The Columbia Book of Later Chinese Poetry Jonathan Chaves,1986 Jonathan Chaves makes available a vast store of rich and significant poems by both major and minor poets from China's last three dynasties. Featured are poems from the Yuan dynasty, which range from quiet landscape depictions to expansive, freely expressive works; from the Ming era, notable for its stylistic quality and its diversity; and from the Ch'ing dynasty, known for poets who, by refusing to fit into any category, helped continue the fascinating richness of late Ming cultural life. Annotated with biographical sketches of the poets and illustrated with their paintings, this collection is an unprecedented anthology of exceptionally well translated Chinese poetry up to the twentieth century.

The Almanac of American Politics, 1998 Michael Barone, Grant Ujifusa, Richard E. Cohen, 1997 The essential roadmap to the events of the past two years and the years to come, The Almanac of American Politics 1998 features a wealth of information about national, state, and local governments, including profiles of all 535 members of Congress and all 50 governors, voting records on major legislation, updated maps of congressional districts, and more.

Remembering Columbia John M. Sherrer III, Historic Columbia, 2015 Columbia, South Carolina, is very much a tale of two cities. Remembering Columbia is a visual road map that merges images with accounts of people, sites, and events pulled from historical newspapers, diaries, and ephemera. Founded as a political compromise, forged by an economy shackled by slavery, and physically vanquished by fire, the Palmetto State's second capital became a proving ground for a new society less than a century after its establishment. During the course of the next 100 years, Columbians--new and old, black and white, rich and poor--would physically transform their city in ways that reflected their needs, aspirations, fears, and wherewithal. Building upon the efforts of previous generations, this account explores South Carolina's capital city from its early years through the mid-20th century in ways previously underdeveloped or altogether unrepresented. The result is an intriguing detective story that will be enriching, surprising, and compelling to life-long residents, newcomers, and visitors alike.

Columbia Rising John L. Brooke, 2013-08-01 In Columbia Rising, Bancroft Prize-winning historian John L. Brooke explores the struggle within the young American nation over the extension of social and political rights after the Revolution. By closely examining the formation and interplay of political structures and civil institutions in the upper Hudson Valley, Brooke traces the debates over who should fall within and outside of the legally protected category of citizen. The story of Martin Van Buren threads the narrative, since his views profoundly influenced American understandings of consent and civil society and led to the birth of the American party system. Brooke's analysis of the revolutionary settlement as a dynamic and unstable compromise over the balance of power offers a window onto a local struggle that mirrored the nationwide effort to define American citizenship.

Bringing Columbia Home Michael D. Leinbach, Jonathan H. Ward, 2018-01-23 Voted the Best Space Book of 2018 by the Space Hipsters The dramatic inside story of the epic search and recovery operation after the Columbia space shuttle disaster. On February 1, 2003, Columbia disintegrated on reentry before the nation's eyes, and all seven astronauts aboard were lost. Author Mike Leinbach, Launch Director of the space shuttle program at NASA's John F. Kennedy Space Center was a key leader in the search and recovery effort as NASA, FEMA, the FBI, the US Forest Service, and dozens more federal, state, and local agencies combed an area of rural east Texas the size of Rhode Island for every piece of the shuttle and her crew they could find. Assisted by hundreds of volunteers, it would become the largest ground search operation in US history. This comprehensive account is told in four parts: Parallel Confusion Courage, Compassion, and Commitment Picking Up the Pieces A Bittersweet Victory For the first time, here is the definitive inside story of the Columbia disaster and recovery and the inspiring message it ultimately holds. In the aftermath of tragedy, people and communities came together to help bring home the remains of the crew and nearly 40 percent of shuttle, an effort that was instrumental in piecing together what happened so the shuttle program could return to flight and complete the International Space Station. Bringing Columbia Home shares the deeply personal stories that emerged as NASA employees looked for lost colleagues and searchers overcame immense physical, logistical, and emotional challenges and worked together to accomplish the impossible. Featuring a foreword and epilogue by astronauts Robert Crippen and Eileen Collins, and dedicated to the astronauts and recovery search persons who lost their lives, this is an incredible, compelling narrative about the best of humanity in the darkest of times and about how a failure at the pinnacle of human achievement became a story of cooperation and hope.

The Columbia Guide to the Holocaust Donald L. Niewyk, Francis R. Nicosia, 2012-07-24 Offering a multidimensional approach to one of the most important episodes of the twentieth century, The Columbia Guide to the Holocaust offers readers and researchers a general history of the Holocaust while delving into the core issues and debates in the study of the Holocaust today. Each of the book's five distinct parts stands on its own as valuable research aids; together, they constitute an integrated whole. Part I provides a narrative overview of the Holocaust, placing it within the larger context of Nazi Germany and World War II. Part II examines eight critical issues or controversies in the study of the Holocaust, including the following questions: Were the Jews the sole targets of Nazi genocide, or must other groups, such as homosexuals, the handicapped, Gypsies, and political dissenters, also be included? What are the historical roots of the Holocaust? How and why did the Final Solution come about? Why did bystanders extend or withhold aid? Part III consists of a concise chronology of major events and developments that took place surrounding the Holocaust, including the armistice ending World War I, the opening of the first major concentration camp at Dachau, Germany's invasion of Poland, the failed assassination attempt against Hitler, and the formation of Israel. Part IV contains short descriptive articles on more than two hundred key people, places, terms, and institutions central to a thorough understanding of the Holocaust. Entries include Adolf Eichmann, Anne Frank, the Warsaw Ghetto, Aryanization, the SS, Kristallnacht, and the Catholic Church. Part V presents an annotated guide to the best print, video, electronic, and institutional resources in English for further study. Armed with the tools contained in this volume, students or researchers investigating this vast and complicated topic will gain an informed understanding of one of the greatest tragedies in world history.

The Columbia Guide to Religion in American History Paul Harvey, Edward J. Blum, 2012-02-14 The first guide to American religious history from colonial times to the present, this anthology features twenty-two leading scholars speaking on major themes and topics in the development of the diverse religious traditions of the United States. These include the growth and spread of evangelical culture, the mutual influence of religion and politics, the rise of fundamentalism, the role of gender and popular culture, and the problems and possibilities of pluralism.

Geared toward general readers, students, researchers, and scholars, *The Columbia Guide to Religion in American History* provides concise yet broad surveys of specific fields, with an extensive glossary and bibliographies listing relevant books, films, articles, music, and media resources for navigating different streams of religious thought and culture. The collection opens with a thematic exploration of American religious history and culture and follows with twenty topical chapters, each of which illuminates the dominant questions and lines of inquiry that have determined scholarship within that chapter's chosen theme. Contributors also outline areas in need of further, more sophisticated study and identify critical resources for additional research. The glossary, *American Religious History, A–Z*, lists crucial people, movements, groups, concepts, and historical events, enhanced by extensive statistical data.

My Columbia Ashbel Green, 2005 During its 250-year history, Columbia University has produced a remarkable array of writers, poets, scientists, and statesmen--many of whom have written eloquently about their experiences at the university. *My Columbia* collects a broad range of these reminiscences--excerpts from memoirs, novels, and poems--that relate the experiences of students, faculty, and administrators and paint a vibrant portrait of the university and the city of which it is such a vital part.

Columbia in Manhattanville Caitlin Blanchfield, 2016 Home to the famed Cotton Club, Alexander Hamilton's grange, the Manhattan Project, and a Studebaker factory, West Harlem has been an ever-transforming pocket of New York City. With the arrival of Columbia University's Manhattanville expansion--a campus master plan designed by architect Renzo Piano--it is now also a site of experimentation in the future of the twenty-first century university. Bringing together conversations with the architects and planners designing the Manhattanville campus, the educators who will inhabit its buildings, and essays from urban and architectural historians, this book both documents the making of Manhattanville and critically engages with the University's own history of expansion. Featuring contributions from Renzo Piano, Elizabeth Diller, Charles Renfro, Amale Andraos, Reinhold Martin, Tom Jessell, and Maxine Griffith, among others.

The Columbia Guide to Standard American English Kenneth George Wilson, 1993 An A to Z format for quick reference, suggestions based on current language practice, chart of levels of speech and writing geared to context, descriptive and prescriptive entries, guidelines for nonsexist usage.

The Columbia History of the 20th Century Richard W. Bulliet, 1998 In the parade of highlights with which many have tried to sum up the twentieth century, the overarching patterns and fundamental transformations often fail to come into focus. *The Columbia History of the 20th Century*, however, is much more than a chronicle of the previous century's front-page news. Instead, the book is a series of twenty-three linked interpretive essays on the most significant developments in modern times--ranging from athletics to art, the economy to the environment. Rather than presenting a linear narrative, each author uncovers patterns of worldwide change. James Mayall, for example, writes on nationalism from the rise of European fascism to the rise of Asian and African nations; Sheila Fitzpatrick traces the history of communism and socialism in Moscow and Havana. In her chapter on women and gender, Rosalind Rosenberg covers the progress of women's rights throughout the world, from Middle Eastern activism to the American feminist movement. Jean-Marc Ran Oppenheim's history of sports traces the spread of Western sports to all corners of the globe and the West's appropriation of such activities as martial arts. In each, the important strands of history--events, ideas, leading figures, issues--come together to offer an illuminating look at cultural connection, diffusion, and conflict, showing in stark relief how this period has been unlike any preceding era of human history.

The Columbia Documentary History of Race and Ethnicity in America Ronald H. Bayor, 2004-07-14 All historians would agree that America is a nation of nations. But what does that mean in terms of the issues that have moved and shaped us as a people? Contemporary concerns such as bilingualism, incorporation/assimilation, dual identity, ethnic politics, quotas and affirmative action, residential segregation, and the volume of immigration resonate with a past that has confronted variations of these modern issues. *The Columbia Documentary History of Race and Ethnicity in America*, written and compiled by a highly respected team of American historians under the editorship of Ronald Bayor, illuminates the myriad ways in which immigration, racial, and ethnic histories have shaped the contours of contemporary American society. This invaluable resource documents all eras of the American past, including black-white interactions and the broad spectrum of American attitudes and reactions concerning Native Americans, Irish Catholics, Mexican Americans, Jewish Americans, and other groups. Each of the eight chronological chapters contains a survey essay, an annotated bibliography, and 20 to 30 related public and private primary source documents, including manifestos, speeches, court cases, letters, memoirs, and much more. From the 1655 petition of Jewish merchants regarding the admission of Jews to the New Netherlands colony to an interview with a Chinese American worker regarding a 1938 strike in San Francisco, documents are drawn from a variety of sources and allow students and others direct access to our past. Selections include Powhatan to John Smith, 1609 Thomas Jefferson--Notes on the State of Virginia Petition of the Trustees of Congregation Shearith Israel, 1811 Bessie Conway or, The Irish Girl in America German Society in Chicago, Annual Report, 1857--1858. Mark Twain's Salutation to the Century W. E. B. DuBois, Of Our Spiritual Strivings NAACP on Black Schoolteachers' Fight for Equal Pay Malcolm X speech, 1964 Hewy Newton interview and Black Panther Party platform Preamble--La Raza Unida Party Lee Iacocca speech to Ethnic Heritage Council of the Pacific Northwest, 1984 Native American Graves and Repatriation Act, 1990 L.A. riot--from the Los Angeles Times, May 3, 15, 1992; Nov. 16, 19, 1992 Asian American Political Alliance President Clinton's Commission on Race, Town Meeting, 1997 Louis Farrakhan--The Vision for the Million Man March

The Way Out Peter T. Coleman, 2021-06-01 The partisan divide in the United States has widened to a chasm. Legislators vote along party lines and rarely cross the aisle. Political polarization is personal, too--and it is making us miserable. Surveys show that Americans have become more fearful and hateful of supporters of the opposing political party and imagine that they hold much more extreme views than they actually do. We have cordoned ourselves off: we prefer to date and marry those with similar opinions and are less willing to spend time with people on the other side. How can we loosen the grip of this toxic polarization and start working on our most pressing problems? *The Way Out* offers an escape from this morass. The social psychologist Peter T. Coleman explores how conflict resolution and complexity science provide guidance for dealing with seemingly intractable political differences. Deploying the concept of attractors in dynamical systems, he explains why we are stuck in this rut as well as the unexpected ways that deeply rooted oppositions can and do change. Coleman meticulously

details principles and practices for navigating and healing the difficult divides in our homes, workplaces, and communities, blending compelling personal accounts from his years of working on entrenched conflicts with lessons from leading-edge research. The Way Out is a vital and timely guide to breaking free from the cycle of mutual contempt in order to better our lives, relationships, and country.
