*The Big Beach Cleanup* Charlotte Offsay,2021-03-23 When it comes to the environment, a community must work together. Cora is excited to enter the local sandcastle-building contest—until the contest is canceled due to litter at the beach. Determined to help save their favorite place, Cora and Mama get to work picking up the single-use plastics that have washed onto the shore. It will take more than four hands to clean up the beach, but Cora is just getting started.

The Cleanup John Skipp,Craig Spector,1987 The angel gave Billy Rowe the power to wipe out crime in the streets of New York City. **The Cleanup** Sean Doolittle,2006-10-31 Matthew Worth is a mess. Somewhere between a good cop and a bad screwup, he botched a marriage and a career. His fellow officers think he's a joke. His commanders are tired of cutting him breaks. Even his wife has left him for a flashy homicide detective. Busted to night patrol at a robbery-prone Omaha supermarket, Worth is doing time, wearing his uniform and asking shoppers if they want paper or plastic. If that isn't enough, he suspects he might be falling for Gwen, the shy checkout girl who may be an even bigger mess than he is. It couldn't get any worse. Until it does. When Gwen comes to him one night scared and desperate for help, Worth discovers just how far he's willing to go to protect and serve. The next thing he knows, he's driving a stolen car with a corpse in the trunk, a pistol in the glove box, and no way to turn back. Everything he doesn't know could get them killed. And things haven't even begun to get messy yet....

*The Art of Clean Up* Ursus Wehrli,2013-02-19 The modern world can get messy. Fortunately, Swiss artist Ursus Wehrli is a man of obsessive order, as he demonstrates with eye-catching surprise in *The Art of Clean Up*. Already a bestseller in Germany, this compulsive title has sold more than 100,000 copies in less than a year, and the fastidiously arranged images have garnered blog love from NPR, Brain Pickings, swissmiss, and more. Tapping into the desire for organization and the insanity of über-order, Wehrli humorously categorizes everyday objects and situations by color, size, and shape. He arranges alphabet soup into alphabetical order, sorts the night sky by star size, and aligns sunbathers' accoutrements—all captured in bright photographs sure to astonish even the pickiest of neat freaks.

*Strategies for Accelerating Cleanup at Toxic Waste Sites* Scott Marshall Payne,2020-07-26 Accelerating Cleanup at Toxic Waste Sites: Fast-tracking Environmental Actions and Decision Making presents truly innovative advances in investigative and cleanup technologies, offering valuable solutions that streamline the data collection process, speed up the time it takes to characterize a site, and expedite decision making. Using easy to understand graphic displays, tables, text summaries, and real world case studies, and by synthesizing technical and regulatory reference information crucial to the development of effective cleanup strategies, this book provides the framework for environmental professionals to develop project and program approaches that meet today's needs. An advanced text for those with at least basic understanding of environmental investigation, cleanup, regulations, decision making, and policy development, Accelerating Cleanup at Toxic Waste Sites addresses the human side of the environmental industry and why it is perhaps one of the most important considerations for successful accelerated cleanup. This book takes the next step by providing managers, project teams, and other professionals with approaches that bring techniques, regulations, strategies, and people together into one comprehensive package that works.

Military Base Closures: Opportunities Exist to Improve Environmental Cleanup Cost Reporting & to Expedite Transfer of Unneeded Property ,2007 While expected environmental cleanup costs for unneeded property arising from the 2005 BRAC round are not yet fully known, Department of Defense (DOD) data indicate that about \$950 million will be needed to clean up these bases, adding to the estimated \$13.2 billion total cleanup cost for the prior rounds. Although DOD's cleanup program has matured compared to prior BRAC rounds, there are still many unknowns and the cleanup estimate for the 2005 round should be considered preliminary. In fact, environmental cleanup costs are likely to increase as more intensive environmental investigations are undertaken, additional hazardous conditions are discovered, and future reuse plans are finalized. Furthermore, Congress does not have full visibility over the total cost of DOD's BRAC cleanup efforts because none of the four reports DOD prepares on various aspects of environmental cleanup present all types of costs past and future to complete cleanup at each base. Compiling a complete picture of all costs requires extracting information from multiple reports, as GAO has done to estimate the total cleanup cost for the four prior BRAC rounds. More complete and transparent cost information would assist Congress in conducting its oversight responsibilities for this multibillion dollar effort.

Environmental Cleanup Costs Brad Hathaway,2000-07 This report reviews the National Aeronautics & Space Administration's (NASA) environmental cleanup costs. It provides an assessment of NASA's: (1) determination of the extent of contamination it may be responsible for cleanup & progress in its cleanup program, (2) cost estimates for accomplishing cleanup, & (3) efforts to determine whether potentially responsible parties should share in cleanup costs. Includes a map showing location of NASA field facilities having potentially contaminated sites, plus other maps. Charts, tables & graphs.

**Environmental Cleanup at Navy Facilities** Committee on Environmental Remediation at Naval Facilities,Commission on Geosciences, Environment and Resources,Division on Earth and Life Studies,National Research Council,1999-04-01 The fiscal and technological limitations associated with cleaning up hazardous waste sites to background conditions have prompted responsible parties to turn to risk-based methods for environmental remediation. Environmental Cleanup at Navy Facilities reviews and critiques risk-based methods, including those developed by the U.S. Environmental Protection Agency and the American Society of Testing and Materials. These critiques lead to the identification of eleven criteria that must be part of any risk-based methodology adopted by the Navy, a responsible party with a large number of complex and heavily contaminated waste sites.
