chambers worked to advance the NAACP Legal Defense Fund's strategic litigation campaign for civil rights, ultimately winning landmark school and employment desegregation cases at the U.S. Supreme Court. Undaunted by the dynamiting of his home and the arson that destroyed the offices of his small integrated law practice, Chambers pushed federal civil rights law to its highwater mark. In this biography, Richard A. Rosen and Joseph Mosnier connect the details of Chambers's life to the wider struggle to secure racial equality through the development of modern civil rights law. Tracing his path from a dilapidated black elementary school to counsel's lectern at the Supreme Court and beyond, they reveal Chambers's singular influence on the evolution of federal civil rights law after 1964.

The American Black Chamber Herbert O. Yardley, 2013-01-15 During the 1920s Herbert O. Yardley was chief of the first peacetime cryptanalytic organization in the United States, the ancestor of today's National Security Agency. Funded by the U.S. Army and the Department of State and working out of New York, his small and highly secret unit succeeded in breaking the diplomatic codes of several nations, including Japan. The decrypts played a critical role in U.S.

diplomacy. Despite its extraordinary successes, the Black Chamber, as it came to be known, was disbanded in 1929. President Hoover's new Secretary of State Henry L. Stimson refused to continue its funding with the now-famous comment, Gentlemen do not read other people's mail. In 1931 a disappointed Yardley caused a sensation when he published this book and revealed to the world exactly what his agency had done with the secret and illegal cooperation of nearly the entire American cable industry. These revelations and Yardley's right to publish them set into motion a conflict that continues to this day: the right to freedom of expression versus national security. In addition to offering an exposé on post-World War I cryptology, the book is filled with exciting stories and personalities.

Connecting the Dots John Chambers, Diane Brady, 2018-09-25 Silicon Valley visionary John Chambers shares the lessons that transformed a dyslexic kid from West Virginia into one of the world's best business leaders and turned a simple router company into a global tech titan. When Chambers joined Cisco in 1991, it was a company with 400 employees, a single product, and about \$70 million in revenue. When he stepped down as CEO in 2015, he left a \$47 billion tech giant that was the backbone of the internet and a leader in areas from cybersecurity to data center convergence. Along the way, he had acquired 180 companies and turned more than 10,000 employees into millionaires. Widely recognized as an innovator, an industry leader, and one of the world's best CEOs, Chambers has outlasted and outmaneuvered practically every rival that ever tried to take Cisco on--Nortel, Lucent, Alcatel, IBM, Dell, and Hewlett-Packard, to name a few. Now Chambers is sharing his unique strategies for winning in a digital world. From his early lessons and struggles with dyslexia in West Virginia to his bold bets and battles with some of the biggest names in tech, Chambers gives readers a playbook

on how to act before the market shifts, tap customers for strategy, partner for growth, build teams, and disrupt themselves. He also adapted those lessons to transform government, helping global leaders like French President Emmanuel Macron and Indian Prime Minister Narendra Modi to create new models for growth. As CEO of JC2 Ventures, he's now investing in a new generation of game-changing startups by helping founders become great leaders and scale their companies. Connecting the Dots is destined to become a business classic, providing hard-won insights and critical tools to thrive during the accelerating disruption of the digital age.

Wasted Linda Wolfe, 2014-08-26 A New York Times Notable Book: Acclaimed true-crime journalist Linda Wolfe delivers a riveting, comprehensive account of the Preppie Murder, a crime that shocked a city and a nation. It was called the Preppie Murder—a killer and a victim who were attractive, smart, privileged teenagers. On an August night in 1986 Jennifer Levin left a Manhattan bar with Robert Chambers. The next morning, her strangled, battered body was found in Central Park. Linda Wolfe, hailed by critic John Leonard as “one of our best reporters,” goes beyond the headlines and media hype to re-create a story of privilege and excess, sex and partying—of a teenager whose immigrant mother was determined to make a better life for her son, a petty thief and drug user who’d been expelled from the best schools. It’s all here, from the initial police investigation, during which Chambers claimed Levin died accidentally during rough sex, to the media

frenzy of the courtroom, where Chambers took an eleventh-hour plea. Wolfe also delivers heartbreaking portraits of Levin's grief-stricken father, Chambers's in-denial mother, and the women who dated the accused Preppie Killer while he was out on bail. A finalist for the 1990 Edgar Award for Best Fact Crime, *Wasted* also powerfully depicts the freewheeling 1980s society that spawned a generation steeped in violence and the fatal impulses that drove Robert Chambers to kill.

The Chambers Family in Philadelphia Kathryn Chambers Torpey, 2016-12-09 This family history documents the life of George and Elizabeth Chambers; their three children, George Washington, William, and Emma; and their seven grandchildren who were the children of George Washington Chambers. The first part of the narrative describes what little is known about the arrival of George and Elizabeth Chambers in America and the early history of the Chambers family in Philadelphia. The second part of the narrative documents what is known about George Washington Chambers' service in the Civil War, his work as a boatman, and his married life. The third part of the narrative profiles the life of each of George Washington Chambers' children - first the girls and then the boys. The purpose of the document is to chronicle the sequence of major events in the life of the Chambers family; to bring the family back to life, albeit only momentarily; and to depict their fundamental character and outlook on life as a working class family living in Philadelphia during the period 1840 to 1940.

A Psalm for the Wild-Built Becky

Chambers, 2021-07-13 Winner of the Hugo Award! In *A Psalm for the Wild-Built*, bestselling Becky Chambers's delightful new Monk and Robot series, gives us hope for the future. It's been centuries since the robots of Panga gained self-awareness and laid down their tools; centuries since they wandered, en masse, into the wilderness, never to be seen again; centuries since they faded into myth and urban legend. One day, the life of a tea monk is upended by the arrival of a robot, there to honor the old promise of checking in. The robot cannot go back until the question of what do people need? is answered. But the answer to that question depends on who you ask, and how. They're going to need to ask it a lot. Becky Chambers's new series asks: in a world where people have what they want, does having more matter? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Special Messenger (1909). By Robert W. Chambers, 2016-12-15 Robert William Chambers (May 26, 1865 - December 16, 1933) was an American artist and fiction writer, best known for his book of short stories entitled *The King in Yellow*, published in 1895. He was born in Brooklyn, New York, to William P. Chambers (1827-1911), a corporate and bankruptcy lawyer, and Caroline Smith Boughton (1842-1913). His parents met when Caroline was twelve years old and William P. was interning with her father, Joseph Boughton, a prominent corporate lawyer. Eventually the two

formed the law firm of Chambers and Boughton which continued to prosper even after Joseph's death in 1861. Robert's great-grandfather, William Chambers (birth unknown), a lieutenant in the British Royal Navy, was married to Amelia Saunders, (1765-1822), the great grand daughter of Tobias Saunders, of Westerly, Rhode Island. The couple moved from Westerly, to Greenfield, Massachusetts and then to Galway, New York, where their son, also William Chambers, (1798-1874) was born. The second William graduated from Union College at the age of 18, and then went to a college in Boston, where he studied to be a doctor. Upon graduating, he and his wife, Eliza P. Allen (1793-1880), a direct descendant of Roger Williams, the founder of Providence, Rhode Island were among the first settlers of Broadalbin, New York. His brother was architect Walter Boughton Chambers. Robert was first educated at the Brooklyn Polytechnic Institute, and then entered the Art Students' League at around the age of twenty, where the artist Charles Dana Gibson was his fellow student. Chambers studied at the École des Beaux-Arts, and at Académie Julian, in Paris from 1886 to 1893, and his work was displayed at the Salon as early as 1889. On his return to New York, he succeeded in selling his illustrations to Life, Truth, and Vogue magazines. Then, for reasons unclear, he devoted his time to writing, producing his first novel, In the Quarter (written in 1887 in Munich). His most famous, and perhaps most meritorious, effort is The King in Yellow, a collection of Art Nouveau short stories published in 1895. This included several famous weird short stories which

are connected by the theme of a fictitious drama of the same title, which drives those who read it insane. E. F. Bleiler described *The King in Yellow* as one of the most important works of American supernatural fiction. It was also strongly admired by H. P. Lovecraft and his circle. Chambers returned to the weird genre in his later short story collections *The Maker of Moons*, *The Mystery of Choice* and *The Tree of Heaven*, but none earned him as much success as *The King in Yellow*. Some of Chambers's work contains elements of science fiction, such as *In Search of the Unknown* and *Police!!!*, about a zoologist who encounters monsters. Chambers later turned to writing romantic fiction to earn a living. According to some estimates, Chambers had one of the most successful literary careers of his period, his later novels selling well and a handful achieving best-seller status. Many of his works were also serialized in magazines. His novel *The Man They Hanged* was about Captain Kidd, and argued that Kidd was not a pirate, and had been made a scapegoat by the British government. During World War I he wrote war adventure novels and war stories, some of which showed a strong return to his old weird style, such as *Marooned in Barbarians* (1917). After 1924 he devoted himself solely to writing historical fiction. Chambers for several years made Broadalbin, New York, his summer home. Some of his novels touch upon colonial life in Broadalbin and Johnstown. On July 12, 1898, he married Elsa Vaughn Moller (1882-1939). They had a son, Robert Edward Stuart Chambers (who sometimes used the name Robert

Husted Chambers). Robert W. Chambers died on December 16, 1933, after having undergone intestinal surgery three days earlier.
