When the character in the book gets an invitation to visit his Auntie in her book, he's all set to go. But when he tries to get out of his book, he runs into some trouble. He can't get out at the top of the page, and he can't get out at the bottom. So he tries going forward -- and going forward works! By foot, on wheels, unfazed by the occasional mountain or river in his way, the plucky Character finally zips right out of his own book...and right into his auntie's. Race Characters Swati Rana,2020-10-06 A vexed figure inhabits U.S. literature and culture: the visibly racialized immigrant who disavows minority identity and embraces the

American dream. Such figures are potent and controversial, for they promise to expiate racial violence and perpetuate an exceptionalist ideal of America. Swati Rana grapples with these figures, building on studies of literary character and racial form. Rana offers a new way to view characterization through racialization that creates a fuller social reading of race. Situated in a nascent period of ethnic identification from 1900 to 1960, this book focuses on immigrant writers who do not fit neatly into a resistance-based model of ethnic literature. Writings by Paule Marshall, Ameen Rihani, Dalip Singh Saund, Jose Garcia Villa, and Jose Antonio Villarreal symbolize different aspects of the American dream, from individualism to imperialism, assimilation to upward mobility. The dynamics of characterization are also those of contestation, Rana argues. Analyzing the interrelation of persona and personhood, *Race Characters* presents an original method of comparison, revealing how the protagonist of the American dream is socially constrained and structurally driven.

100 Days of Sunlight Abbie Emmons, 2019-08-07 When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition - no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's obnoxious optimism, convinced that he has no

idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. *100 Days of Sunlight* is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

The contributors to *Screening Characters* draw on archival material, interviews, philosophical inquiry, and conceptual analysis in order to give new, thought-provoking answers to these queries. Providing multifaceted accounts of the nature of screen characters, contributions are organized around a series of important subjects, including issues of class, race, ethics, and generic types as they are encountered in moving image media. These topics, in turn, are personified by such memorable figures as Cary Grant, Jon Hamm, Audrey Hepburn, and Seul-gi Kim, in addition to avatars, online personalities, animated characters, and the ensembles of shows such as *The Sopranos*, *Mad Men*, and *Breaking Bad*.

The Evolution of Mammalian Characters D. M.

Kermack,2013-03-09 This book is not intended to give a full and comprehensive account of the Mesozoic mammals, and nor is it intended as a handbook for research workers studying pre-Tertiary mammals. Our intention is to give an account of the origin and evolution of certain of the characters of the Mammalia. We have tried to portray the fossils we describe as the living animals they once were, not as dead bones. Our account ends with the end of the Lower Cretaceous, since by that time the major characters of the mammals had become established. There exist a number of characters which, at the present day, are confined to the Mammalia. These include: (1) a jaw articulation formed by the squamosal and the dentary; (2) a chain of three bones, malleus, incus and stapes connecting the tympanic membrane to the inner ear; (3) the presence of hair or fur; (4) the presence of milk-glands in the female; (5) the left aortic arch is the systemic arch; (6) the phalangeal formula in both manus and pes is 2.3.3.3.3; (7) some of the teeth have more than one root. Of these characters (1) or (2) are sufficient by themselves to define a mammal; characters (6) and (7) are known to have been already in existence in some of the mammal-like reptiles - the ancestors of the mammals.

Character Marjorie Garber, 2020-07-14 What is “character”? Since at least Aristotle’s time, philosophers, theologians, moralists, artists, and scientists have pondered the enigma of human character. In its oldest usage, “character” derives from a word for engraving or stamping, yet over time, it has come to mean a moral idea, a type, a literary persona, and a physical or physiological manifestation observable in works of art and scientific experiments. It is an essential term in drama and the focus of self-help books. In *Character: The History of a Cultural Obsession*, Marjorie Garber points out that character seems more relevant than ever today, omnipresent in discussions of politics, ethics, gender, morality, and the psyche. References to character flaws, character issues, and character assassination and allegations of “bad” and “good” character are inescapable in the media and in contemporary political debates. What connection

does “character” in this moral or ethical sense have with the concept of a character in a novel or a play? Do our notions about fictional characters catalyze our ideas about moral character? Can character be “formed” or taught in schools, in scouting, in the home? From Plutarch to John Stuart Mill, from Shakespeare to Darwin, from Theophrastus to Freud, from nineteenth-century phrenology to twenty-first-century brain scans, the search for the sources and components of human character still preoccupies us. Today, with the meaning and the value of this term in question, no issue is more important, and no topic more vital, surprising, and fascinating. With her distinctive verve, humor, and vast erudition, Marjorie Garber explores the stakes of these confluences, confusions, and heritages, from ancient Greece to the present day.
