Languages, Scripts, and Chinese Texts in East Asia Peter Francis Kornicki, 2018 This is a wide-ranging study of vernacularization in East Asia, examining Chinese script of the early common era, the spread of Chinese Buddhist, Confucian, and medical texts throughout East Asia, all the way to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts.

Chinese Among Others Philip A. Kuhn, 2008-03-27 In this book, distinguished historian Philip A. Kuhn tells the remarkable five-century story of Chinese emigration as an integral part of China's modern history. Although emigration has a much longer past, its modern phase dates from the sixteenth century, when European colonialists began to collaborate with Chinese emigrants to develop a worldwide trading system. The author explores both internal and external migration, complementary parts of a far-reaching process of adaptation that enabled Chinese families to deal with their changing social environments. Skills and institutions developed in the course of internal migration were creatively modified to serve the needs of emigrants in foreign lands. As emigrants, Chinese inevitably found themselves among others. The various human ecologies in which they lived have faced Chinese settlers with a diversity of challenges and opportunities in the colonial and postcolonial states of Southeast Asia, in the settler societies of the Americas and Australasia, and in Europe. Kuhn traces their experiences worldwide alongside those of the others among whom they settled: the colonial elites, indigenous peoples, and rival immigrant groups that have profited from their Chinese minorities but also have envied, feared, and sometimes persecuted them. A rich selection of primary sources allows these protagonists a personal voice to express their hopes, sorrows, and worldviews. The post-Mao era offers emigrants new opportunities to leverage their expatriate status to do business with a Chinese nation eager for their investments, donations, and technologies. The resulting new migration, the author argues, is but the latest phase of a centuries-old process by which Chinese have sought livelihoods away from home.

A Chinaman's Chance Eric Liu, 2014-07-08 From Tony Hsieh to Amy Chua to Jeremy Lin, Chinese Americans are now arriving at the highest levels of American business, civic life, and culture. But what makes this story of immigrant ascent unique is that Chinese Americans are emerging at just the same moment when China has emerged -- and indeed may displace America -- at the center of the global scene. What does it mean to be Chinese American in this moment? And how does exploring that question alter our notions of just what an American is and will be? In many ways, Chinese Americans today are exemplars of the American Dream: during a crowded century and a half, this community has gone from indentured servitude, second-class status and outright exclusion to economic and social integration and achievement. But this narrative obscures too much: the Chinese Americans still left behind, the erosion of the American Dream in general, the emergence -- perhaps -- of a Chinese Dream, and how other Americans will look at their countrymen of Chinese descent if China and America ever become adversaries. As Chinese Americans reconcile competing beliefs about what constitutes success, virtue, power, and purpose, they hold a mirror up to their country in a time of deep flux. In searching, often personal essays that range from the meaning of Confucius to the role of Chinese Americans in shaping how we read the Constitution to why he hates the hyphen in Chinese-American, Eric Liu pieces together a sense of the Chinese American identity in these auspicious years for both countries. He considers his own public career in American media and government; his daughter's efforts to hold and release aspects of her Chinese inheritance; and the still-recent history that made anyone Chinese in America seem foreign and

disloyal until proven otherwise. Provocative, often playful but always thoughtful, Liu breaks down his vast subject into bite-sized chunks, along the way providing insights into universal matters: identity, nationalism, family, and more.

Eurasian Emma Teng, 2013-07-13 In the second half of the nineteenth century, global labor migration, trade, and overseas study brought China and the United States into close contact, leading to new cross-cultural encounters that brought mixed-race families into being. Yet the stories of these families remain largely unknown. How did interracial families negotiate their identities within these societies when mixed-race marriage was taboo and "Eurasian" often a derisive term? In *Eurasian*, Emma Jinhua Teng compares Chinese-Western mixed-race families in the United States, China, and Hong Kong, examining both the range of ideas that shaped the formation of Eurasian identities in these diverse contexts and the claims set forth by individual Eurasians concerning their own identities. Teng argues that Eurasians were not universally marginalized during this era, as is often asserted. Rather, Eurasians often found themselves facing contradictions between exclusionary and inclusive ideologies of race and nationality, and between overt racism and more subtle forms of prejudice that were counterbalanced by partial acceptance and privilege. By tracing the stories of mixed and transnational families during an earlier era of globalization, *Eurasian* also demonstrates to students, faculty, scholars, and researchers how changes in interracial ideology have allowed the descendants of some of these families to reclaim their dual heritage with pride. Ë

We Need Two Worlds Minghuan Li, 1999 A highly informative report on Chinese immigrants in the Netherlands, *We Need Two Worlds* is a clear and well-structured dissertation which presents a considerable amount of new material to existing knowledge of Chinese associations and their role in the Netherlands. The situation in Amsterdam is comparable to Chinese societies in other major cities, e.g. New York and London. This comprehensive study will help Western students, academics, civil servants, politicians and journalists who have an interest in Chinese culture to gain a better understanding of the significance of their associations. It also illustrates how Chinese immigrants live together and operate within a western society.

Chinese Reportage Charles A. Laughlin, 2002-10-11 *Chinese Reportage* details for the first time in English the creation and evolution of a distinctive literary genre in twentieth-century China. Reportage literature, while sharing traditional journalism's commitment to the accurate, nonfictional portrayal of experience, was largely produced by authors outside the official news media. In identifying the literary merit of this genre and establishing its significance in China's leftist cultural legacy, Charles A. Laughlin reveals important biases that impede Western understanding of China and, at the same time, supplies an essential chapter in Chinese cultural history. Laughlin traces the roots of reportage (or baogao wenxue) to the travel literature of the Qing Dynasty but shows that its flourishing was part of the growth of Chinese communism in the twentieth century. In a modern Asian context critical of capitalism and imperialism, reportage offered the promise of radicalizing writers through a new method of literary practice and the hope that this kind of writing could in turn contribute to social revolution and China's national self-realization. *Chinese Reportage* explores the wide range of social engagement depicted in this literature: witnessing historic events unfolding on city streets; experiencing brutal working conditions in 1930s Shanghai factories; struggling in the battlefields and trenches of the war of resistance against Japan, the civil war, and the Korean war; and participating in revolutionary rural, social, and economic transformation. Laughlin's close readings emphasize the literary construction of social space over that of character and narrative structure, a method that brings out the critique of individualism and humanism underlying the genre's aesthetics. *Chinese Reportage* recaptures a critical aspect of leftist culture in China with far-reaching implications for historians and sociologists as well as literary scholars.

Chinese and Americans Guoqi Xu, 2014-10-13 Using culture rather than politics or economics as a reference point, Xu Guoqi highlights significant yet neglected cultural exchanges in which China and America have contributed to each other's national development, building the foundation of what Zhou Enlai called a relationship of "equality and mutual benefit."

Ezra Pound's Chinese Friends Ezra Pound, 2008-02-21 No literary figure of the past century is comparable to Ezra Pound in the scope and depth of his exchange with China. In this book 162 previously unpublished letters between Pound and nine Chinese intellectuals, accompanied by introductions and notes, make available for the first time the forgotten stories of Pound and his Chinese friends.

The Genesis of Chinese Communist Foreign Policy Michael H. Hunt, 1996 Is the Confucian tradition compatible with the Western understanding of human rights? Are there fundamental human values, regardless of cultural differences, common to all peoples of all nations? At this critical point in Communist China's history, eighteen distinguished scholars address the role of Confucianism in dealing with questions of universal human rights.
