**Raw Concrete** Barnabas Calder, 2022-07-26 SHORTLISTED FOR THE ALICE DAVIS HITCHCOCK AWARD 'Brilliant' ELAIN HARWOOD 'Part history, part aesthetic autobiography, wholly engaging and liable to convince those procrastinators sitting (uncomfortably) on the concrete fence' JONATHAN MEADES 'A learned and passionate book' SIMON BRADLEY, author of *The Railways* 'A compelling and evocative read, meticulously researched, and filled with insight and passion' KATE GOODWIN, Head of

Architecture, Royal Academy of Arts \_\_\_\_\_ The raw concrete buildings of the 1960s constitute the greatest flowering of architecture the world has ever seen. The biggest construction boom in history promoted unprecedented technological innovation and an explosion of competitive creativity amongst architects, engineers and concrete-workers. The Brutalist style was the result. Today, after several decades in the shadows, attitudes towards Brutalism are slowly changing, but it is a movement that is still overlooked, and grossly underrated. Raw Concrete overturns the perception of Brutalist buildings as the penny-pinching, utilitarian products of dutiful social concern. Instead it looks a little closer, uncovering the luxuriously skilled craft and daring engineering with which the best buildings of the 1960s came into being: magnificent architectural visions serving clients rich and poor, radical and conservative. Beginning in a tiny hermitage on the remote north Scottish coast, and ending up backstage at the National Theatre, Raw Concrete embarks on a wide-ranging journey through Britain over the past sixty years, stopping to examine how eight extraordinary buildings were made - from commission to construction - why they have been so vilified, and why they are beginning to be loved. In it, Barnabas Calder puts forward a powerful case: Brutalism is the best architecture there has ever been, and perhaps the best there ever will be.

**Reconceive** David Joyce,Tim Banner,2022-06-20 Private, public, and voluntary organisations all provide services we either like to consume or require to lead a fulfilling and healthy life. As such, well-functioning service organisations are central to a productive and positive society. A central premise of this book is that, over time, customers come to negatively view service organisations. We have found, time and again, the failure to bring people together to achieve the purpose the organisation has been set up to accomplish is the reason customers of service organisations hold this negative view. This book is about establishing leadership designed to liberate people and organisations from stultifying systems and structures. It is about eliminating the waste caused by unclear objectives, arbitrary use of power, and the excessive levels of activity and effort found in many organisations. In short, we help progressive leaders understand and treat systemic causes of poor customer and employee experiences, unproductive activity, and unnecessary operational expense. What results is a productive and positively viewed organisation, that is better for customers, better for the organisation, and better for you and your colleagues. We offer guidance, using award-winning practical methods and leadership tools based upon a coherent and integrated theory of organisational behaviour underpinned by over 25 years of research and application in the field. The purpose of this book is to help you, as a progressive leader, to positively change your service organisation for the benefit of all.

**Building an EBusiness** Elizabeth Eisner Reding,2001 This is an e-commerce book that moves beyond a survey atmosphere to provide hands on experience. It is designed specifically for those who want to develop web skills and business plans for use in starting an e-business. This book integrates and fills the gap between How to Design Web Pages and business and marketing courses. It is not a how-to book dealing with the conversion of existing businesses to the electronic arena; it focuses on entrepreneurs who want to begin an e-business but lack basic knowledge of the Internet and in developing business and marketing plans. Building an e-Business is aimed at those interested in starting an e-business, it makes use of the Web, and assumes little or no Internet knowledge.

**The Offer You Can't Refuse** Steven Van Belleghem,2020-09-08 What if customers expect more than just a good product, excellent service and perfectly performing digital interfaces? And what if new technologies like 5G, artificial intelligence, quantum

computing and robotics offer possibilities that go beyond mere ease of use? Digital ease of use is the new minimum. It has become a commodity. The customer now regards it as the most normal thing in the world to have access to limitless products and services with just a single click of a mouse. In the years ahead, companies will need to play an active role in the 'life journey' of customers: helping to make their dreams come true and removing problems from their daily lives. In addition, customers are looking increasingly to companies instead of governments to tackle societal challenges like climate change, health care and mobility. If your company succeeds in providing outstanding digital service, becomes a partner in the life of your customers and provides solutions for major societal issues, you will develop 'an offer you can't refuse'.

**The End of Absence** Michael John Harris, 2014-08-07 Soon enough, nobody will remember life before the Internet. What does this unavoidable fact mean? Those of us who have lived both with and without the crowded connectivity of online life have a rare opportunity. We can still recognize the difference between Before and After. We catch ourselves idly reaching for our phones at the bus stop. Or we notice how, midconversation, a fumbling friend dives into the perfect recall of Google. In this eloquent and thought-provoking book, Michael Harris argues that amid all the changes we're experiencing, the most interesting is the end of absence-the loss of lack. The daydreaming silences in our lives are filled; the burning solitudes are extinguished. There's no true free time when you carry a smartphone. Today's rarest commodity is the chance to be alone with your thoughts. Michael Harris is an award-winning journalist and a contributing editor at Western Living and Vancouvermagazines. He lives in Toronto, Canada.

*Telling the American Story* Livia Polanyi,1989 Stories reflect culture, and American stories reflect American culture is Livia Polanyi's provocative thesis in *Telling the American Story*. Combining linguistic and cultural analyses, Polanyi provides thoughtful insights into many features of conversational stories that have either been put aside or omitted from formal analysis within cognitive science. She also brings to life stories as cultural artifacts in which every evaluation, presupposition, point, perspective, and interpretation is a reflection of popular culture. Examining the structure of autobiographical stories, Polanyi pays close attention to the storyteller's own evaluation of the events he or she is narrating -- why it is being told, and what the audience is to learn by it. This leads to an extended discussion of the ways in which narrative structure is embedded in conversation. Polanyi shows how in negotiating a story and negotiating the point of a story, false starts and repairs can be used to further the narrative. Polanyi then analyzes several personal American stories such as *Fainting on the Subway* and *Eating on the New York Thruway* -- for the propositions they express about American culture and draws these propositions together in a broad compendium, or grammar, of cultural assumptions. These chapters in particular provide perhaps the earliest and best efforts at making explicit the commonsense knowledge that underlies discourse and every other human activity. The book concludes with the creation of *The American story*, a text made up of sentences each of which can be seen as a compressed form of a myriad of real stories told in American conversation. Livia Polanyi is with Bolt, Beranek and Newman. A
