**The Coach Approach to School Leadership** Jessica Johnson, Shira Leibowitz, Kathy Perret, 2017-05-22 In *The Coach Approach to School Leadership*, Jessica Johnson, Shira Leibowitz, and Kathy Perret address a dilemma faced by many principals: how to function as learning leaders while fulfilling their evaluative and management duties. The answer? Incorporating instructional coaching techniques as an integral part of serious school improvement. The authors explain how principals can \* Master the skill of “switching hats” between the nonjudgmental coach role and the evaluative supervisor role. \* Expand their classroom visits and combine coaching with evaluation requirements. \* Nurture relationships with teachers and build a positive school culture. \* Provide high-quality feedback to support the development of both teachers and students. \* Empower teachers to lead their own professional learning and work together as a team. Drawing from the authors’ work with schools as well as their conversations with educators across the globe, this thought-provoking book speaks to the unique needs of principals as instructional leaders, providing solutions to challenges in every aspect of this complex endeavor. The role of the principal is changing at a rapid pace. Let this resource guide you in improving your own practice while helping teachers master the high-quality instruction that leads to student success.

**Becoming a Better Sports Coach** Andreas Carlsson, 2021-09-20 Research on coaching education and development highlights, repeatedly, the difficulties of traditional coaching education to impact coaching practice. Practice seems to be disconnected from scientific theory with few coaches accessing the scientific literature as it too often is presented in dry, academic tones. This volume sets out to provide an integration of theory and everyday practice that to date has not yet been published in the field of coaching science in a text easily used by sports coaches. In order to bridge this theory to practice gap, *Becoming a Better Sports Coach: Development through Theory Application* presents theory and science connected to practice in a way that makes it possible for coaches to test, evaluate and improve upon their existing coaching practice. This hands-on approach sets out to improve coaches’ cognition and raising self-awareness as well as improve coaches’ learning using specific tools for behavioural feedback and reflection. Improving on self-reflective skills and eliciting feedback on the coach’s own behaviour is how coaching practice is improved. What coaching practice includes and what is laid out for coaches in this new text is motivational climate, coaching behaviours, pedagogy, feedback, coach–athlete relationship, each in one chapter. Reflection and behavioural feedback are applied to each of these areas.

*Coaching Presence: Understanding the Power of the Non-Verbal Relationship* p Tünde Erdős, 2021-06-25 Professional wisdom has suggested that coaching presence is purely about the coach – how they show up in the room, and what they say and do to support clients to reach their goals. But what if it was about the relational dynamics between the coach and client at an unspoken level? In this book, Tünde Erdős demystifies the power of the non-verbal coaching relationship. Put simply, the body does not lie. Using research from 184 videoed coach-client pairs and exploring their spontaneous interactions at a non-verbal level, we deepen our understanding of how clients navigate uncertainties (including in the coaching room) and how coaches can truly partner with clients to

facilitate their goal attainment beyond traditional coaching. This book also reveals that a coach’s full-body presence can sometimes hinder learning and prevent progress towards a goal. Tünde Erdös guides the reader through Integrative Presence, where you will learn how to:

- Build awareness of your state of presence
- Identify potential coaching blind spots
- Recognise when your needs block presence
- Practice integrative presence in coaching
- Foster effective coaching partnerships

An excellent example of how coaching practice has informed research and with a foreword from Erik De Haan, this book will help anyone looking to enhance their coaching effectiveness through closer partnering with clients. This book includes many high-quality and universal components to help professional coaches to make valuable progress. Patrick Delamaire, co-developer of the Global Executive Coaching Program at HEC Paris WBECS is delighted to have been able to help support Tunde in her research to complete this valuable work on the importance of presence in the coaching experience. Marva Sadler, CEO, WBECS Group This insightful book will help coaches to reflect on and enhance their practice. Prof Stephen Palmer, Wales Academy for Professional Practice and Applied Research, University of Wales Trinity Saint David, UK Tünde Erdös is an executive coach, coaching scientist, author and lecturer at HEC Paris. Tünde is passionate about staying curious as we co-create the future of coaching through a balance of science and practical wisdom.
